WEBSITE DOCUMENTATION · FULL ANALYSIS

Complete Website Analysis

ZeniTEK Solar Thermal Solutions — every page, section, title, topic, link, form and image of the website, explained in plain English, with its technical architecture and a list of content gaps.

Website	**ZeniTEK Solar Thermal Solutions** (solar dryers & solar thermal systems)
Source analysed	Repository `R:\Production\ZeniTEK` (branch `main`, commit 1250a6e) and the site rendered in a browser
Scope	21 public pages, 5 detail-page templates (101 detail pages), 3 redirects, 4 restricted admin areas — 136 addresses checked
Languages on site	English, Tamil, Hindi, Malayalam, Telugu, Kannada (this document uses English)
Document date	1 November 2026
Companion files	Website_Sitemap.pdf · Website_Content_Inventory.xlsx

14.2 Strengths 142

14.3 Priorities to fix 142

A Appendix — Route Verification Log 143

1 Website Overview

1.1 What the website is

The ZeniTEK website is the online sales and information site of **ZeniTEK Solar Thermal Solutions**, a company based in Erode, Tamil Nadu (registered 2021; earlier, from 2017, operating as Smart Bricks Construction). It designs, builds and installs **solar dryers** — enclosed, sun-heated chambers that dry crops, spices, herbs, fish and industrial material faster and more hygienically than drying in the open sun — as well as solar thermal (heat) systems, solar PV integration and research test rigs.

The site's main goal is to turn visitors — mainly farmers, Farmer Producer Organisations (FPOs), food processors/exporters, self-help groups and CSR/NGO partners — into **quote enquiries**. Almost every page ends with a 'Get Free Quote' button that opens one enquiry form; submitted enquiries are stored and continued as a WhatsApp chat with the sales team.

1.2 Who it is for and what it says

Audience	What the site offers them
Individual / smallholder farmers	Box dryers and tunnels, 40–60% government subsidy help, crop drying guidance
FPOs, co-operatives, SHGs	Community tunnel dryers (500 kg+), subsidy paperwork, buyer linkage
Food processors & exporters	Hygienic, moisture-controlled drying for export quality
Industrial users	Sludge, rubber and timber drying; solar process heat
CSR foundations / NGOs	Partnership for rural livelihood projects
Universities & labs	Research rigs, solar thermal installations, PV test rigs

Recurring messages: stop post-harvest loss; 100% solar-powered, hygienic drying that keeps colour, aroma and nutrients; ~40% faster than open-sun drying; MNRE-approved and ISO 9001:2015-certified; 40–60% of the cost can be covered by government subsidies, with ZeniTEK handling the paperwork.

1.3 The website at a glance

21 public pages

101 detail pages (5 templates)

8 dryer models

6 languages

25 documented projects

35 map installation sites

30 gallery photos

3 PDF brochures

Area	Pages
Main pages	Home, About Us (incl. R&D), Subsidies, Contact Us, Get Free Quote

Area	Pages
Products & solutions	Products hub, Solar Dryer Models, Solar Thermal System, Agri-Solar Innovation, Photovoltaic Solutions, Government Subsidies, Crop Preservation Guide, Technical Spec Sheets, Applications
Media & proof	Gallery, Installations (map), Farmer Stories
Detail pages	8 dryer models, 25 projects, 35 installation sites, 30 photos, 3 brochure readers
Support & legal	Site Map, Privacy Policy, Terms of Service, Page Not Found
Restricted (staff)	Admin sign-in chooser, Client Admin CMS, Developer Admin, Tester

1.4 How this analysis was produced

- Every source file of the React front end and the Express back end was read (routes, components, page code, data files, translation files, API routes and database models).
- The site was started locally and every address (136 in total, including every detail page, the redirects and deliberate 'not found' tests) was opened in a headless Microsoft Edge browser. Headings, text, buttons, links, form fields, images and tables were extracted from what actually rendered, and screenshots were taken.
- The back-end API server was intentionally not started: its start-up job writes to the production database. The front end therefore displayed its built-in default content, which is what visitors see whenever the API is unreachable. Content that the Client Admin has edited in the live database (product sections, published products, gallery uploads, approved reviews) may differ; where this matters it is pointed out.
- Content is quoted exactly where titles and terms matter. Claims made by the site (statistics, certifications, results) are reported as the site's claims; they were not independently verified.

> **Reading guide.** Chapter 2 gives the structure; Chapter 3 one information block per page; Chapter 4 a section-by-section walk-through of every page with a screenshot; Chapters 5–6 the title and topic inventories; Chapter 7 all product/service data; Chapters 8–9 navigation and interactive elements; Chapters 10–12 images, SEO and technology; Chapter 13 problems found; Chapter 14 the summary; Appendix A the verification log.

2 Website Structure and Sitemap

2.1 Visual page hierarchy

The diagram shows every page and how it hangs off the Home page and the main navigation. Green boxes are families of detail pages generated from data; grey boxes are sections or actions inside a page; orange boxes need a staff login.

`/gallery/:id`	Gallery Photo Detail	Detail template	30	Public
`/brochures/:brochureId`	Brochure Reader	Detail template	3	Public
`/dryers`	Redirect → /solar-dryer-models	Legacy address	1	Redirect
`/dryers/:id`	Redirect → /projects/:id	Legacy address	25	Redirect
`/map`	Redirect → /installations	Legacy address	1	Redirect

Address (route)	Page	Group	Pages	Access
`/admin/login`	Admin Sign-in Chooser	Staff area	—	Login required
`/admin/*`	Client Admin (website CMS)	Staff area	—	Login required
`/admin/developer/*`	Developer Admin (bug triage)	Staff area	—	Login required
`/admin/tester/*`	Tester (bug reporting)	Staff area	—	Login required

Query and hash variants. `/gallery?cat=all` and `/gallery?cat=brochure` (Gallery menu) open the Gallery with a category pre-selected; `/about#rnd` (navbar 'R&D') opens About Us scrolled to the Research & Development card; `/quote?…` carries pre-filled form values; `/solar-dryer-models/soldry-1210`, `soldry-1709` and `soldry-3000` are accepted aliases for model pages.

2.4 Pages that are inaccessible or not linked publicly

Page / content	Why it is not normally visible
/admin, /admin/developer, /admin/tester (and sub-pages)	Require a username and password (staff only). Only their sign-in screens were documented.
'Our Products' section on Solar Dryer Models	Appears only when the Client Admin publishes products in the CMS; hidden with the default content.
Video tab on installation pages	Built into the page but no installation record has a video, so it never appears.
Floating 'Report a bug' button	Shown only while a tester or the client admin is signed in.
Detail pages (models, projects, sites, photos, brochures)	Not listed on the Site Map page; reachable only from their parent lists, maps and cards.
Real reviews from the database	Farmer Stories loads approved reviews when the API is up; the Home page always shows the three built-in sample reviews.

3 Complete Page-by-Page Analysis

One information block per page, in the order the pages appear in the site's navigation. Detail-page templates and the staff area follow. Section-level detail is in Chapter 4.

3.1 Home

Page name	Home
URL / route	`/`
Browser tab title	ZeniTEK | Solar Dryers & Solar Thermal Systems
Main title (H1)	Stop Post-Harvest Loss. Multiply Your Farm Profits.
Page purpose	The front door of the website. It introduces ZeniTEK's solar dryers, proves credibility (certifications, installations, partners, testimonials) and pushes visitors toward a quote enquiry.
Page description	A long, scrolling landing page with nine sections: a photo carousel hero, trust badges, a product slideshow presented as a 'calculator', a dryer model showcase, an interactive installation map, crop examples, a company introduction with partner logos, customer testimonials and a quick enquiry form.
Main topics covered	Post-harvest loss · Solar thermal dryers · Government subsidy (40–60%) · Dryer models · Installations map · Crops that can be dried · Company background · Testimonials · Quote enquiry
Number of sections	9

3.2 Products

Page name	Products
URL / route	`/products`
Browser tab title	Products | ZeniTEK
Main title (H1)	Solar Drying & Energy Solutions
Page purpose	A hub page that gives the navbar 'Products' item a page of its own and lets visitors pick one of the eight solution/product areas.
Page description	A photo hero followed by a grid of eight cards (the seven solution categories plus Applications), each with a photo, title and one-line description.
Main topics covered	Product & solution categories
Number of sections	2

3.3 Solar Dryer Models

Page name	Solar Dryer Models

URL / route	`/solar-dryer-models`
Browser tab title	Solar Dryer Models | ZeniTEK
Main title (H1)	High-Performance Solar Dryers Engineered for Agriculture & Food Processing
Page purpose	The main product catalogue: every dryer model with specifications, how the dryer works, brochure pages, real photos, the 25-project gallery and the installation map.
Page description	The longest page on the site (9 main sections plus a quick-jump strip). It combines product information with proof of installations.
Main topics covered	8 dryer models · Box vs tunnel dryers · SOLDRY profile comparison · Working principle (7 steps) · Brochure catalogue · Real photos · Project installations · Installations map
Number of sections	11

3.4 Solar Thermal System

Page name	Solar Thermal System
URL / route	`/solar-thermal-system`
Browser tab title	Solar Thermal System | ZeniTEK Solar Thermal Solutions
Main title (H1)	Solar Thermal System
Page purpose	Explains ZeniTEK's solar thermal (heat-collecting) systems used to heat drying chambers without fuel.
Page description	Built from the shared solution-page template: hero, highlight cards, overview article and a closing call to action.
Main topics covered	Selective absorber surfaces · Forced-convection ducts · Chamber temperature up to 65°C · Thermal storage · Blower automation
Number of sections	4

3.5 Agri-Solar Innovation

Page name	Agri-Solar Innovation
URL / route	`/agri-solar-innovation`
Browser tab title	Agri-Solar Innovation | ZeniTEK Solar Thermal Solutions
Main title (H1)	Agri-Solar Innovation
Page purpose	Explains why decentralised solar drying helps farmers and FPOs earn more than open-yard sun drying.
Page description	Built from the shared solution-page template: hero, highlight cards, overview article and a closing call to action.

Main topics covered	Multi-crop versatility · Moisture 85% → <8% in 18–36 h · Colour/curcumin/oil retention · UV protection · 25–45% higher selling price
Number of sections	4

3.6 Photovoltaic Solutions

Page name	Photovoltaic Solutions
URL / route	`/photovoltaic-solutions`
Browser tab title	Photovoltaic Solutions | ZeniTEK Solar Thermal Solutions
Main title (H1)	Photovoltaic Solutions
Page purpose	Explains the solar-electric (PV) parts of a dryer: panels, DC blowers, batteries and grid backup.
Page description	Built from the shared solution-page template: hero, highlight cards, overview article and a closing call to action.
Main topics covered	Monocrystalline PV modules · BLDC blowers · LFP battery storage · Grid failover · IoT smart controller
Number of sections	4

3.7 Government Subsidies (solution page)

Page name	Government Subsidies (solution page)
URL / route	`/government-subsidies`
Browser tab title	Government Subsidies | ZeniTEK Solar Thermal Solutions
Main title (H1)	Government Subsidies
Page purpose	Explains which government schemes can pay part of a dryer's cost and how ZeniTEK handles the paperwork; includes a subsidy calculator.
Page description	Built from the shared solution-page template: hero, highlight cards, overview article, a special interactive widget and a closing call to action.
Main topics covered	MIDH / SHM · MNRE · AIF · PM-FME · DPR & liaison support · Subsidy calculator
Number of sections	5

3.8 Crop Preservation Guide

Page name	Crop Preservation Guide
URL / route	`/crop-preservation-guide`
Browser tab title	Crop Preservation Guide | ZeniTEK Solar Thermal Solutions
Main title (H1)	Crop Preservation Guide

Page purpose	Gives recommended drying temperatures, moisture targets and drying times for common crops; includes a searchable table.
Page description	Built from the shared solution-page template: hero, highlight cards, overview article, a special interactive widget and a closing call to action.
Main topics covered	Spice temperatures · Fruit protocols · Herbal plants · Moisture targets · FSSAI/export compliance · Crop dehydration matrix
Number of sections	5

3.9 Technical Spec Sheets

Page name	Technical Spec Sheets
URL / route	`/technical-spec-sheets`
Browser tab title	Technical Spec Sheets | ZeniTEK Solar Thermal Solutions
Main title (H1)	Technical Spec Sheets
Page purpose	Summarises construction materials and foundation requirements and offers the three PDF brochures for download.
Page description	Built from the shared solution-page template: hero, highlight cards, overview article, a special interactive widget and a closing call to action.
Main topics covered	Polycarbonate glazing · SS304 trays · Wind-load rating · Civil & foundation requirements · Downloadable brochures
Number of sections	5

3.10 Applications

Page name	Applications
URL / route	`/applications`
Browser tab title	Applications | ZeniTEK
Main title (H1)	Engineered to Dry Over 50+ Agricultural & Industrial Products
Page purpose	Shows which crops and products ZeniTEK dryers can dry, with drying times, and offers tailored offers for different customer types.
Page description	Hero, a tabbed card grid by segment, a searchable moisture/time comparison table, and three persona cards.
Main topics covered	Food & agriculture · Marine & seafood · Industrial & biomass · Moisture matrix · Customer personas
Number of sections	4

3.11 Subsidies

Page name	Subsidies
URL / route	`/subsidies`
Browser tab title	Subsidies | ZeniTEK
Main title (H1)	Government Subsidies for ZeniTEK Solar Dryers (40% – 60%)
Page purpose	The main subsidy information page (linked from the navbar). It estimates the subsidy a visitor may get, lists the four schemes and explains ZeniTEK's five-step assistance process.
Page description	Hero, eligibility estimator, scheme cards and process steps with a consultation call-to-action.
Main topics covered	Subsidy estimate · MIDH/SHM · MNRE · AIF · PM-FME · Application process
Number of sections	4

3.12 About Us

Page name	About Us
URL / route	`/about`
Browser tab title	About Us | ZeniTEK
Main title (H1)	Towards a Sustainable Future
Page purpose	Tells the company story, the four business domains, landmark projects, partners and registered details. The navbar 'R&D' item also opens this page (at /about#rnd), scrolling to and highlighting the Research & Development card.
Page description	Seven sections: hero with stats, company roots and mentors, 'What We Do' (4 domains), landmark installations with filters, partner marquees, a photo reel, and a contact block.
Main topics covered	Company history · Mentors · Solar thermal · Agri-solar · Photovoltaics · R&D · Landmark projects · Partners · Registered details
Number of sections	7

3.13 Contact Us

Page name	Contact Us
URL / route	`/contact`
Browser tab title	Contact Us | ZeniTEK
Main title (H1)	Let's Build Your Sustainable Drying Solution.
Page purpose	Gives every way to reach ZeniTEK and provides a pre-qualifying enquiry form that is saved by the server and continued on WhatsApp.

Page description	Hero, a two-column block (addresses/phones/emails on the left, enquiry form on the right), a support-assurance row and a CSR partnership banner.
Main topics covered	Office addresses · GSTIN · Phone & email · WhatsApp · Enquiry form · CSR partnerships
Number of sections	4

3.14 Get Free Quote

Page name	Get Free Quote
URL / route	`/quote`
Browser tab title	Get Free Quote | ZeniTEK
Main title (H1)	Get Free Quote & Subsidy Sizing
Page purpose	The single destination of every quote button on the site. It shows the full enquiry form, pre-filled from the address bar, and sends it to ZeniTEK.
Page description	One section: title, the enquiry form and three reassurance badges.
Main topics covered	Quote request · Subsidy sizing · WhatsApp follow-up
Number of sections	1

3.15 Gallery

Page name	Gallery
URL / route	`/gallery`
Browser tab title	Gallery | ZeniTEK
Main title (H1)	ZeniTEK Solar Drying Systems Real Installation & Product Photographs
Page purpose	Shows all 30 catalogued real photographs and the 3 PDF brochures, filterable by category and searchable.
Page description	Hero with search, a filterable card grid, and a turnkey-quote banner. The navbar Gallery menu opens it as 'Images' (/gallery?cat=all) or 'Brochure' (/gallery?cat=brochure).
Main topics covered	Field photos · Photo categories · Brochures
Number of sections	3

3.16 Installations

Page name	Installations
URL / route	`/installations`
Browser tab title	Installations | ZeniTEK
Main title (H1)	Active Solar Dryer Installations Across South India & Beyond

Page purpose	Shows every recorded ZeniTEK installation on an interactive map and invites visitors to book a site visit. (/map redirects here.)
Page description	Hero, the interactive map, and a site-visit call-to-action.
Main topics covered	Installation map · 35 sites in 9 states · Site visits
Number of sections	2

3.17 Farmer Stories

Page name	Farmer Stories
URL / route	`/stories`
Browser tab title	Farmer Stories | ZeniTEK
Main title (H1)	Real Stories. Real Prosperity. Zero Food Waste.
Page purpose	Builds trust through impact numbers, customer video reviews, a case study and ZeniTEK's support commitments.
Page description	Hero, impact dashboard, video reviews, one case study and a support commitment grid.
Main topics covered	Impact statistics · Video testimonials · Pollachi case study · Support commitment
Number of sections	5

3.18 Privacy Policy

Page name	Privacy Policy
URL / route	`/privacy`
Browser tab title	Privacy Policy | ZeniTEK
Main title (H1)	Privacy Policy
Page purpose	States how enquiry data is used.
Page description	A short single-section notice (two paragraphs and contact details).
Main topics covered	Data use · No selling of data · Privacy contact
Number of sections	1

3.19 Terms of Service

Page name	Terms of Service
URL / route	`/terms`
Browser tab title	Terms of Service | ZeniTEK
Main title (H1)	Terms of Service

Page purpose	States the basic equipment guarantee and that performance figures are indicative.
Page description	A short single-section notice.
Main topics covered	Quality standards · Indicative performance · Corporate information
Number of sections	1

3.20 Site Map

Page name	Site Map
URL / route	`/sitemap`
Browser tab title	Site Map | ZeniTEK
Main title (H1)	Every Page on the Website
Page purpose	Lists every main page so any page can be reached in one click.
Page description	Four grouped lists of links.
Main topics covered	Main Pages · Products & Solutions · Gallery & Installations · Support & Legal
Number of sections	1

3.21 Page Not Found (404)

Page name	Page Not Found (404)
URL / route	`/<any unknown address>`
Browser tab title	Page not found | ZeniTEK
Main title (H1)	Page not found
Page purpose	Shown for any web address that is not a page of the site.
Page description	Error message, a home button and popular-page shortcuts.
Main topics covered	Error recovery
Number of sections	1

3.22 Dryer Model Detail (template)

Page name	Dryer Model Detail (template, 8 pages)
URL / route	`/solar-dryer-models/:modelId` — e.g. `/solar-dryer-models/soldry-1210-150`
Browser tab title	<item title> | ZeniTEK
Main title (H1)	The item's name, e.g. 'SOLDRY 1210 - 150 Tunnel Type Solar Dryer'
Page purpose	One page per official dryer model with photos, specifications and advantages.

Page description	Photo gallery with thumbnails, model summary (capacity, description, target audience, subsidy eligibility, payback), a technical specification list and key advantages, with quote links. Unknown model IDs show 'Model not found'. Short aliases soldry-1210, soldry-1709 and soldry-300 are accepted.
Number of sections	3

3.23 Project Detail (template)

Page name	Project Detail (template, 25 pages)
URL / route	`/projects/:id` — e.g. `/projects/01`
Browser tab title	<item title> | ZeniTEK
Main title (H1)	The item's name, e.g. 'Lakhanpuri'
Page purpose	A case-study page for each of the 25 documented project installations (reached from the Solar Dryer Models page; old /dryers/:id links redirect here).
Page description	Large photo with project badges, crop/application story and highlight tiles on the left; specification table, quality badges and a quote box on the right; previous/next project navigation. Project #06 (Mulbagal) also has an Exterior/Interior photo switch. Unknown IDs show 'Project Not Found'.
Number of sections	2

3.24 Installation (Map Site) Detail (template)

Page name	Installation (Map Site) Detail (template, 35 pages)
URL / route	`/installations/:id` — e.g. `/installations/loc-1`
Browser tab title	<item title> | ZeniTEK
Main title (H1)	The item's name, e.g. 'Komarapalayam ZeniTEK Innovation Centre'
Page purpose	A page for each of the 35 map sites, reached from map pins.
Page description	Site title, location, photo, dryer type, batch capacity, target produce, description and 'Drying Results at This Site'. A video tab exists in code but no site has a video. Unknown IDs show 'Installation not found'.
Number of sections	2

3.25 Gallery Photo Detail (template)

Page name	Gallery Photo Detail (template, 30 pages)
URL / route	`/gallery/:id` — e.g. `/gallery/photo-01`
Browser tab title	<item title> | ZeniTEK
Main title (H1)	The item's name, e.g. 'SUNDRY 50 Commercial 8-Tray Solar Box Dryer'
Page purpose	A detail page for each of the 30 gallery photos, with specifications and a location map.

Page description	Share bar; centred title; large photo with angle thumbnails and zoom; 'Verified field site' box; engineering specifications; quote and WhatsApp buttons; a Leaflet map at the photo's GPS location; three related photos. An unknown ID silently shows photo-01 instead of a 'not found' message.
Number of sections	3

3.26 Brochure Reader (template)

Page name	Brochure Reader (template, 3 pages)
URL / route	`/brochures/:brochureId` — e.g. `/brochures/solar-dryer`
Browser tab title	<item title> | ZeniTEK
Main title (H1)	The item's name, e.g. 'Solar Dryer Technical Brochure'
Page purpose	Lets visitors read a PDF brochure page by page in the browser, download it or share it.
Page description	Title, subtitle, page count and size; download/open/share buttons; links to the other brochures; page-number jump links and each page as an image; a quote button. Unknown IDs show 'Brochure not found'.
Number of sections	2

3.27 Restricted staff area

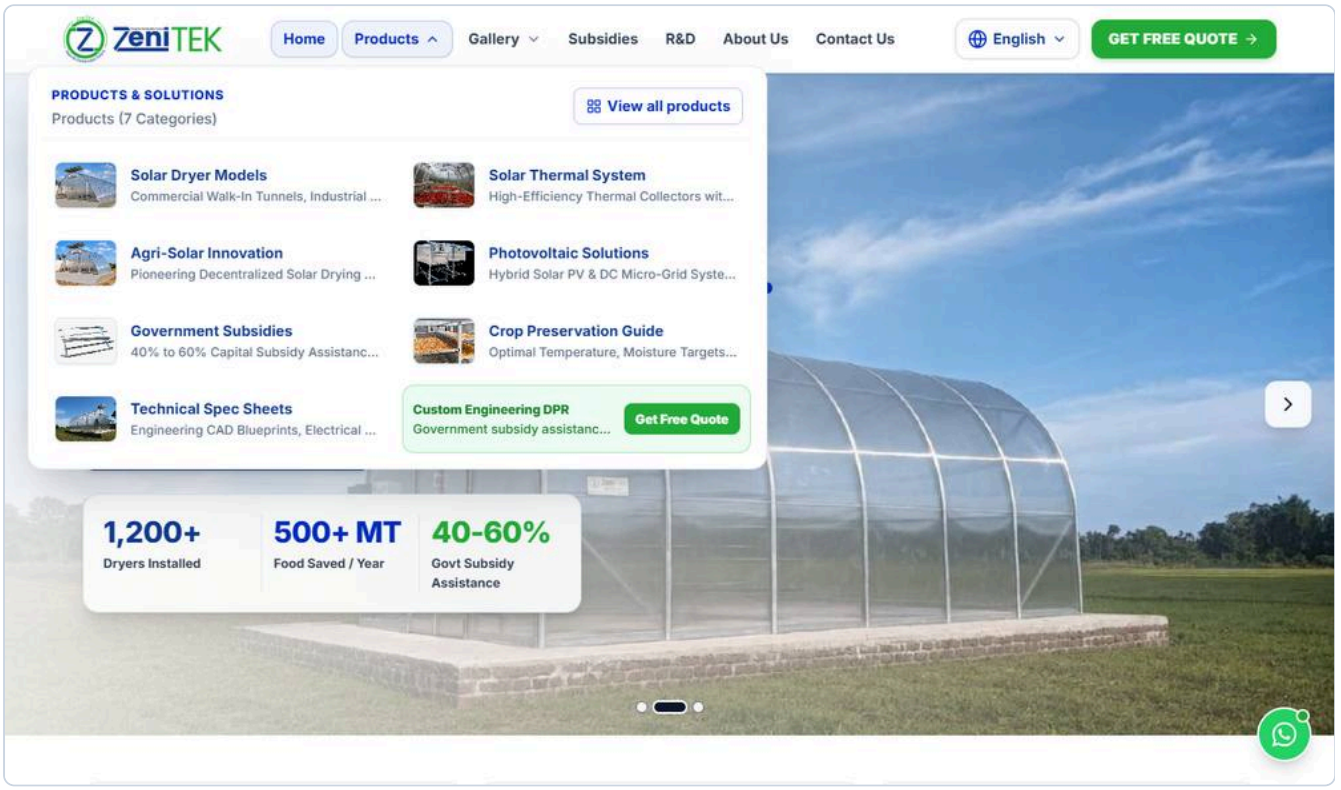

Route	Page	Purpose
`/admin/login`	Admin Sign-in Chooser	Lets staff choose which dashboard to sign in to: Client Admin, Developer Admin or Tester.
`/admin`	Client Admin (website CMS)	Sign-in, then a dashboard for the business owner: Overview, Enquiries (leads, with detail and delete), Products, Product Sections, Gallery, Reviews (approve/hide/delete) and Bug Status (read-only bug tracker plus ability to report a bug).
`/admin/developer`	Developer Admin (bug triage)	Sign-in, then a bug-tracker dashboard: summary counts (open, in progress, completed, overdue; by priority/severity/category), All Bugs, Overdue (past 7-day deadline), Completed, bug detail with status changes, and an Excel report download.
`/admin/tester`	Tester (bug reporting)	Sign-in, then a dashboard for testers: My Bugs and Report a Bug (with screenshots). While a tester or client admin is signed in, a floating 'Report a bug' button also appears on public pages.

4 Detailed Section-by-Section Documentation

For each page: a screenshot of the top of the page as rendered on a 1366-pixel-wide desktop screen, followed by every section from top to bottom. Each section lists its title, subheading, what it communicates, topics, important facts, visuals, and every button or link with its destination. 'Opens the Get Free Quote page' means the button navigates to `/quote`; the values it pre-fills are noted.

4.1 Global elements (on every public page)

These parts surround every public page. They are documented once here.

Navbar with the Products menu open (desktop, 1366 px wide)

Section 1 Opening animation

Content / description	On first load, the empty navbar appears, then the logo (0.4 s), the menu items (1.2 s), and finally the whole page fades in (1.9 s).
Buttons, links & destinations	None in this section

Section 2 Navbar — logo

Content / description	ZeniTEK logo ('Towards Sustainable Future').
Buttons, links & destinations	**Logo** → / (Home; scrolls to top if already there)

Section 3 Navbar — menu items

Content / description	Seven items in this order: Home, Products ▾, Gallery ▾, Subsidies, R&D, About Us, Contact Us. On desktop, hovering Products/Gallery opens a drop-down; clicking opens the page itself. On touch screens a tap opens the drop-down.
Buttons, links & destinations	**Home** → / **Products (click)** → /products **Gallery (click)** → /gallery **Subsidies** → /subsidies **R&D** → /about#rnd **About Us** → /about **Contact Us** → /contact

Section 4 Products drop-down (mega menu)

Content / description	Header 'PRODUCTS & SOLUTIONS — Products (7 Categories)', a 'View all products' button, a two-column grid of the 7 solution pages (thumbnail, title, subtitle) and an eighth tile 'Custom Engineering DPR — Government subsidy assistance & quote'.
Buttons, links & destinations	**View all products** → /products **Solar Dryer Models** → /solar-dryer-models **Solar Thermal System** → /solar-thermal-system **Agri-Solar Innovation** → /agri-solar-innovation **Photovoltaic Solutions** → /photovoltaic-solutions **Government Subsidies** → /government-subsidies **Crop Preservation Guide** → /crop-preservation-guide **Technical Spec Sheets** → /technical-spec-sheets **Get Free Quote (tile)** → /quote

Section 5 Gallery drop-down

Content / description	Two entries.
Buttons, links & destinations	**Brochure — Official Technical PDF Pages** → /gallery?cat=brochure **Images — Authentic Real Field Photos** → /gallery?cat=all

Section 6 Language switcher

Content / description	Globe button showing the current language; choices: English, தமிழ் (Tamil), हिंदी (Hindi), മലയാളം (Malayalam), తెలుగు (Telugu), ಕನ್ನಡ (Kannada). The choice is remembered in the browser and also sets the page language attribute.
Buttons, links & destinations	**Language option** → Re-labels the whole site instantly (same address)

Section 7 GET FREE QUOTE button

Content / description	Green button at the right of the navbar on every page.
Buttons, links & destinations	**GET FREE QUOTE** → /quote

Section 8 Mobile menu

Content / description	Below 1024 px the menu collapses into a ☰ button. The drawer lists Home, 'Products (7 Categories)' (accordion with View all products + 7 pages), Gallery (accordion), Subsidies, R&D (with a 'Research & Dev' tag), About Us, Contact Us, the language list and a full-width GET FREE QUOTE button. The page behind is locked; Esc closes it.
Buttons, links & destinations	None in this section

Section 9 Adaptive navbar

Content / description	When labels do not fit (e.g. long Tamil/Malayalam words or narrow laptops) the bar tightens in steps and finally switches to two rows (logo + buttons on top, menu centred below).
Buttons, links & destinations	None in this section

Section 10 Page header (breadcrumb + Back)

Content / description	On every page except Home, a thin bar shows the trail (e.g. Home › Products › Solar Dryer Models) and a Back button (goes to the previous page, or to the parent page if opened directly). It also sets the browser tab title to '<Page> | ZeniTEK'.
Buttons, links & destinations	**Breadcrumb links** → Parent pages **Back** → Previous page / parent

Section 11 Footer — company column

Content / description	Logo, a one-paragraph description ('ZeniTEK manufactures high-efficiency solar thermal collectors and commercial polyhouse dryers…') and two badges: 'MNRE Approved & Enlisted', 'ISO 9001:2015 Certified Quality'.
Buttons, links & destinations	None in this section

Section 12 Footer — Dryer Models column

Content / description	Five model links.
Buttons, links & destinations	**SOLDRY 1210 — Polyhouse Tunnel (100-300 kg)** → /solar-dryer-models/soldry-1210-150 **SOLDRY 1709 — Commercial Tunnel (500 kg-1 Ton)** → /solar-dryer-models/soldry-1709-200 **SOLDRY 300 — Industrial Multi-Unit Rig** → /solar-dryer-models/soldry-1210-300 **SUNDRY 50 — Stainless Box Dryer (50 kg)** → /solar-dryer-models/sundry-50 **SUNDRY 12 & 6 — Portable Micro Dryer Units** → /solar-dryer-models/sundry-12

Section 13 Footer — Product Brochures (PDF) column

Content / description	Three brochure tiles (badge, pages, size, title, subtitle) each with View and Download icons, plus a link to the subsidy guide.
Buttons, links & destinations	**Brochure tile / eye icon** → /brochures/solar-dryer · /brochures/household-box · /brochures/entrepreneur-box **Download icon** → The PDF file **State Agriculture Subsidy Guide** → /subsidies

Section 14 Footer — Offices & Operations column

Content / description	Registered office (Erode) and operation address (Komarapalayam, Namakkal), two phone numbers, an email and a quote button.
Buttons, links & destinations	**+91-8903852623 / +91 80986 13422** → tel: **zenitek2k@gmail.com** → mailto: **GET FREE QUOTE** → /quote

Section 15 Footer — quick links

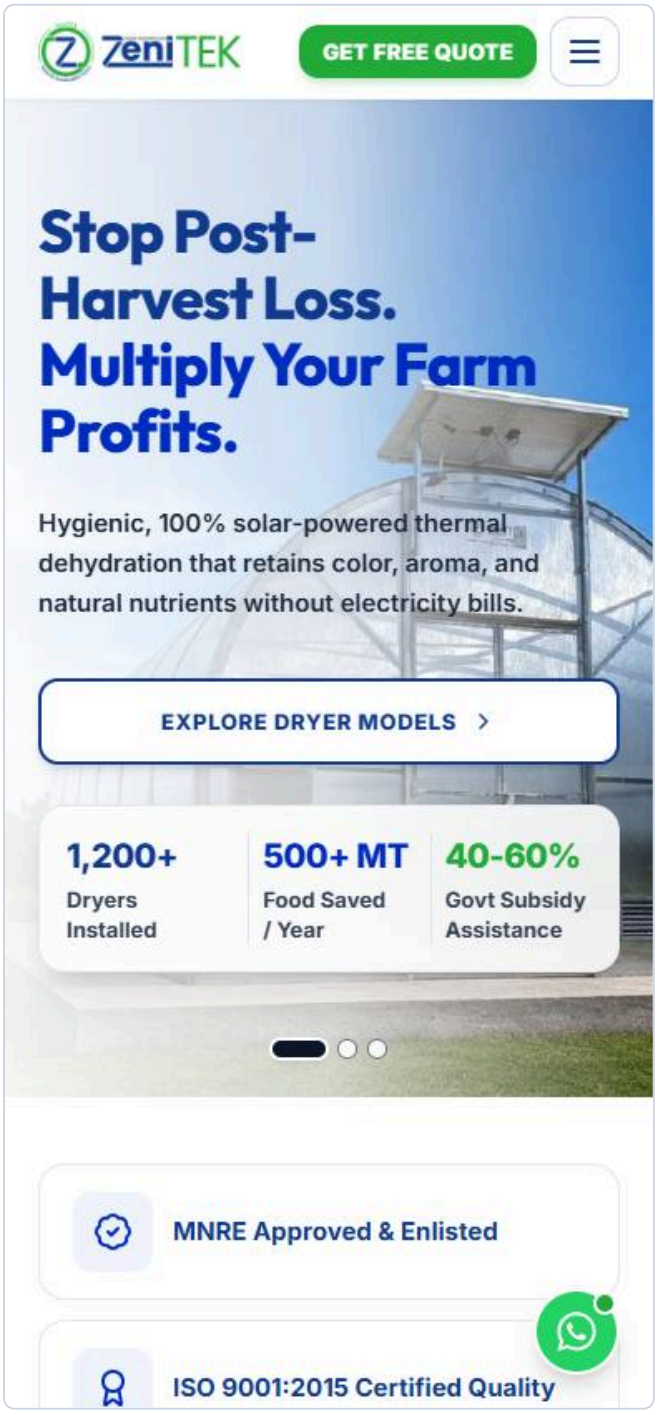

Content / description	Products · Solar Dryer Models · Applications · Subsidies · Gallery · Installations · Farmer Stories · About Us · Contact Us.
Buttons, links & destinations	**Each link** → Its page

Section 16 Footer — bottom bar

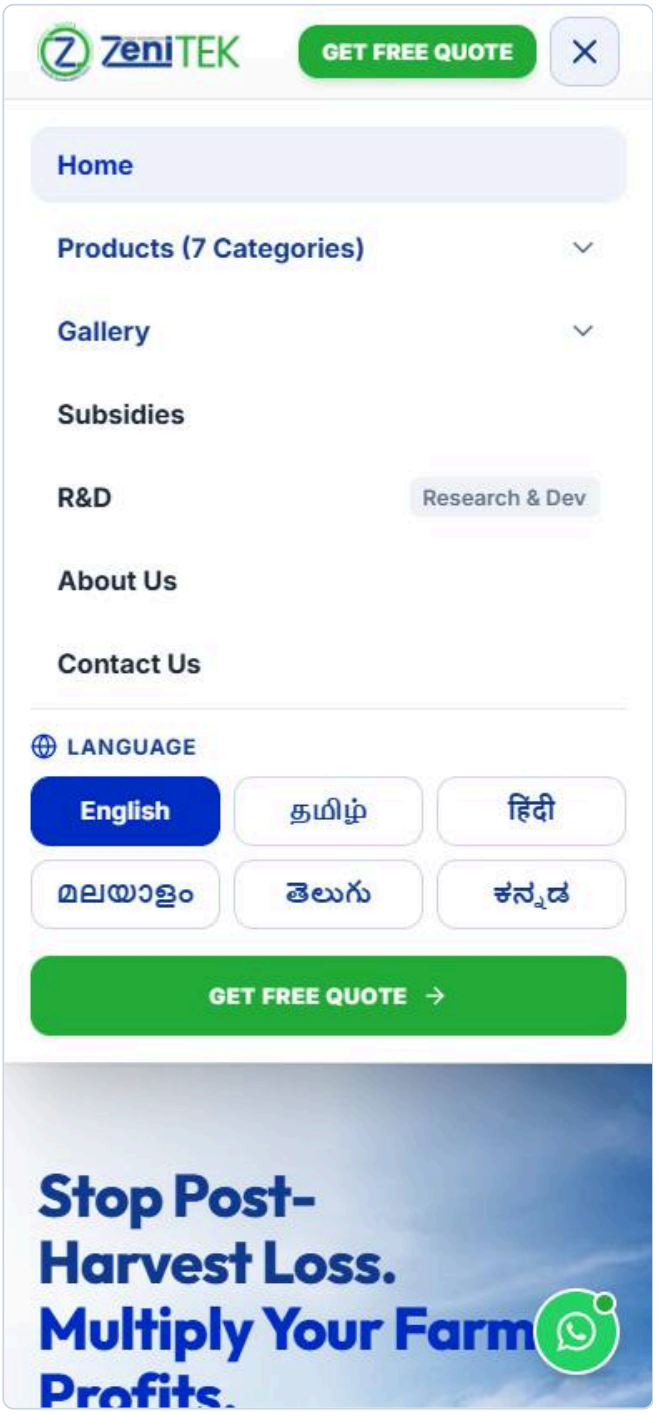

Content / description	'© 2026 ZeniTEK Solar Thermal Solutions. All rights reserved.' with Privacy Policy, Terms of Service, Site Map and 'Designed by KnowledgeToIntelligence'.
Buttons, links & destinations	**Privacy Policy** → /privacy **Terms of Service** → /terms **Site Map** → /sitemap **KnowledgeToIntelligence** → https://knowledgetointelligence.com (new tab)

Section 17 Floating WhatsApp button

Content / description	Green round button fixed at the bottom-right of every page with a tooltip.
Buttons, links & destinations	**WhatsApp icon** → https://wa.me/918098613422 with 'Hi ZeniTEK Team! I am interested in your Solar Dryers...'

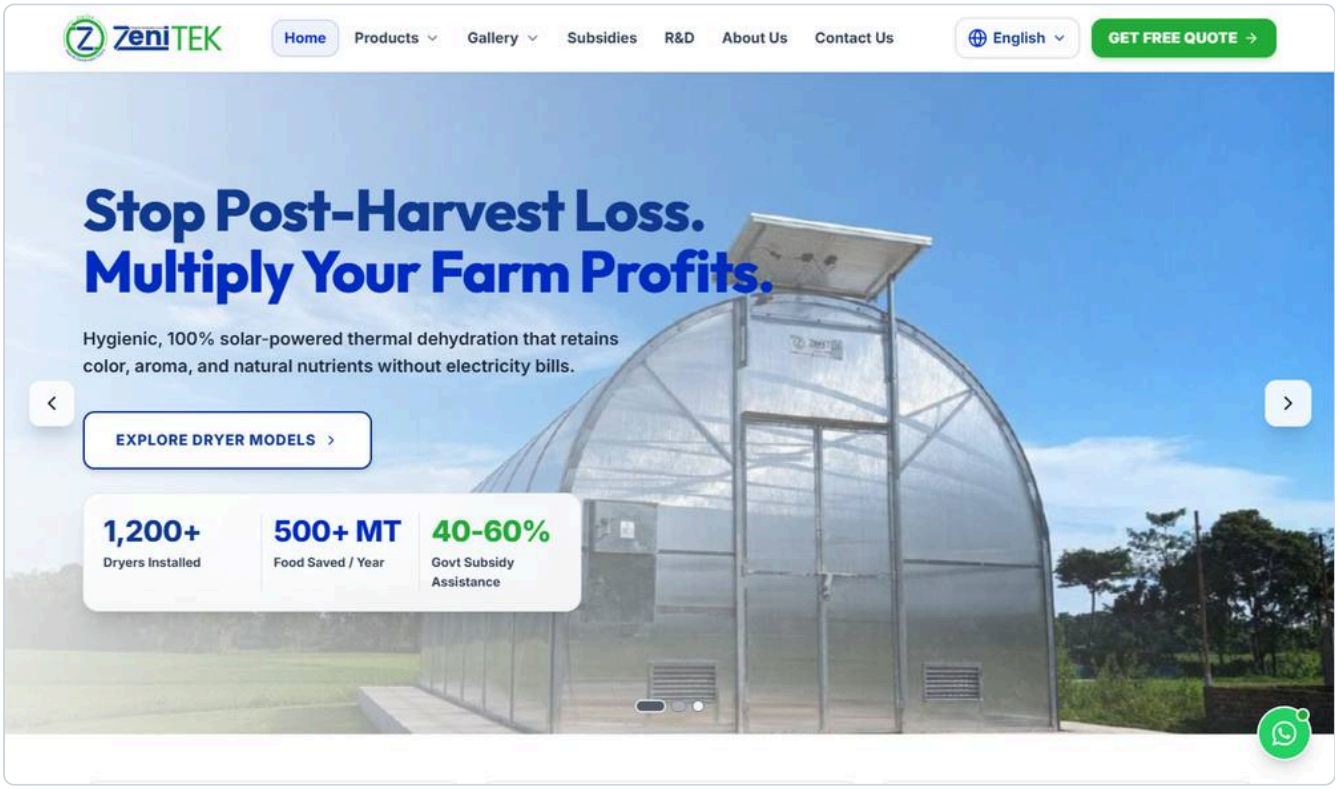

Home on a phone (390 px)

Mobile menu open

4.2 Home — /

Home — top of page

Section 1 **Hero Carousel**

Subheading	Stop Post-Harvest Loss. Multiply Your Farm Profits.
Content / description	The opening banner. A large headline speaks directly to farmers about losing crops after harvest and promises higher profits. Behind it, three real photographs of ZeniTEK tunnel dryers rotate automatically every 5 seconds. A short line explains the product: hygienic, 100% solar-powered drying that keeps colour, aroma and nutrients without electricity bills. A white panel shows three headline numbers.
Topics covered	Value proposition · Solar dehydration · Key statistics
Important information	• 1,200+ Dryers Installed • 500+ MT Food Saved / Year • 40-60% Govt Subsidy Assistance
Images / visuals	3 rotating full-width photos (zenitek_photo_34, 45, 12) with left white fade; left/right arrow buttons; 3 dot indicators.
Buttons, links & destinations	**EXPLORE DRYER MODELS** → /solar-dryer-models **Previous / Next slide arrows** → Change the background photo **Slide dots 1–3** → Jump to a specific photo

Section 2 Trust Strip

Subheading	(no heading — three badges)
Content / description	A slim row of three badges that reassures visitors about quality and eligibility for government money.
Topics covered	Certification · Subsidy eligibility
Important information	• MNRE Approved & Enlisted • ISO 9001:2015 Certified Quality • 100% Eligible for State Subsidies
Images / visuals	Three white cards, each with an icon tile.
Buttons, links & destinations	None in this section

Section 3 Interactive Profit & Sizing Calculator

Subheading	Select your crop and daily harvest quantity to estimate drying speedup & profits.
Content / description	Despite its title, this section is not a calculator: it contains no inputs. It is a two-part product slideshow. The left side cycles through five product photos every 5 seconds (with a progress bar, arrows and dots), each with a title, subtitle and feature pills. The right side shows four 'advantage' cards that change with the slide: loading & dry ratio, drying speed & UV guard, hygienic enclosed processing, and aroma/taste retention.
Topics covered	SOLDRY 1210 Polyhouse Tunnel · SOLDRY 1709 Parabolic Arch Tunnel · Red chilli dehydration · SUNDRY 50 box dryer · Tunnel interior · Drying speed · Hygiene · Quality retention
Important information	• Slide 1 claims '1 sq.m : 400 kg Loading → 200 kg Dry' and '40% Faster Drying • Zero UV Degradation' • Reduces drying from 7 days to 2.5 days (copra example) • SOLDRY 1210 listed here as 150–500 kg / batch
Images / visuals	5 product photos (zenitek_photo_04, 18, 24, 27, 02) cross-fading; 5-second progress bar; slide counter '1 / 5'.
Buttons, links & destinations	**GET SIZING & PRICING FOR THIS MODEL** → Opens the Get Free Quote page (/quote), pre-filled with the current slide's model and crop, and a message 'Inquiry for <model> (400 kg/batch of <crop>)' **Previous / Next product, dots** → Change slide

Section 4 Model Showcase

Subheading	Choose the Perfect Solar Thermal Dryer for Your Farm
Content / description	A carousel presenting six dryer products one at a time (SOLDRY 1210, SOLDRY 1709, SUNDRY 50, SOLDRY 300, SUNDRY 12, SUNDRY 6). Each card shows a photo, model category, capacity per batch and the subsidy range, with buttons to get a quote or read more.
Topics covered	Dryer model comparison · Capacity per batch · Subsidy assistance
Important information	• SOLDRY 1210 – Commercial Polyhouse Tunnel – 150–500 kg/batch • SOLDRY 1709 – Inverted Parabolic Tunnel – 400–1,200 kg/batch • SUNDRY 50 – 20–100 kg • SOLDRY 300 – 300–1,000 kg • SUNDRY 12 – 5–25 kg • SUNDRY 6 – 2.5–12.5 kg • Govt Subsidy Assistance 40% – 60%
Images / visuals	One large product photo per slide plus neighbouring cards; 'Model 1 of 6' counter.
Buttons, links & destinations	**Get Quote** → Opens the Get Free Quote page (/quote), pre-filled with the model's category and an 'Inquiry for <model>' message **Learn More** → /solar-dryer-models/<model> (dryer model detail page) **Go to <model> buttons, Previous / Next** → Switch the showcased model

Section 5 Active Solar Dryer Installations

Subheading	35 working sites across 9 states, most in Tamil Nadu and Karnataka. Tap a marker for details.
Content / description	An interactive map of India (Leaflet) with a pin for each of the 35 recorded installation sites. Visitors can filter by state, search by crop/district/capacity, switch between Satellite, Terrain and Map views, zoom, and 'fit all sites'. Hovering or tapping a pin shows the site's details with links to its own page.
Topics covered	Installation footprint · States served · Site details
Important information	• 35 sites: Tamil Nadu 18, Karnataka 9, Mizoram 2, Assam 1, Maharashtra 1, Chhattisgarh 1, Kerala 1, Gujarat 1, Odisha 1
Images / visuals	Map tiles from Esri (satellite/terrain) and OpenStreetMap-style street map; coloured pins.
Buttons, links & destinations	**State filter buttons (All 35, Tamil Nadu 18 ...)** → Filter pins **Satellite / Terrain / Map** → Change base map **Zoom in / out, Fit all sites** → Map controls **Pin pop-up links** → /installations/<site-id> (installation detail page)

Section 6 What Can You Dry With ZeniTEK?

Subheading	View All 50+ Crops Matrix
Content / description	Three picture cards showing typical products dried in ZeniTEK dryers, each with a one-line benefit.
Topics covered	Red chillies / spices · Herbs & flowers · Salted fish & seafood
Important information	• Spices: no rain damage or mould; natural oils stay locked in • Herbs & flowers keep natural colour and aroma • Seafood: enclosed, fly-free, hygienic drying
Images / visuals	3 photos (chillies on trays, butterfly-pea flowers, dried shrimp).
Buttons, links & destinations	**View All 50+ Crops Matrix** → /applications

Section 7 Towards a Sustainable Future (About ZeniTEK)

Subheading	Trusted by Academic & Industry Partners
Content / description	A short company introduction: founded in 2021 in Erode, ZeniTEK designs, builds and installs solar thermal and solar drying systems, backed by research with leading institutes. Four 'pillar' tags list the business areas. Below, a continuously scrolling strip (marquee) shows partner logos.
Topics covered	Company origin · Business pillars · Academic & industry partners
Important information	• Pillars: Solar Thermal, Agri-Solar, Solar PV, R&D • Partners: IIT Bhubaneswar, Anna University, SRM University, Mitsui Chemicals, Indo-MIM, SELCO Foundation, TNJFU Fisheries Univ, Gandhigram Rural Inst.
Images / visuals	2 photos (farmers loading chillies; tunnel among palm trees); 8 partner logos scrolling.
Buttons, links & destinations	**OUR STORY & PROJECTS** → /about

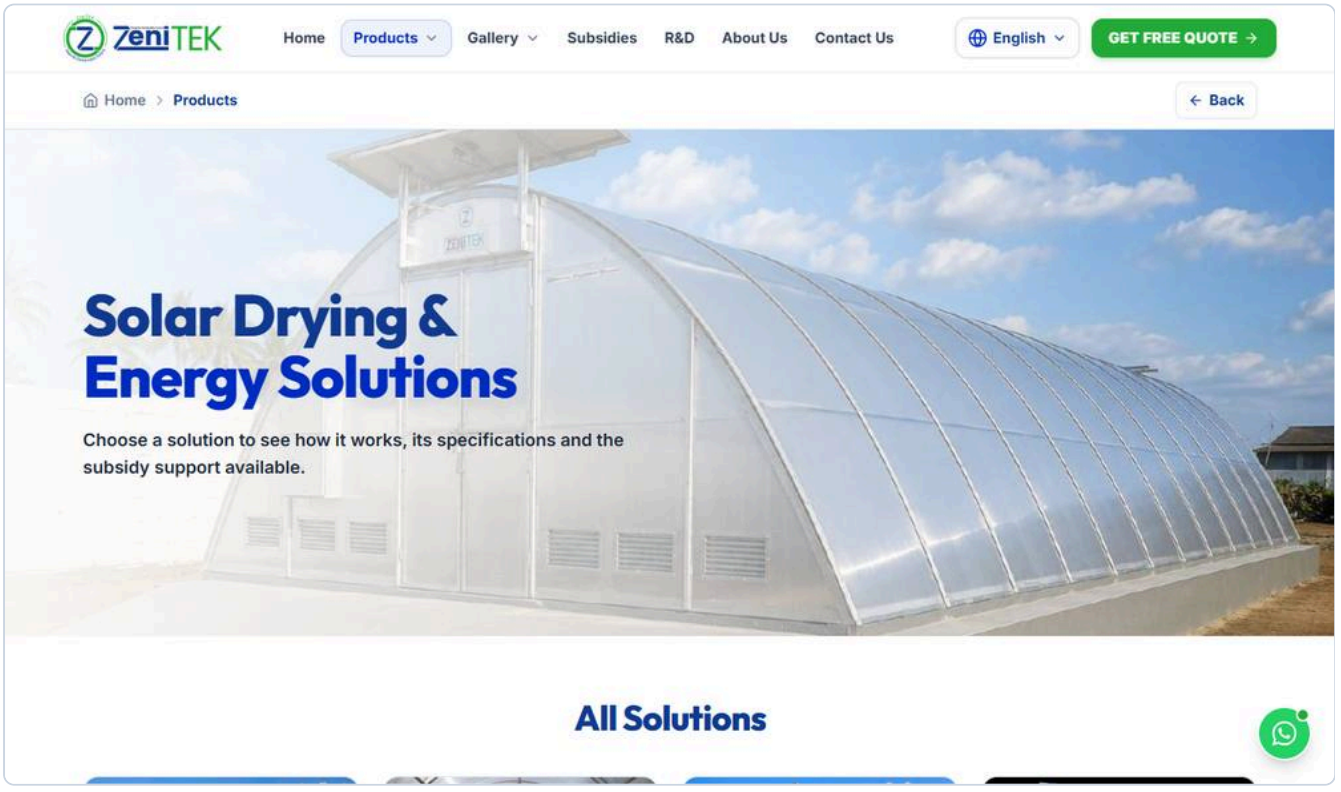

Section 8 Trusted by 1,200+ Agricultural Entrepreneurs

Subheading	What growers, exporters and food entrepreneurs say about ZeniTEK.
Content / description	Three five-star testimonial cards with a quote, name, role and location. These come from built-in sample data (sampleReviews); the Home page always shows these three and does not load approved reviews from the server.
Topics covered	Customer testimonials · Copra margins · Spice export quality · Subsidy & ROI
Important information	• K. Subramaniam – Coconut Farmer & FPO Director – Pollachi, Tamil Nadu • Ananya Nair – Organic Spice Exporter – Wayanad, Kerala • Rajesh Patil – Food Processing Micro-Entrepreneur – Nashik, Maharashtra
Images / visuals	Star ratings; map-pin icon for location.
Buttons, links & destinations	None in this section

Section 9 Get Instant Pricing & Subsidy Details on WhatsApp

Subheading	Fill this 30-second form to receive custom dryer pricing, sizing, and subsidy guidelines.
Content / description	A short enquiry form (name, WhatsApp number, district, dryer model, target crop, requirements). Pressing the button does not send anything by itself: it carries the typed details over to the Get Free Quote page, where the visitor reviews them and submits.
Topics covered	Lead capture · Pricing · Subsidy guidance
Important information	• Required: Your Name, WhatsApp Number, State / District • Dryer Model options: Portable DIY (10–50 kg), Commercial Polyhouse Tunnel (100–500 kg), Multi-Tunnel Industrial Hybrid (1 Ton+), Custom Dryer Sizing Consult • Crop options: Copra/Coconut, Moringa/Herbs/Tea, Red Chillies/Spices, Fruits & Vegetables, Salted Fish & Seafood, Other Biomass & Crops
Images / visuals	Bordered white form card.
Buttons, links & destinations	**GET PRICING & SUBSIDY QUOTE** → Opens the Get Free Quote page (/quote), pre-filled with all six form values (name, phone, district, capacity, crop, message)

4.3 Products — /products

Products — top of page

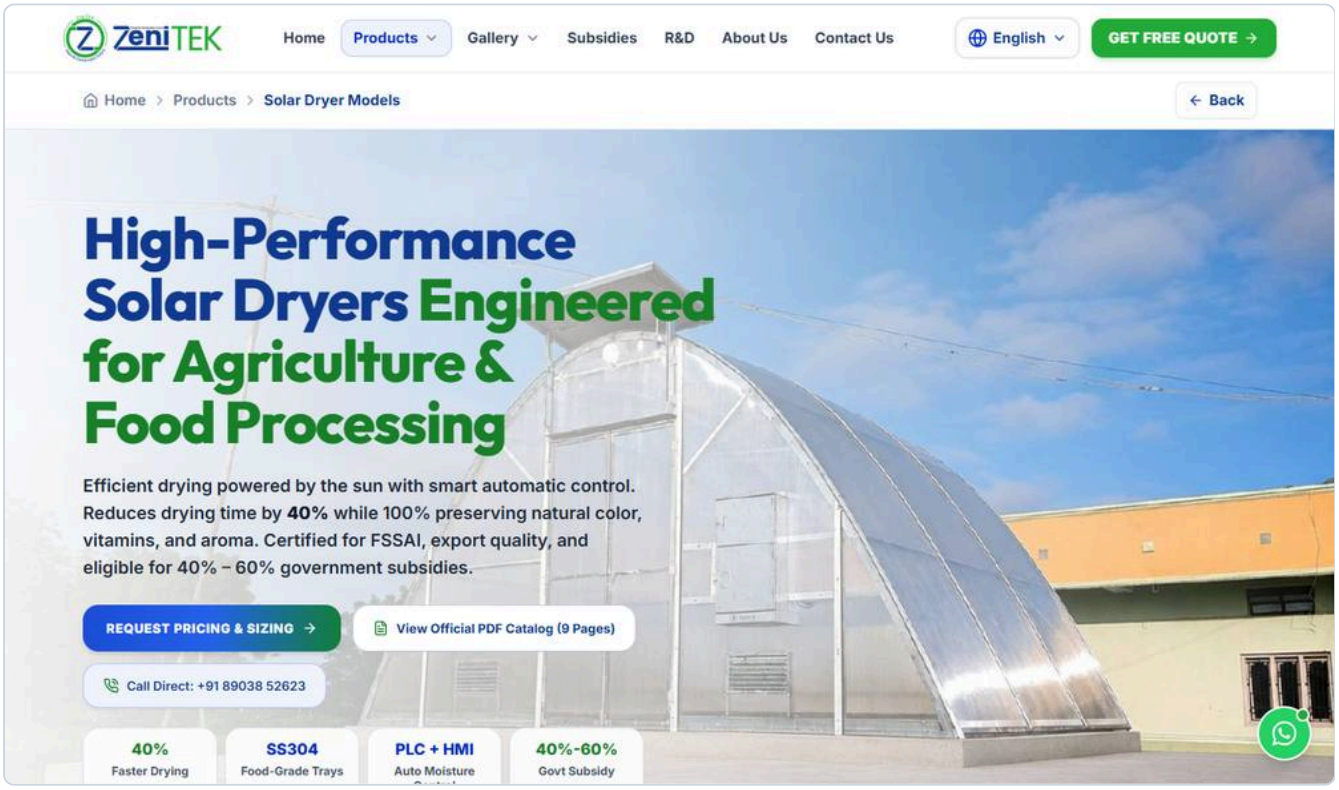

Section 1 **Hero**

Subheading	Choose a solution to see how it works, its specifications and the subsidy support available.
Content / description	Title 'Solar Drying & Energy Solutions' over a tunnel-dryer photo.
Topics covered	Overview
Images / visuals	Background photo zenitek_photo_18.
Buttons, links & destinations	None in this section

Section 2 All Solutions

Subheading	(grid of 8 cards)
Content / description	Eight clickable cards. Each opens the matching page.
Topics covered	Solar Dryer Models · Solar Thermal System · Agri-Solar Innovation · Photovoltaic Solutions · Government Subsidies · Crop Preservation Guide · Technical Spec Sheets · Applications
Important information	• Card descriptions repeat each section's subtitle, e.g. 'High-Efficiency Thermal Collectors with Patented Aerodynamic Air Circulation'
Images / visuals	8 thumbnail photos, icon per card.
Buttons, links & destinations	**Solar Dryer Models** → /solar-dryer-models **Solar Thermal System** → /solar-thermal-system **Agri-Solar Innovation** → /agri-solar-innovation **Photovoltaic Solutions** → /photovoltaic-solutions **Government Subsidies** → /government-subsidies **Crop Preservation Guide** → /crop-preservation-guide **Technical Spec Sheets** → /technical-spec-sheets **Applications** → /applications

4.4 Solar Dryer Models — /solar-dryer-models

Solar Dryer Models — top of page

Section 1 **Hero Header**

Subheading	High-Performance Solar Dryers Engineered for Agriculture & Food Processing
Content / description	Headline with three action buttons and four 'value' figures summarising the product range.
Topics covered	Product range promise
Important information	• 40% Faster Drying • SS304 Food-Grade Trays • PLC + HMI Auto Moisture Control • 40%–60% Govt Subsidy
Images / visuals	Background photo zenitek_photo_44.
Buttons, links & destinations	**REQUEST PRICING & SIZING** → Opens the Get Free Quote page (/quote), pre-filled with capacity 'Commercial Solar Dryer Lineup' **View Official PDF Catalog (9 Pages)** → Scrolls down to the PDF catalogue section **Call Direct: +91 89038 52623** → tel:+918903852623

Section 2 Quick Jump Strip

Subheading	(navigation strip under the hero)
Content / description	A 'Quick Jump:' row of shortcut buttons that scroll the page to each section: Models Lineup (8 Models), Profile Comparison (150 · 200 · 250 Sq.Ft), 7-Step Working Principle, Official PDF Catalog, Real Photos Gallery, Operational GPS Sites Map.
Topics covered	In-page navigation
Images / visuals	Compact button strip.
Buttons, links & destinations	**Each shortcut** → Scrolls to the matching section on this page

Section 3 Our Products (CMS products)

Subheading	Shown only when the Client Admin has published products
Content / description	A dynamic section that appears only if products have been added and published in the admin panel (loaded from /api/public/products). With the default/offline data it is hidden, so it was not visible during this analysis.
Topics covered	Admin-managed products
Important information	• Hidden when no published products exist
Images / visuals	Product photo, name, features.
Buttons, links & destinations	**Get quote on a product** → Opens the Get Free Quote page (/quote), pre-filled with the product name

Section 4 Solar Dryer Models & Technical Specifications

Subheading	From compact household box dryers to high-capacity walk-in commercial tunnel systems
Content / description	A filterable grid of all eight official models. Each card shows a real photo, tier and badge, floor area and capacity per batch. 'View Specifications & Content' opens a panel inside the card with four key spec chips and buttons.
Topics covered	SUNDRY 6 · SUNDRY 12 · SUNDRY 50 · SOLDRY 1210-150 · SOLDRY 1709-200 · SOLDRY 2008-250 · SOLDRY 1210-300 · SOLDRY Modular (up to 1,000 sq.ft)
Important information	• Filters: All Models (8), Box Dryers (3), Tunnel Dryers (5) • Capacities range from 2.5–12.5 kg (SUNDRY 6) to 500–2,500+ kg per batch (Modular)
Images / visuals	8 real product photos (4:3).
Buttons, links & destinations	**Model photo / name** → /solar-dryer-models/<model-id> **View Specifications & Content** → Expands the card **Full details (in panel)** → /solar-dryer-models/<model-id> **Get quote (in panel)** → Opens the Get Free Quote page (/quote), pre-filled with the model name

Section 5 SOLDRY Profile Comparison — 150 · 200 · 250 Sq.Ft

Subheading	Same construction technology. Different profiles. More usable floor area.
Content / description	Compares the three tunnel shapes side by side: width, centre height, floor area, what each is best for and how trays/trolleys fit. A banner explains that tunnels can be extended in prefabricated sections.
Topics covered	Tunnel profiles · Tray vs floor drying · Modular extension
Important information	• 1210-150: 12.5 ft wide, 10 ft high, 150 sq.ft – Tray Drying – 9 trolleys / 36 trays • 1709-200: 17 ft, 9 ft, 200 sq.ft – Tray + Floor Drying • 2008-250: 20 ft, 8 ft, 250 sq.ft – Floor Drying • Modular: up to 53 ft length and 1,000 sq.ft
Images / visuals	3 profile cards with badges (Taller & Narrower / Balanced / Wider & Lower).
Buttons, links & destinations	**CONSULT ON SIZING** → Opens the Get Free Quote page (/quote), pre-filled with capacity 'Modular Scalable Tunnel Sizing'

Section 6 Solar Dryer Working Principle

Subheading	Smart, Efficient, Sustainable — 7-step thermodynamic cycle …
Content / description	Explains in seven numbered steps how the dryer works, followed by an airflow call-out (fresh-air inlet, internal circulation fans, moist-air exhaust).
Topics covered	Solar heat generation · Moisture release · Exhaust & fresh air intake · Automatic control · UV protection · Hygienic drying · Faster drying
Important information	• 6 mm double-walled polycarbonate sheet • PLC & digital sensors control the cycle • 'Drying Time Reduced by 40%'
Images / visuals	Icon per step; airflow callout card.
Buttons, links & destinations	None in this section

Section 7 Official ZeniTEK PDF Product Brochure Catalog

Subheading	Real photos of each product in the official ZeniTEK brochure …
Content / description	Nine cards, one per brochure page (models, profile comparison, segmentation, working principle). Each card can open the scanned brochure page in a full-screen viewer, open the full PDF brochure, or expand a summary.
Topics covered	Brochure pages 1–9
Important information	• '9 Official Brochure Pages'
Images / visuals	9 real product photos with page badges; full-screen brochure-page viewer.
Buttons, links & destinations	**View Brochure Page** → Opens the brochure page image in a pop-up viewer (with download link) **Full PDF Brochure** → /brochures/solar-dryer, /brochures/household-box or /brochures/entrepreneur-box **View Page Details & Summary** → Expands the card

Section 8 Real Operational Solar Dryers in Action

Subheading	Real high-resolution photographs …
Content / description	Eight photo cards taken from the gallery (photo-01 to photo-08) with category, crop, description and model, and a banner inviting visitors to the full gallery.
Topics covered	Field photos · Box dryers · Tunnel interiors · Trays & trolleys
Important information	• Link text says 'Open All 30 Real Photos Gallery' while the banner button says 'Browse Full Gallery (45 Photos)' – both go to the same 30-photo gallery
Images / visuals	8 photos.
Buttons, links & destinations	**Photo card** → /gallery/photo-0N **Open All 30 Real Photos Gallery** → /gallery **Browse Full Gallery (45 Photos)** → /gallery

Section 9 Verified Project Installation Gallery

Subheading	Agricultural solar drying sites operating across 6 Indian states …
Content / description	A searchable, filterable and paginated list of the 25 documented projects. Visitors can search by district/crop/dryer code, filter by year (2023–2026) and state, and page through six cards at a time. Each card expands to show details and a link to the project page.
Topics covered	25 project case studies · Search & filters · Pagination
Important information	• States: Tamil Nadu 11, Karnataka 8, Mizoram 2, Assam 1, Maharashtra 1, Chhattisgarh 1 • Years: 2023 (1), 2024 (5), 2025 (8), 2026 (11)
Images / visuals	Project photos (/projects/project-NN.jpg).
Buttons, links & destinations	**Year / state filter buttons, search box** → Filter the list **View Installation Details & Specs** → /projects/<NN> **First / Previous / Next / Last Page** → Pagination

Section 10 Verified Operational Solar Dryers Map (35 Active Sites)

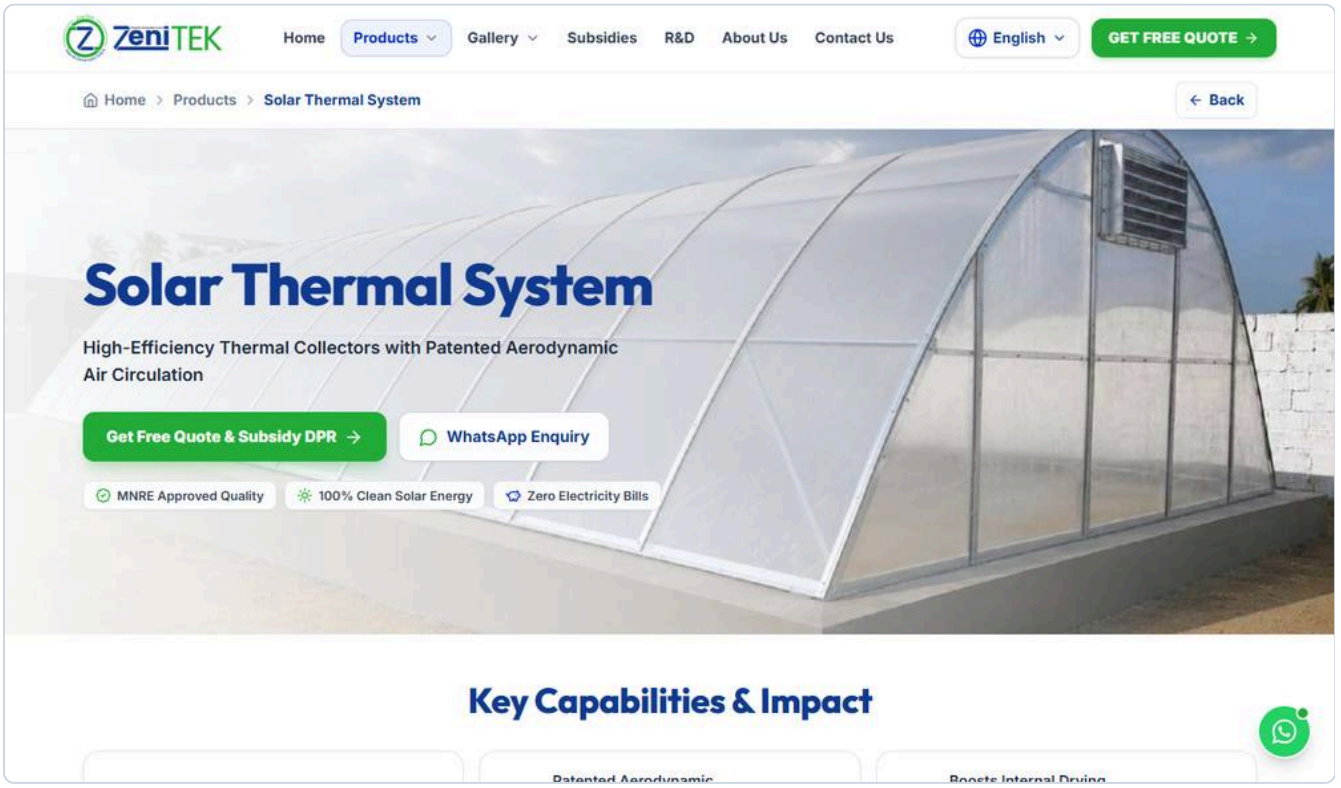

Subheading	Pinned GPS coordinates of all operational ZeniTEK … installations across 9 Indian states
Content / description	The same interactive installations map used on the Home and Installations pages.
Topics covered	Installations map
Important information	• 35 sites, 9 states
Images / visuals	Leaflet map.
Buttons, links & destinations	**Pins** → /installations/<site-id>

Section 11 Need a Custom Solar Dryer Sized for Your Farm?

Subheading	Our engineering team in Erode custom-calculates …
Content / description	Closing call-to-action banner.
Topics covered	Custom sizing
Images / visuals	Dark banner.
Buttons, links & destinations	**GET FREE QUOTE** → Opens the Get Free Quote page (/quote), pre-filled with capacity 'Custom Solar Dryer Project' **Call Support** → tel:+918903852623

4.5 Solar Thermal System — /solar-thermal-system

This page is one of six 'solution' pages that share the same page template (SectionDetailPage). The text comes from the Product Sections content, which the Client Admin can edit; when the server is offline the built-in default text shown here is used.

Solar Thermal System — top of page

Section 1 Hero

Subheading	High-Efficiency Thermal Collectors with Patented Aerodynamic Air Circulation
Content / description	Page title 'Solar Thermal System' with its subtitle over a full-width photo, three small badges and two buttons.
Topics covered	Page introduction
Important information	• Hero badges: MNRE Approved Quality · 100% Clean Solar Energy · Zero Electricity Bills
Images / visuals	Background photo (per-page real installation photo).
Buttons, links & destinations	**Get Free Quote & Subsidy DPR** → Opens the Get Free Quote page (/quote), pre-filled with capacity 'Solar Thermal System' **WhatsApp Enquiry** → https://wa.me/918098613422 with 'I would like to inquire about Solar Thermal System'

Section 2 Key Capabilities & Impact

Subheading	(highlight cards)
Content / description	A set of short highlight cards, each a single benefit or capability statement with a check-mark icon.
Topics covered	Advanced Selective Solar Absorber Surfaces (>85% Thermal Con Patented Aerodynamic Forced Convection Ducts for Uniform Bat Boosts Internal Drying Chamber Temperature up to 65°C Withou Secondary Auxiliary Thermal Mass Storage for Extended Evenin Precision Multi-Zone Blower Automation with Digital Calibrat
Important information	• Advanced Selective Solar Absorber Surfaces (>85% Thermal Conversion) • Patented Aerodynamic Forced Convection Ducts for Uniform Batch Heating • Boosts Internal Drying Chamber Temperature up to 65°C Without Fossil Fuels • Secondary Auxiliary Thermal Mass Storage for Extended Evening Drying Runs • Precision Multi-Zone Blower Automation with Digital Calibrated Sensors
Images / visuals	Check-mark icon cards.
Buttons, links & destinations	None in this section

Section 3 Technical Overview & Operations

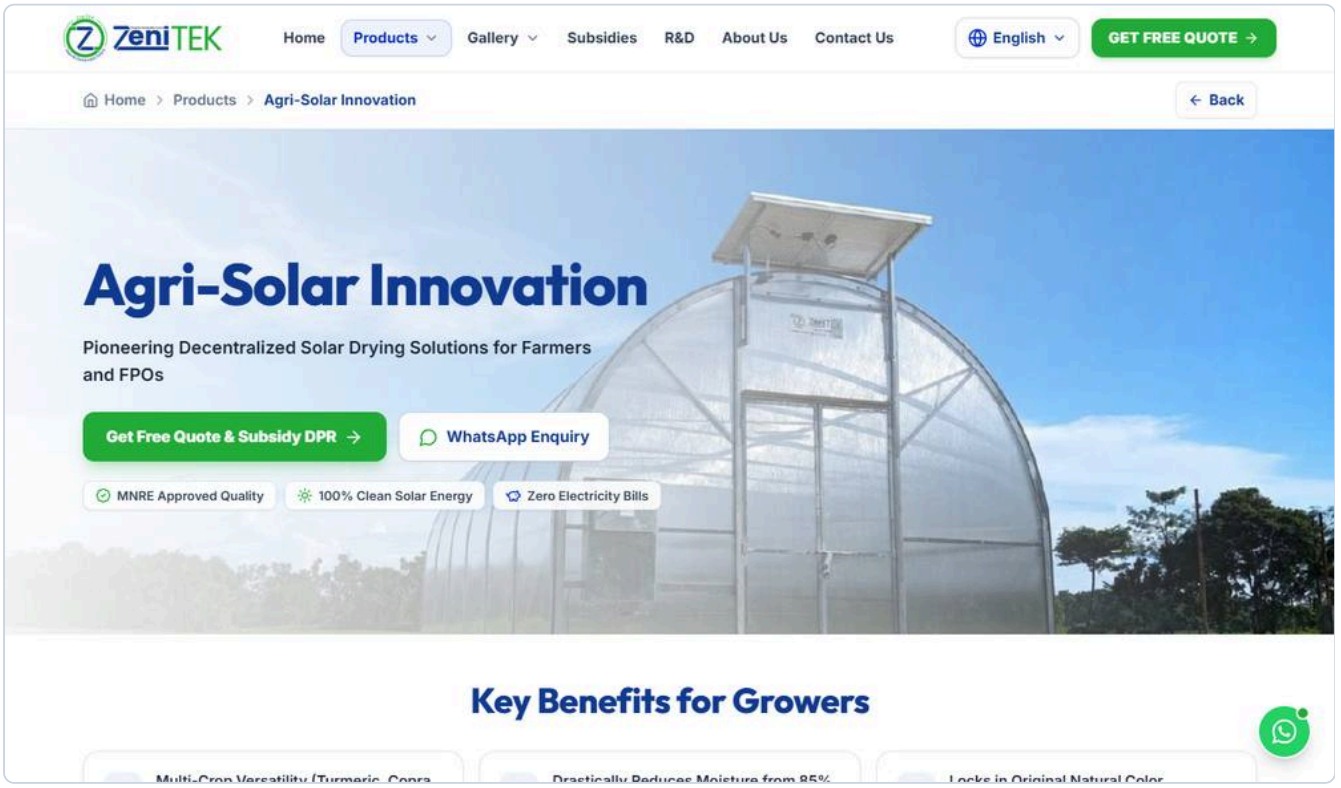

Subheading	Engineering design and operating methodology
Content / description	The main explanatory article for this topic, written as several paragraphs (and lists where needed). Summary of what it says: ZeniTEK's Solar Thermal Systems represent the vanguard of sustainable agricultural thermodynamic engineering. Unlike conventional electric kilns or polluting biomass furnaces, our solar thermal collectors capture both direct and diffuse solar irradiance to generate high-volume, low-humidity air currents. The system incorporates specialized multi-layer aerodynamic manifolds that evenly distribute heated air across every tray level, eliminating cold spots and guaranteeing identical residual moisture levels from top to bottom.
Topics covered	Selective absorber surfaces Forced-convection ducts Chamber temperature up to 65°C Thermal storage Blower automation
Images / visuals	Document icon; light content panel.
Buttons, links & destinations	None in this section

Section 4 Ready to Upgrade to High-Efficiency Solar Thermal?

Subheading	EMPOWER YOUR FARM OR FACILITY
Content / description	Closing banner inviting the visitor to request an engineering quote.
Topics covered	Call to action
Images / visuals	Dark gradient banner.
Buttons, links & destinations	**Request Free Engineering Quote** → Opens the Get Free Quote page (/quote), pre-filled with capacity 'Solar Thermal System' **Browse All Dryer Models** → /solar-dryer-models

4.6 Agri-Solar Innovation — /agri-solar-innovation

This page is one of six 'solution' pages that share the same page template (SectionDetailPage). The text comes from the Product Sections content, which the Client Admin can edit; when the server is offline the built-in default text shown here is used.

Agri-Solar Innovation — top of page

Section 1 **Hero**

Subheading	Pioneering Decentralized Solar Drying Solutions for Farmers and FPOs
Content / description	Page title 'Agri-Solar Innovation' with its subtitle over a full-width photo, three small badges and two buttons.
Topics covered	Page introduction
Important information	• Hero badges: MNRE Approved Quality · 100% Clean Solar Energy · Zero Electricity Bills
Images / visuals	Background photo (per-page real installation photo).
Buttons, links & destinations	**Get Free Quote & Subsidy DPR** → Opens the Get Free Quote page (/quote), pre-filled with capacity 'Agri-Solar Innovation' **WhatsApp Enquiry** → https://wa.me/918098613422 with 'I would like to inquire about Agri-Solar Innovation'

Section 2 Key Benefits for Growers

Subheading	(highlight cards)
Content / description	A set of short highlight cards, each a single benefit or capability statement with a check-mark icon.
Topics covered	Multi-Crop Versatility (Turmeric, Copra, Chillies, Moringa, Drastically Reduces Moisture from 85% to <8% Within 18-36 Op Locks in Original Natural Color, Curcumin, Essential Oils, a Zero UV Degradation Delivers 25% to 45% Higher Selling Price at Mandi & Export M
Important information	• Multi-Crop Versatility (Turmeric, Copra, Chillies, Moringa, Banana & Herbs) • Drastically Reduces Moisture from 85% to <8% Within 18-36 Operating Hours • Locks in Original Natural Color, Curcumin, Essential Oils, and Aroma • Zero UV Degradation: Food-grade Polycarbonate Blocks Harmful UV Spectra • Delivers 25% to 45% Higher Selling Price at Mandi & Export Markets
Images / visuals	Check-mark icon cards.
Buttons, links & destinations	None in this section

Section 3 How Agri-Solar Drying Works

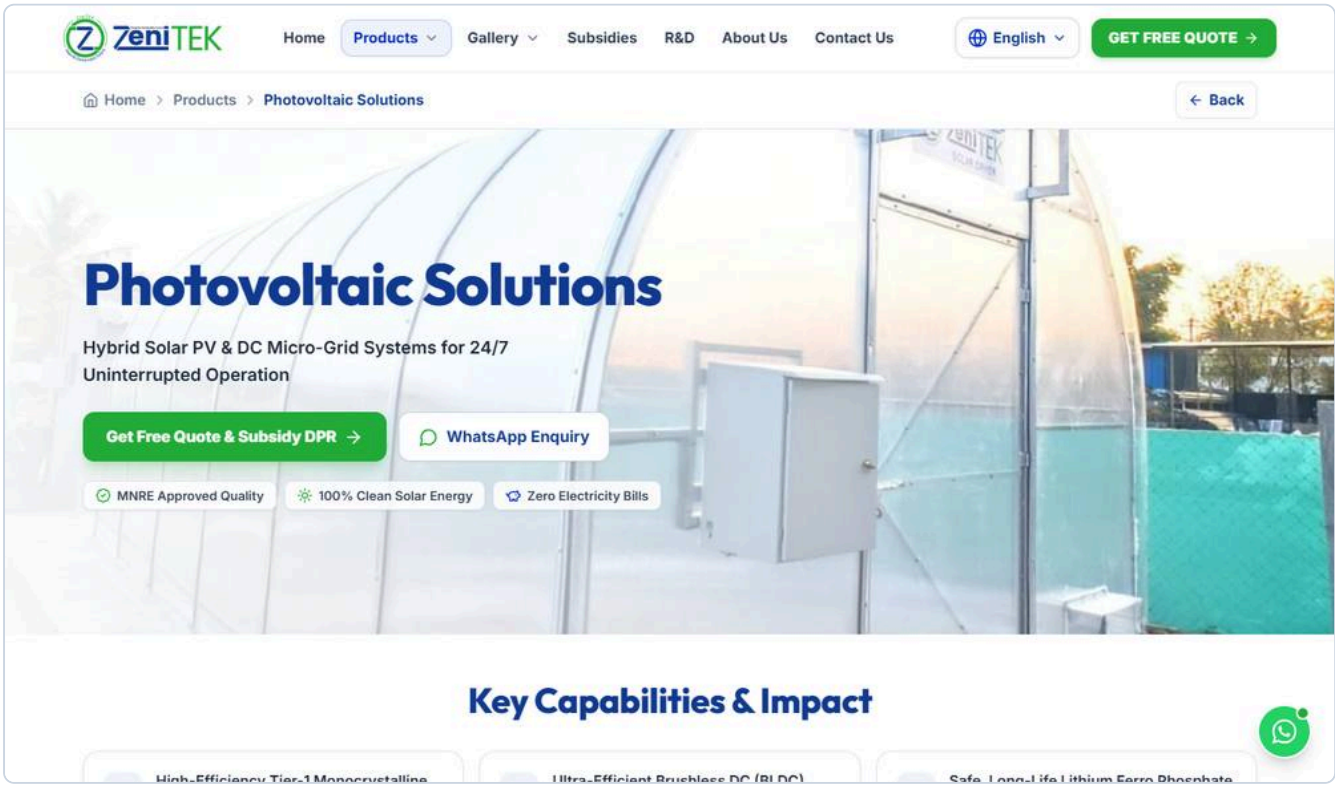

Subheading	From open-yard losses to export-ready produce
Content / description	The main explanatory article for this topic, written as several paragraphs (and lists where needed). Summary of what it says: Agri-Solar Innovation at ZeniTEK is built on the philosophy that clean renewable energy should directly empower grassroots agricultural economies. In traditional open-yard drying, farmers routinely lose 20% to 35% of their yield to sudden showers, dust contamination, microbial infections, and rodent exposure. By transitioning to ZeniTEK's closed-loop Agri-Solar Drying technology, farmers produce premium export-ready commodities.
Topics covered	Multi-crop versatility Moisture 85% → <8% in 18–36 h Colour/curcumin/oil retention UV protection 25–45% higher selling price
Images / visuals	Document icon; light content panel.
Buttons, links & destinations	None in this section

Section 4 Ready to Bring Agri-Solar Drying to Your Farm?

Subheading	EMPOWER YOUR FARM OR FACILITY
Content / description	Closing banner inviting the visitor to request an engineering quote.
Topics covered	Call to action
Images / visuals	Dark gradient banner.
Buttons, links & destinations	**Request Free Engineering Quote** → Opens the Get Free Quote page (/quote), pre-filled with capacity 'Agri-Solar Innovation' **Browse All Dryer Models** → /solar-dryer-models

4.7 Photovoltaic Solutions — /photovoltaic-solutions

This page is one of six 'solution' pages that share the same page template (SectionDetailPage). The text comes from the Product Sections content, which the Client Admin can edit; when the server is offline the built-in default text shown here is used.

Photovoltaic Solutions — top of page

Section 1 **Hero**

Subheading	Hybrid Solar PV & DC Micro-Grid Systems for 24/7 Uninterrupted Operation
Content / description	Page title 'Photovoltaic Solutions' with its subtitle over a full-width photo, three small badges and two buttons.
Topics covered	Page introduction
Important information	• Hero badges: MNRE Approved Quality · 100% Clean Solar Energy · Zero Electricity Bills
Images / visuals	Background photo (per-page real installation photo).
Buttons, links & destinations	**Get Free Quote & Subsidy DPR** → Opens the Get Free Quote page (/quote), pre-filled with capacity 'Photovoltaic Solutions' **WhatsApp Enquiry** → https://wa.me/918098613422 with 'I would like to inquire about Photovoltaic Solutions'

Section 2 Key Capabilities & Impact

Subheading	(highlight cards)
Content / description	A set of short highlight cards, each a single benefit or capability statement with a check-mark icon.
Topics covered	High-Efficiency Tier-1 Monocrystalline Solar Photovoltaic Mo Ultra-Efficient Brushless DC (BLDC) Smart Forced-Air Exhaust Safe, Long-Life Lithium Ferro Phosphate (LFP) Battery Energy Dual Hybrid Input Integrated IoT Smart Controller for Mobile Telemetry and Rem
Important information	• High-Efficiency Tier-1 Monocrystalline Solar Photovoltaic Modules • Ultra-Efficient Brushless DC (BLDC) Smart Forced-Air Exhaust Blowers • Safe, Long-Life Lithium Ferro Phosphate (LFP) Battery Energy Storage Options • Dual Hybrid Input: Solar PV Primary with Auto-Grid Failover for Rainy Periods • Integrated IoT Smart Controller for Mobile Telemetry and Remote Alerts
Images / visuals	Check-mark icon cards.
Buttons, links & destinations	None in this section

Section 3 Technical Overview & Operations

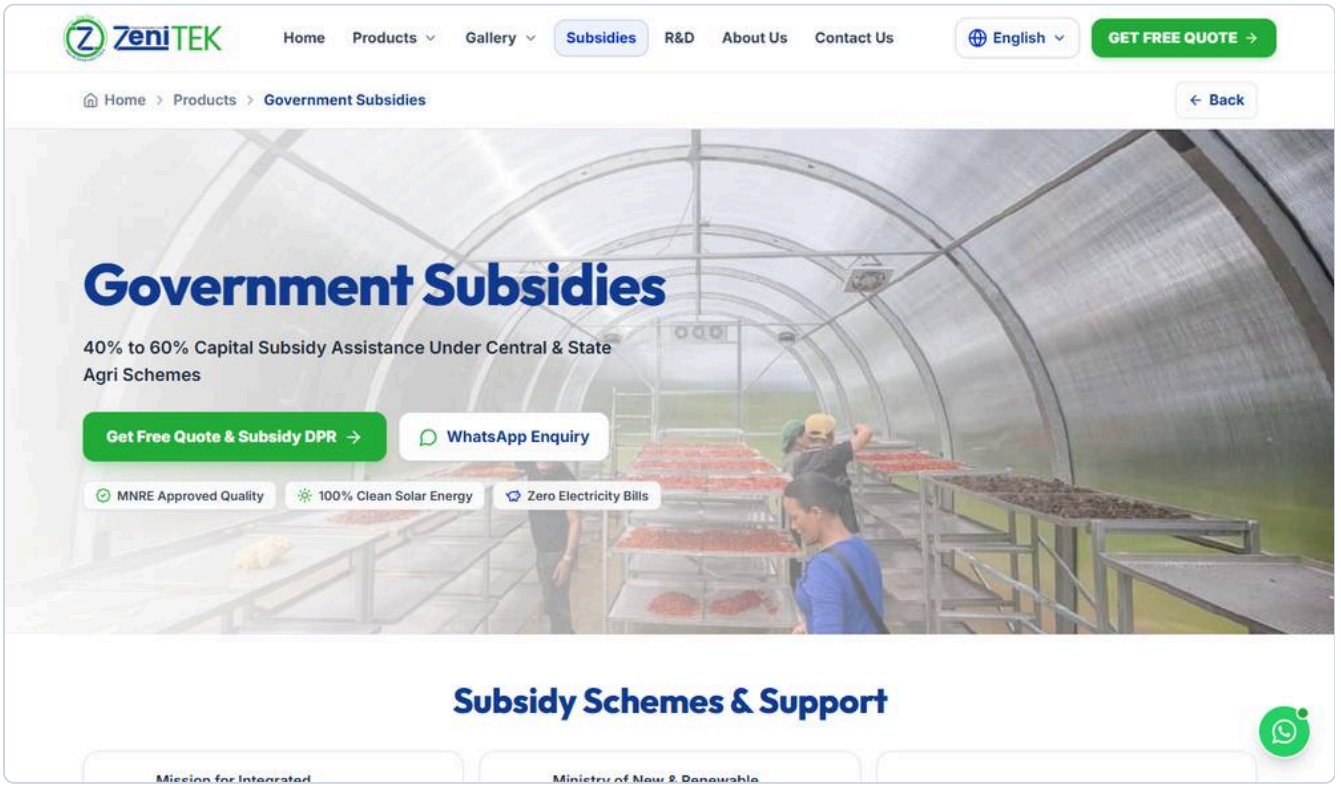

Subheading	Solar PV integration, blowers, and energy storage
Content / description	The main explanatory article for this topic, written as several paragraphs (and lists where needed). Summary of what it says: ZeniTEK Photovoltaic Solutions make every solar dryer completely self-sufficient, eliminating dependence on unreliable rural electricity grids. Each solar polyhouse can be outfitted with a matched solar PV array that powers the internal air circulation fans, variable-speed exhaust blowers, and digital PLC controllers. Equipped with high-torque, low-noise BLDC motors, our exhaust systems operate on direct DC current generated from the roof panels.
Topics covered	Monocrystalline PV modules BLDC blowers LFP battery storage Grid failover IoT smart controller
Images / visuals	Document icon; light content panel.
Buttons, links & destinations	None in this section

Section 4 Ready to Run Your Dryer on Solar Power?

Subheading	EMPOWER YOUR FARM OR FACILITY
Content / description	Closing banner inviting the visitor to request an engineering quote.
Topics covered	Call to action
Images / visuals	Dark gradient banner.
Buttons, links & destinations	**Request Free Engineering Quote** → Opens the Get Free Quote page (/quote), pre-filled with capacity 'Photovoltaic Solutions' **Browse All Dryer Models** → /solar-dryer-models

4.8 Government Subsidies (solution page) — /government-subsidies

This page is one of six 'solution' pages that share the same page template (SectionDetailPage). The text comes from the Product Sections content, which the Client Admin can edit; when the server is offline the built-in default text shown here is used.

Government Subsidies (solution page) — top of page

Section 1 **Hero**

Subheading	40% to 60% Capital Subsidy Assistance Under Central & State Agri Schemes
Content / description	Page title 'Government Subsidies' with its subtitle over a full-width photo, three small badges and two buttons.
Topics covered	Page introduction
Important information	• Hero badges: MNRE Approved Quality · 100% Clean Solar Energy · Zero Electricity Bills
Images / visuals	Background photo (per-page real installation photo).
Buttons, links & destinations	**Get Free Quote & Subsidy DPR** → Opens the Get Free Quote page (/quote), pre-filled with capacity 'Government Subsidies' **WhatsApp Enquiry** → https://wa.me/918098613422 with 'I would like to inquire about Government Subsidies'

Section 2 Subsidy Schemes & Support

Subheading	(highlight cards)
Content / description	A set of short highlight cards, each a single benefit or capability statement with a check-mark icon.
Topics covered	Mission for Integrated Development of Horticulture (MIDH / S Ministry of New & Renewable Energy (MNRE) Agriculture Infrastructure Fund (AIF) PM Formalisation of Micro Food Processing Enterprises (PM-FM End-to-End Liaison Support
Important information	• Mission for Integrated Development of Horticulture (MIDH / SHM): 40% - 50% Subsidy • Ministry of New & Renewable Energy (MNRE): Enlisted Approved Manufacturer • Agriculture Infrastructure Fund (AIF): 3% Interest Subvention on Term Loans • PM Formalisation of Micro Food Processing Enterprises (PM-FME): Up to ₹10 Lakhs Grant • End-to-End Liaison Support: From DPR Preparation to Department Bank Credit
Images / visuals	Check-mark icon cards.
Buttons, links & destinations	None in this section

Section 3 How the Subsidy Process Works

Subheading	Eligibility and step-by-step application support
Content / description	The main explanatory article for this topic, written as several paragraphs (and lists where needed). Summary of what it says: To accelerate clean energy adoption across the agricultural landscape, the Government of India and State Horticulture Departments offer generous capital subsidies covering 40% to 60% of the total installation cost for solar polyhouse dryers. Because ZeniTEK is an officially enlisted manufacturer compliant with all MNRE and State Agricultural Engineering department standards, our clients enjoy seamless qualification for these subsidy benefits. Our dedicated liaison desk assists you through every milestone: 1.
Topics covered	MIDH / SHM MNRE AIF PM-FME DPR & liaison support Subsidy calculator
Images / visuals	Document icon; light content panel.
Buttons, links & destinations	None in this section

Section 4 Calculate Your Solar Dryer Subsidy

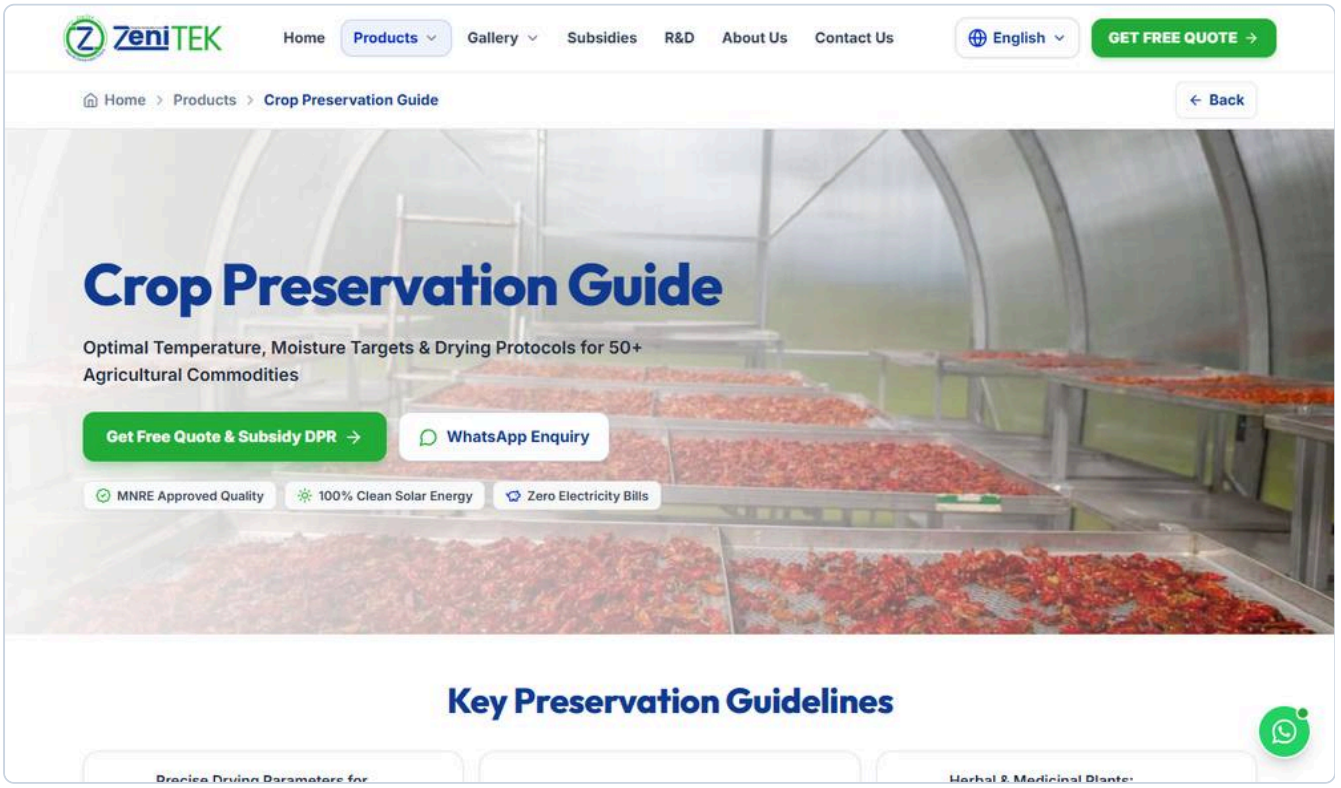

Subheading	Check estimated subsidy benefits under MIDH, SHM, and MNRE schemes for your state.
Content / description	An interactive estimator with three drop-downs (state, dryer model, beneficiary category). The percentage shown depends only on the beneficiary category: 50% for small/marginal farmers, 60% for SC/ST/women farmers and FPO/SHG groups, 40% for general commercial exporters. State and model only change the explanatory sentence.
Topics covered	Subsidy estimate
Important information	• States: Tamil Nadu (TNAU/SHM), Karnataka (UAS/MIDH), Kerala (VFPCK/SHM), Maharashtra (MahaDBT), Andhra Pradesh/Telangana, Other States (Central MNRE) • Models: SOLDRY 1210 (300–500 kg), SOLDRY 1709 (500 kg–1 Ton), SOLDRY 300 (Multi-Unit Plant), SUNDRY 50 (50 kg Farm Unit)
Images / visuals	Dark blue panel with large green result.
Buttons, links & destinations	**Apply for Subsidy DPR & Invoice** → Opens the Get Free Quote page (/quote), pre-filled with capacity '<model> (<percent>% Subsidy Enquiry - <state>)'

Section 5 Ready to Claim Your Solar Dryer Subsidy?

Subheading	EMPOWER YOUR FARM OR FACILITY
Content / description	Closing banner inviting the visitor to request an engineering quote.
Topics covered	Call to action
Images / visuals	Dark gradient banner.
Buttons, links & destinations	**Request Free Engineering Quote** → Opens the Get Free Quote page (/quote), pre-filled with capacity 'Government Subsidies' **Browse All Dryer Models** → /solar-dryer-models

4.9 Crop Preservation Guide — /crop-preservation-guide

This page is one of six 'solution' pages that share the same page template (SectionDetailPage). The text comes from the Product Sections content, which the Client Admin can edit; when the server is offline the built-in default text shown here is used.

Crop Preservation Guide — top of page

Section 1 Hero

Subheading	Optimal Temperature, Moisture Targets & Drying Protocols for 50+ Agricultural Commodities
Content / description	Page title 'Crop Preservation Guide' with its subtitle over a full-width photo, three small badges and two buttons.
Topics covered	Page introduction
Important information	• Hero badges: MNRE Approved Quality · 100% Clean Solar Energy · Zero Electricity Bills
Images / visuals	Background photo (per-page real installation photo).
Buttons, links & destinations	**Get Free Quote & Subsidy DPR** → Opens the Get Free Quote page (/quote), pre-filled with capacity 'Crop Preservation Guide' **WhatsApp Enquiry** → https://wa.me/918098613422 with 'I would like to inquire about Crop Preservation Guide'

Section 2 Key Preservation Guidelines

Subheading	(highlight cards)
Content / description	A set of short highlight cards, each a single benefit or capability statement with a check-mark icon.
Topics covered	Precise Drying Parameters for Spices · Horticultural Protocols for Fruits · Herbal & Medicinal Plants · Target Moisture Levels · FSSAI & Global Export Quality Compliance Guidelines Included
Important information	• Precise Drying Parameters for Spices: Turmeric (60°C), Pepper (55°C), Cardamom (50°C) • Horticultural Protocols for Fruits: Banana (58°C), Mango (62°C), Amla (55°C) • Herbal & Medicinal Plants: Moringa Leaves (48°C), Stevia (45°C), Tulsi (42°C) • Target Moisture Levels: From 80%+ Fresh Down to Safe 7-10% Storage Thresholds • FSSAI & Global Export Quality Compliance Guidelines Included
Images / visuals	Check-mark icon cards.
Buttons, links & destinations	None in this section

Section 3 Crop Drying Guidelines

Subheading	Temperature benchmarks and tray loading recommendations
Content / description	The main explanatory article for this topic, written as several paragraphs (and lists where needed). Summary of what it says: Different agricultural commodities possess distinct cellular structures, essential oil vaporization thresholds, and color pigments. Dehydrating high-value produce without scientific temperature control often results in scorched exterior surfaces, loss of volatile flavors, or persistent moisture pockets that invite Aspergillus fungus. The ZeniTEK Crop Preservation Guide provides validated temperature benchmarks and recommended tray loading densities: - Spices & Roots: Turmeric must be gently dried below 60°C to preserve curcumin.
Topics covered	Spice temperatures · Fruit protocols · Herbal plants · Moisture targets · FSSAI/export compliance · Crop dehydration matrix
Images / visuals	Document icon; light content panel.
Buttons, links & destinations	None in this section

Section 4 Validated Crop Dehydration Matrix

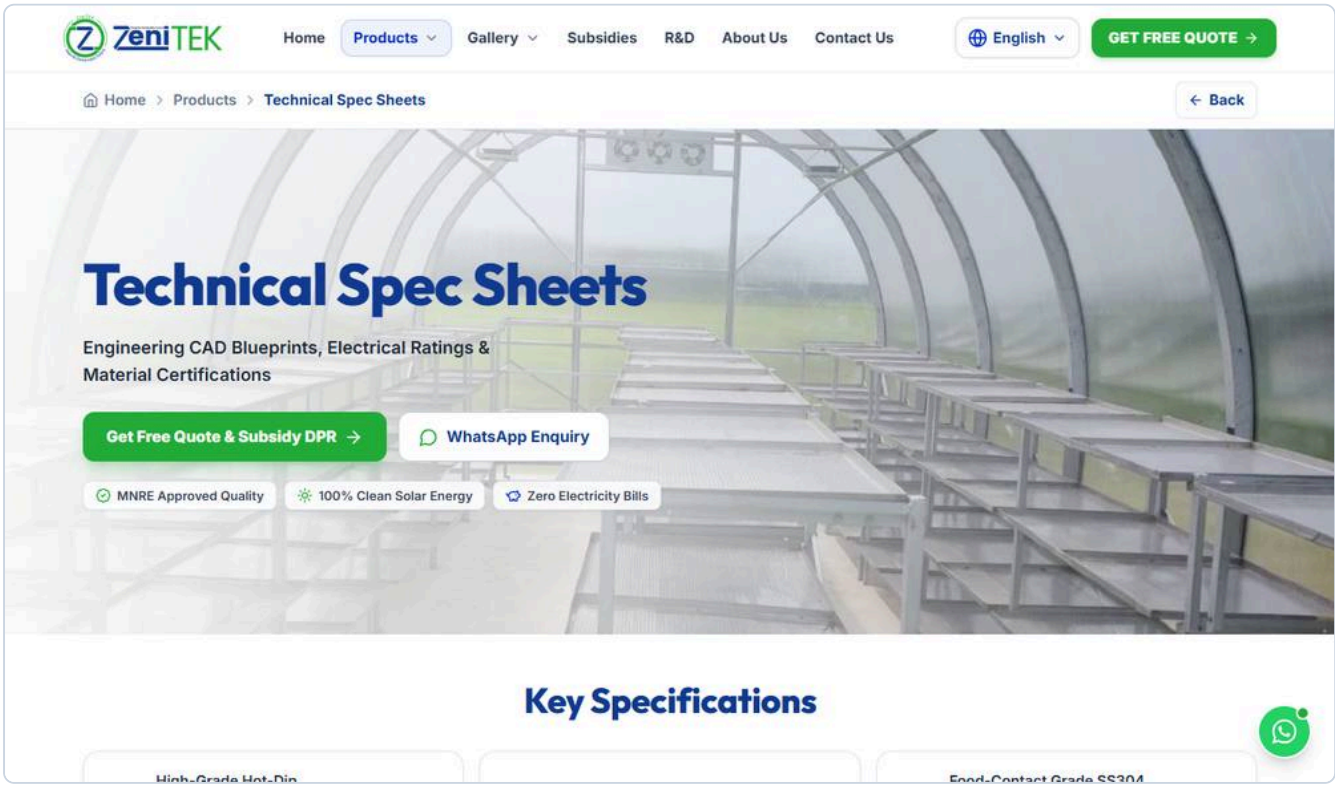

Subheading	Benchmark drying curves, operating temperatures, and quality results
Content / description	A searchable table of seven crops with fresh moisture, target dry moisture, safe temperature, drying duration and the quality benefit. Typing in the search box filters the rows (in the current language and English).
Topics covered	Turmeric · Copra · Moringa · Red chillies · Cardamom & pepper · Banana & mango chips · Ginger
Important information	• See Chapter 7 for the full table
Images / visuals	Data table.
Buttons, links & destinations	**Search crop or spice...** → Filters the table

Section 5 Ready to Dry Your Crops to Export Grade?

Subheading	EMPOWER YOUR FARM OR FACILITY
Content / description	Closing banner inviting the visitor to request an engineering quote.
Topics covered	Call to action
Images / visuals	Dark gradient banner.
Buttons, links & destinations	**Request Free Engineering Quote** → Opens the Get Free Quote page (/quote), pre-filled with capacity 'Crop Preservation Guide' **Browse All Dryer Models** → /solar-dryer-models

4.10 Technical Spec Sheets — /technical-spec-sheets

This page is one of six 'solution' pages that share the same page template (SectionDetailPage). The text comes from the Product Sections content, which the Client Admin can edit; when the server is offline the built-in default text shown here is used.

Technical Spec Sheets — top of page

Section 1 **Hero**

Subheading	Engineering CAD Blueprints, Electrical Ratings & Material Certifications
Content / description	Page title 'Technical Spec Sheets' with its subtitle over a full-width photo, three small badges and two buttons.
Topics covered	Page introduction
Important information	• Hero badges: MNRE Approved Quality · 100% Clean Solar Energy · Zero Electricity Bills
Images / visuals	Background photo (per-page real installation photo).
Buttons, links & destinations	**Get Free Quote & Subsidy DPR** → Opens the Get Free Quote page (/quote), pre-filled with capacity 'Technical Spec Sheets' **WhatsApp Enquiry** → https://wa.me/918098613422 with 'I would like to inquire about Technical Spec Sheets'

Section 2 Key Specifications

Subheading	(highlight cards)
Content / description	A set of short highlight cards, each a single benefit or capability statement with a check-mark icon.
Topics covered	High-Grade Hot-Dip Galvanized Iron (GI) Structural Framework UV-Protected Multi-Wall Polycarbonate Glazing with 10-Year W Food-Contact Grade SS304 Wire Mesh Trays with Heavy-Duty Str Wind Load Resistance up to 130 km/h (Cyclone & Storm Resilie Comprehensive Electrical & Mechanical Schematic CAD Drawings
Important information	• High-Grade Hot-Dip Galvanized Iron (GI) Structural Framework (150 GSM Coating) • UV-Protected Multi-Wall Polycarbonate Glazing with 10-Year Warranty • Food-Contact Grade SS304 Wire Mesh Trays with Heavy-Duty Structural Bracing • Wind Load Resistance up to 130 km/h (Cyclone & Storm Resilient) • Comprehensive Electrical & Mechanical Schematic CAD Drawings Available for Download
Images / visuals	Check-mark icon cards.
Buttons, links & destinations	None in this section

Section 3 Technical Specifications

Subheading	Structural, material, and foundation requirements
Content / description	The main explanatory article for this topic, written as several paragraphs (and lists where needed). Summary of what it says: ZeniTEK polyhouse and box solar dryers are manufactured according to rigorous industrial standards, combining robust civil structural mechanics with aerodynamic thermodynamic design. Structural Specifications: - Framework: Heavy-gauge tubular Hot-Dip Galvanized Iron with corrosion-resistant polyurethane primer. - Glazing: Multi-wall UV300 stabilized polycarbonate sheets with high light transmittance (>82%) and anti-condensate internal coating.
Topics covered	Polycarbonate glazing SS304 trays Wind-load rating Civil & foundation requirements Downloadable brochures
Images / visuals	Document icon; light content panel.
Buttons, links & destinations	None in this section

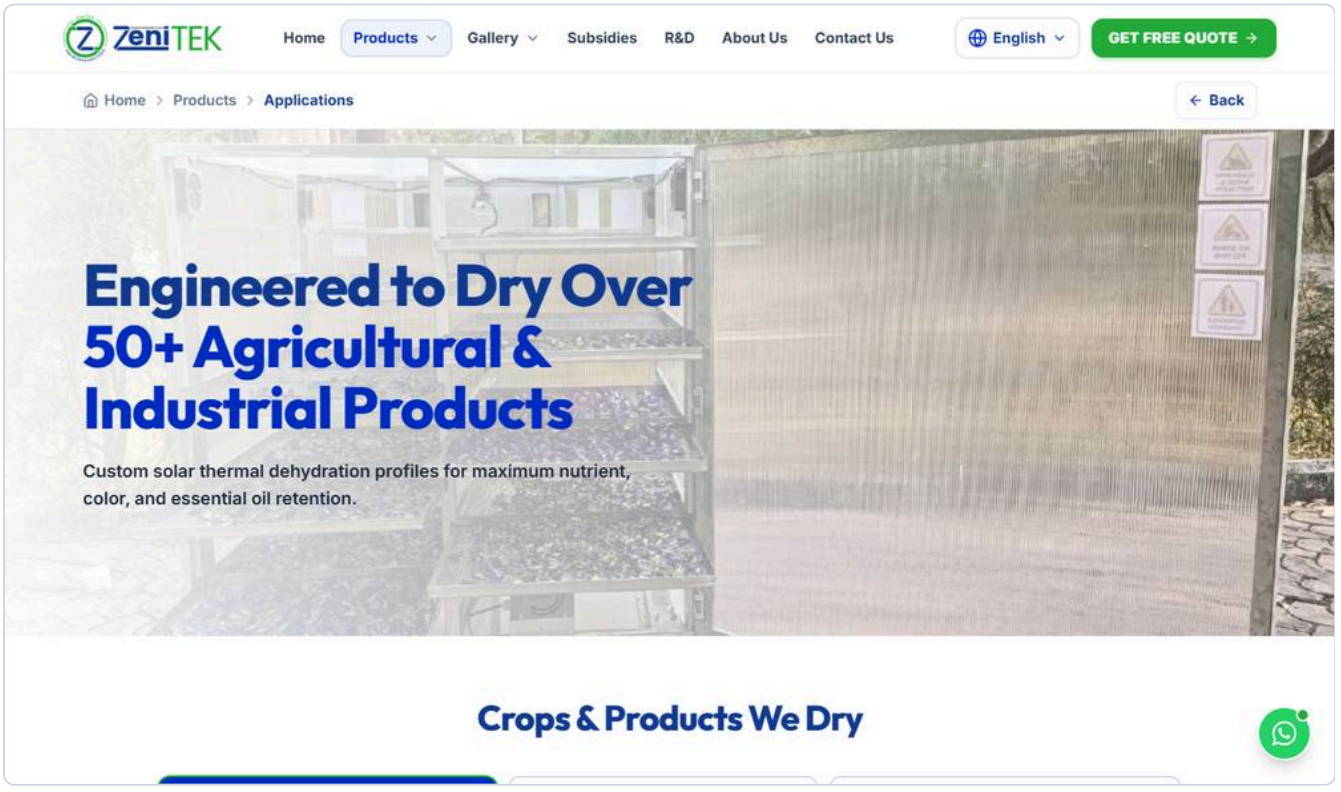

Section 4 Official Specification Sheets & CAD Blueprints

Subheading	Download complete manufacturer engineering documents in PDF format
Content / description	Three cards for the three PDF brochures, each with a cover photo, page count, file size, a 'View Brochure' button and a download icon. Note: despite the heading, no CAD blueprints are offered—only these brochures.
Topics covered	Solar Dryer Technical Brochure Household Solar Box Dryer Entrepreneur Box Dryer
Important information	• 10 pages · 7.1 MB • 3 pages · 1.0 MB • 4 pages · 1.2 MB
Images / visuals	3 cover photos.
Buttons, links & destinations	**View Brochure** → /brochures/<id> **Download icon** → Downloads the PDF file from /brochures/*.pdf

Section 5 Need Detailed Specs for Your Project?

Subheading	EMPOWER YOUR FARM OR FACILITY
Content / description	Closing banner inviting the visitor to request an engineering quote.
Topics covered	Call to action
Images / visuals	Dark gradient banner.
Buttons, links & destinations	**Request Free Engineering Quote** → Opens the Get Free Quote page (/quote), pre-filled with capacity 'Technical Spec Sheets' **Browse All Dryer Models** → /solar-dryer-models

4.11 Applications — /applications

Applications — top of page

Section 1 **Hero**

Subheading	Custom solar thermal dehydration profiles for maximum nutrient, color, and essential oil retention.
Content / description	Headline 'Engineered to Dry Over 50+ Agricultural & Industrial Products'.
Topics covered	Range of products
Images / visuals	Background photo.
Buttons, links & destinations	None in this section

Section 2 Crops & Products We Dry

Subheading	(three segment tabs)
Content / description	Three tabs switch the cards below. Food & Agriculture shows Copra/Coconut, Moringa/Herbs/Tea and Red Chillies/Spices. Marine & Seafood shows two cards (both titled 'Salted Fish & Seafood'). Industrial & Biomass shows two cards (both titled 'Other Biomass & Crops') about sludge and timber/rubber.
Topics covered	Copra · Moringa · Chillies · Salted fish · Seafood processing · Industrial sludge · Timber & rubber
Important information	• Copra: 52% → <6% in 2.5 days, Grade-1 White Copra • Moringa: dust-free, preserves chlorophyll • Chillies: no rain damage or aflatoxin mould • Seafood: fly-free; moisture under 12% • Sludge volume reduced up to 80% • Timber/rubber: controlled humidity prevents warping
Images / visuals	Cards per tab.
Buttons, links & destinations	**Tab buttons** → Switch segment **Enquire Setup (food/seafood cards)** → Opens the Get Free Quote page (/quote), pre-filled with the crop type **Enquire Setup (industrial cards)** → Opens the Get Free Quote page (/quote), pre-filled with client type 'Industrial/Sludge Processor'

Section 3 Crop Moisture Parameter Matrix

Subheading	Target moisture retention and drying duration comparison: ZeniTEK Solar Thermal vs Open Sun Drying.
Content / description	A searchable table comparing six products: fresh moisture, dried moisture, ZeniTEK drying time, open-sun time and the profit benefit.
Topics covered	Copra · Moringa leaves · Red chillies · Salted fish & shrimp · Turmeric & ginger · Flowers & tea/herbs
Important information	• See Chapter 7 for the full table
Images / visuals	Data table.
Buttons, links & destinations	**Search crop or profit benefit...** → Filters the table

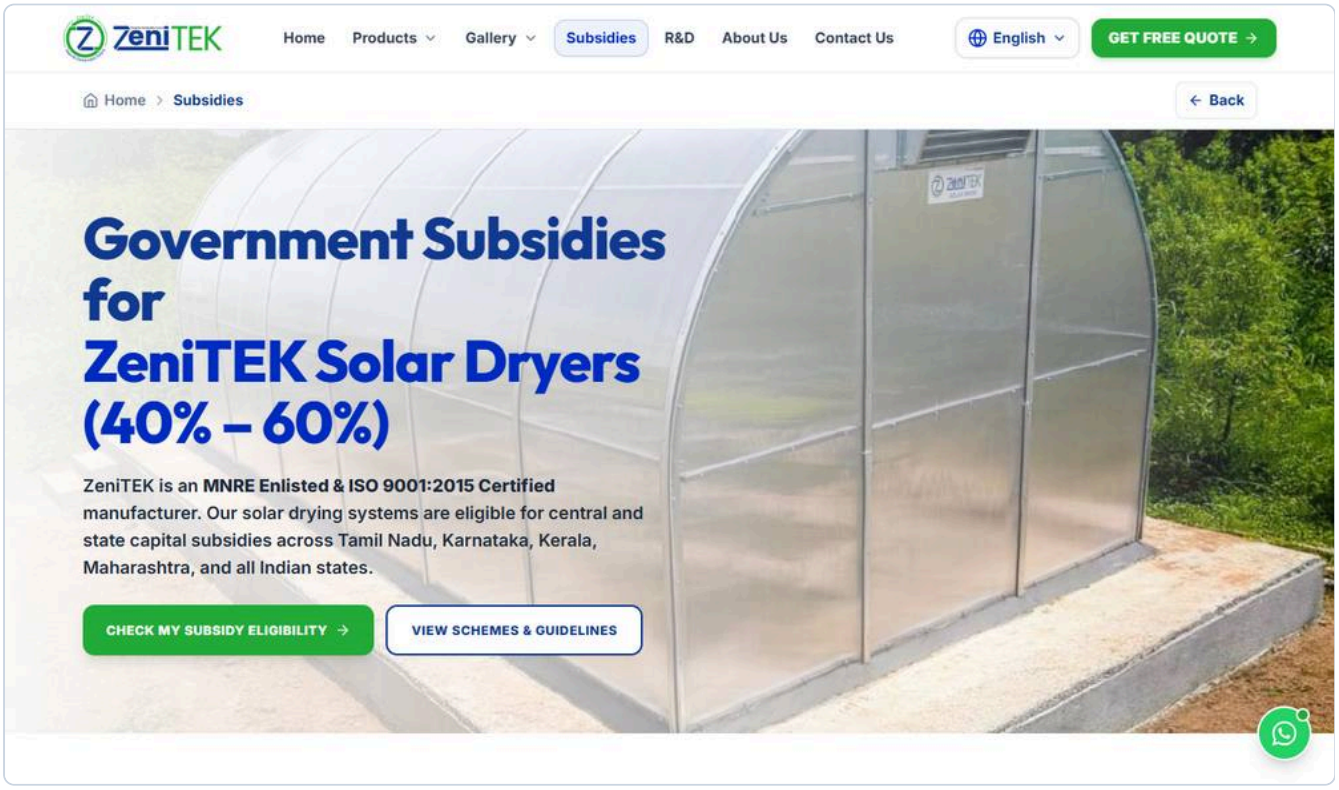

Section 4 **Tailored Solutions for Your Operations**

Subheading	(three persona cards)
Content / description	Three offers aimed at different buyers.
Topics covered	FPOs & cooperatives · Food exporters · Smallholder farmers
Important information	• FPOs: community polyhouse dryers for 500 kg+ daily harvests • Exporters: moisture-controlled dryers 'certified for EU, US-FDA, and Middle-East export compliance' • Smallholders: entry-level portable dryers with 40% subsidy eligibility
Images / visuals	3 cards.
Buttons, links & destinations	**Request FPO Proposal** → → Opens the Get Free Quote page (/quote), pre-filled with client type 'FPO / Cooperative Group' **Request Exporter Quote** → → Opens the Get Free Quote page (/quote), pre-filled with client type 'Food Processor & Exporter' **Request Farmer Quote** → → Opens the Get Free Quote page (/quote), pre-filled with client type 'Individual Farmer'

Card content behind each tab (captured by clicking every tab)

Tab	Card title	Card text
Food & Agriculture (Copra, Moringa, Spices)	Copra / Coconut	Moisture drop from 52% to <6% in 2.5 days. Produces Grade-1 White Copra for oil extraction.
Food & Agriculture (Copra, Moringa, Spices)	Moringa / Herbs / Tea	100% dust-free green retention. Preserves chlorophyll for export powders.
Food & Agriculture (Copra, Moringa, Spices)	Red Chillies / Spices	Zero rain damage or aflatoxin mold. Locks bright glossy red skin color.
Marine & Seafood (Salted Fish, Shrimp)	Salted Fish & Seafood	Completely closed polyhouse enclosure ensuring 100% fly-free, insect-free sanitation.
Marine & Seafood (Salted Fish, Shrimp)	Salted Fish & Seafood	Hygienic moisture reduction to under 12% for seafood processing plants.
Industrial & Biomass (Sludge, Rubber, Timber)	Other Biomass & Crops	Reduces industrial sludge volume by up to 80%, slashing waste transport costs.
Industrial & Biomass (Sludge, Rubber, Timber)	Other Biomass & Crops	Controlled humidity extraction preventing wood warping and curing natural rubber sheets.

4.12 Subsidies — /subsidies

Subsidies — top of page

Section 1 **Hero**

Subheading	Government Subsidies for ZeniTEK Solar Dryers (40% – 60%)
Content / description	Headline stating the subsidy range with two buttons.
Topics covered	Subsidy range
Images / visuals	Background photo.
Buttons, links & destinations	**CHECK MY SUBSIDY ELIGIBILITY** → Opens the Get Free Quote page (/quote), pre-filled with capacity 'Subsidy Assistance' and message 'I want subsidy assistance for ZeniTEK Solar Dryer.' **VIEW SCHEMES & GUIDELINES** → Scrolls to #subsidy-schemes on this page

Section 2 Instant State Subsidy Estimator

Subheading	Select your state and beneficiary profile to calculate eligible subsidy assistance.
Content / description	Three drop-downs (state/region, product capacity, beneficiary category) and a result box. As on the Government Subsidies solution page, the percentage depends only on the beneficiary category (40% / 50% / 60%).
Topics covered	Eligibility estimate
Important information	• States: Tamil Nadu (Horticulture & TEDA), Karnataka (KREDL & Dept of Agri), Kerala (ANERT & Agri Dept), Maharashtra (MEDA & MahaAgri), Andhra Pradesh/Telangana, Other Indian States • Capacities: SUNDRY 50 (50–100 kg), SOLDRY 1210 (150–500 kg), SOLDRY 1709 (400–1200 kg), Industrial Multi-Tunnel Plant (1 Ton+) • Categories: Small/Marginal 50%, SC/ST/Women 60%, FPO/SHG/Cooperative 60%, General Agri-Business/Exporter 40%
Images / visuals	Result box.
Buttons, links & destinations	**APPLY WITH ZENITEK** → Opens the Get Free Quote page (/quote), pre-filled with the chosen model as capacity, the chosen state in the District field, and a DPR request message

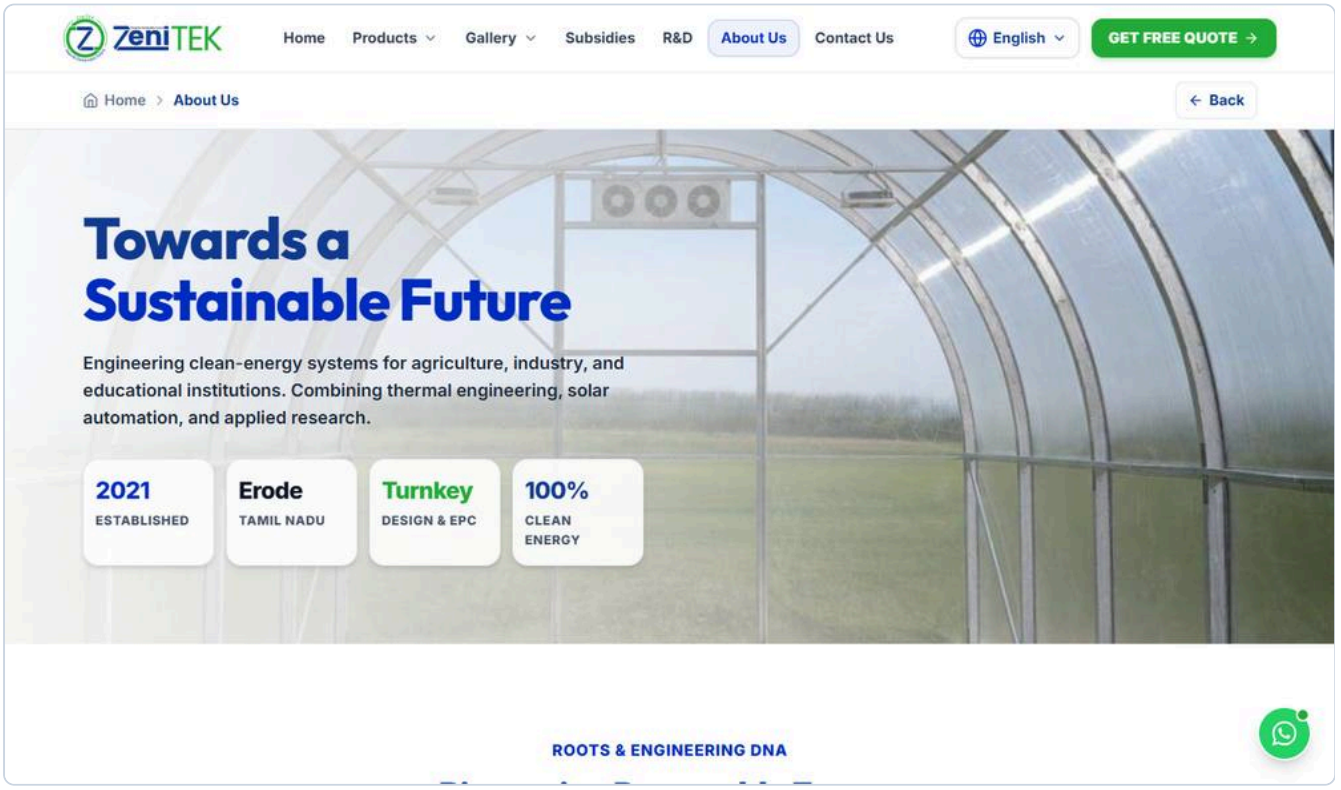

Section 3 Available Central & State Subsidy Schemes

Subheading	ZeniTEK equipment complies with all MNRE and state nodal agency specifications.
Content / description	Four scheme cards, each with the benefit, who it targets, a short description and key requirements.
Topics covered	State Horticulture Mission (MIDH / SHM) · Ministry of New & Renewable Energy (MNRE) · Agriculture Infrastructure Fund (AIF) · PM-FME & MSME Food Processing Scheme
Important information	• MIDH/SHM: 40–50% direct capital subsidy; needs land ownership (Patta/Chitta), Aadhaar & bank account, MNRE-approved quotation • MNRE: enlisted-manufacturer subsidy; geo-tagged installation photo • AIF: 3% interest subvention + credit guarantee; collateral-free loans up to ₹2 Crore under CGTMSE • PM-FME: 35–50% subsidy up to ₹10 Lakhs; 10% beneficiary contribution; FSSAI registration help
Images / visuals	4 cards.
Buttons, links & destinations	None in this section

Section 4 How ZeniTEK Handles Your Subsidy End-to-End

Subheading	We eliminate paperwork friction so you receive maximum government benefits without delays.
Content / description	Five numbered steps from quotation to the subsidy being credited, then a consultation card.
Topics covered	Select model & official quote · DPR & document preparation · Government portal submission · Manufacturing & installation · Department inspection & direct credit
Important information	• Asks visitors to speak with 'ZeniTEK's Government Scheme Documentation Specialist'
Images / visuals	Numbered step cards.
Buttons, links & destinations	**GET FREE SUBSIDY CONSULTATION** → Opens the Get Free Quote page (/quote), pre-filled with capacity 'Subsidy Consultation' and a telephone-consultation message

4.13 About Us — /about

About Us — top of page

Section 1 **Hero**

Subheading	Engineering clean-energy systems for agriculture, industry, and educational institutions …
Content / description	Headline 'Towards a Sustainable Future' with four stat cards.
Topics covered	Company snapshot
Important information	• 2021 – Established • Erode – Tamil Nadu • Turnkey – Design & EPC • 100% – Clean Energy
Images / visuals	Background photo.
Buttons, links & destinations	None in this section

Section 2 Pioneering Renewable Energy From Erode to All India

Subheading	ROOTS & ENGINEERING DNA
Content / description	Company history: started in 2017 as Smart Bricks Construction (eco-friendly building materials and local solar systems) and became ZeniTEK in Erode in 2021, focusing on solar thermal systems and clean agricultural technology. A gratitude card thanks two mentors for help developing the first commercial parabolic trough collector.
Topics covered	Company history · Mentorship
Important information	• Mentors: Shri. S.K. Singh (Former Director of Solar Thermal Energy, NISE) and Mr. John Mitchell (Technical Director of Pro-Target, Germany) • Image badges: ZeniTEK R&D Hub, Erode; Field Verified System; Patented Aerodynamics
Images / visuals	Large installation photo with ZeniTEK emblem overlay.
Buttons, links & destinations	**CONNECT WITH OUR ENGINEERING TEAM** → Opens the Get Free Quote page (/quote), pre-filled with capacity 'About Us Consultation'

Section 3 What We Do

Subheading	CORE ENGINEERING FOCUS
Content / description	Four large cards, one per business domain, each with a photo, a headline metric, a description, a bullet list and a button. The fourth card (Research & Development) is the target of the navbar 'R&D' link.
Topics covered	Solar Thermal Systems · Agri-Solar Innovations · Photovoltaic Solutions · Research & Development
Important information	• Solar Thermal: 1,000L+ daily boiling water; ETC, PTC, Scheffler dishes, refurbishing • Agri-Solar: 40% faster; tunnel dryers (150–1000 kg), box dryers (6–100 kg), solar paddy transplanters, zero-power cold storage • PV: lab test rigs; PV panels & turnkey integration; inspection/outdoor/indoor test rigs • R&D: 6+ university partner deployments; demonstration models; prototype rigs; sensor telemetry
Images / visuals	4 photos with badges.
Buttons, links & destinations	**REQUEST SPECIFICATIONS (each card)** → Opens the Get Free Quote page (/quote), pre-filled with capacity '<domain title>'

Section 4 Landmark Installations & Test Rigs

Subheading	INSTALLED PROJECTS PORTFOLIO
Content / description	Six project cards with a filter (All, Solar Thermal, Agri-Solar, PV Test Labs). Clicking a photo enlarges it.
Topics covered	37.5 Sq.m Parabolic Trough Collector; Solar PV Certification Laboratory Test Rigs; 592 Sq.m Scheffler Dish Refurbishment; 192 Sq.m Commercial Solar Tunnel Dryer; 4-Row Solar Paddy Transplanter; 80 Sq.m Scheffler Dish Refurbishment
Important information	• Pachamalai Hills tribal project for Anna University, funded by DST (NRDMS): 1,000 L boiling water daily • Mitsui Chemicals, Ahmedabad: PV test rigs • SRM University: 592 sq.m Scheffler array • SELCO Foundation: 192 sq.m tunnel dryer in Chhattisgarh • Solar paddy transplanter, Bangalore • Indo-MIM, Hoskote: 80 sq.m Scheffler dish
Images / visuals	6 photos; full-screen lightbox.
Buttons, links & destinations	**Filter tabs** → Filter projects **Photo** → Opens lightbox **Inquire About Similar Setup** → Opens the Get Free Quote page (/quote), pre-filled with capacity '<project title>'

Section 5 Academic & Industrial Partners

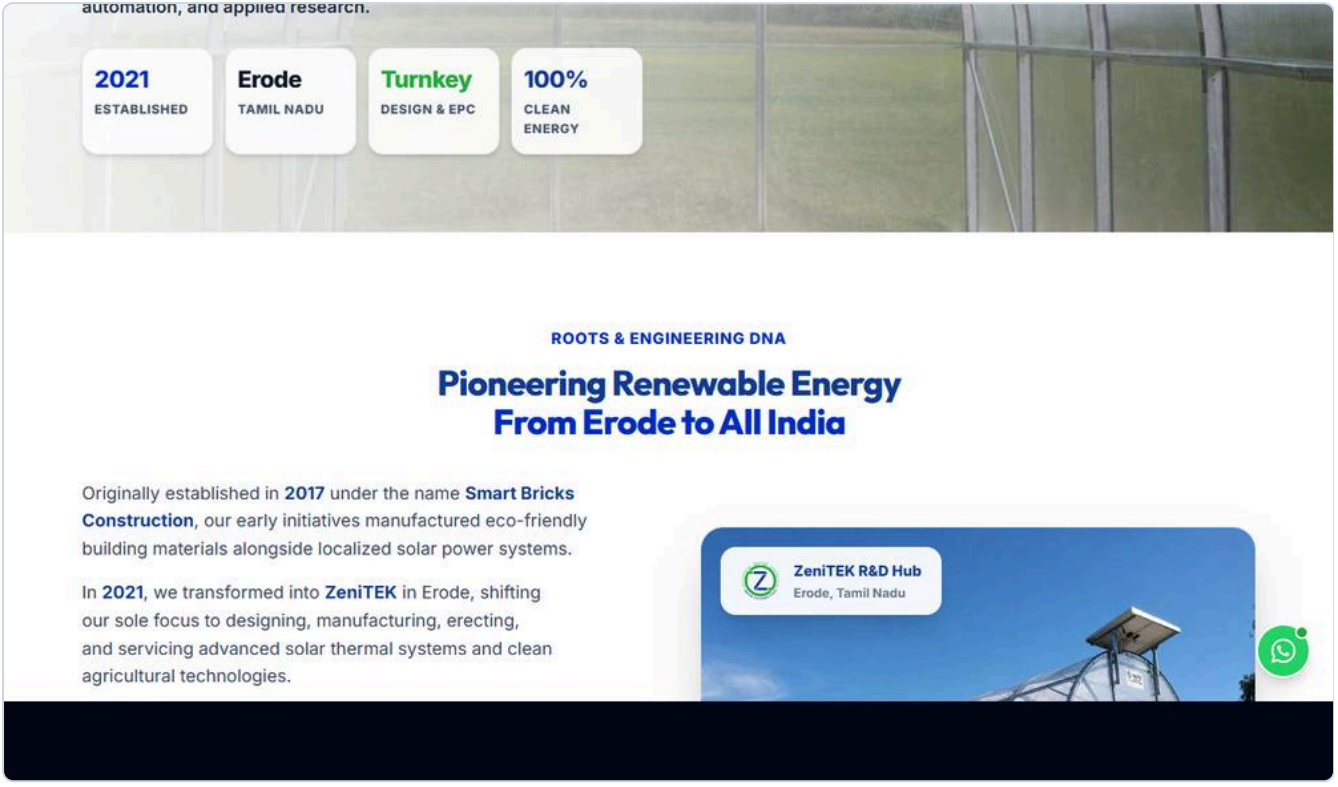

Subheading	TRUSTED INSTITUTIONAL DEPLOYMENTS
Content / description	Two auto-scrolling logo rails: academic institutions and industry clients & mentors, each with a tag and a one-line note.
Topics covered	IIT Bhubaneswar; Anna University Chennai; SRM University; Sree Sankara College; Gandhigram University; College of Fisheries; Mitsui Chemicals; Indo-MIM; SELCO Foundation; Pro-Target & NISE
Images / visuals	10 logos (from /client-logos).
Buttons, links & destinations	None in this section

Section 6 Real Field Photo Reel

Subheading	AUTHENTIC VISUAL PROOF — Click any image to view in full-screen high resolution.
Content / description	Eight captioned field photos; clicking opens a full-screen view.
Topics covered	Parabolic trough; SOLDRY 1210; Active hub; SUNDRY 50; Industrial greenhouse; SUNDRY 12; Testing rigs; Airflow
Images / visuals	8 photos.
Buttons, links & destinations	**Photo** → Opens lightbox

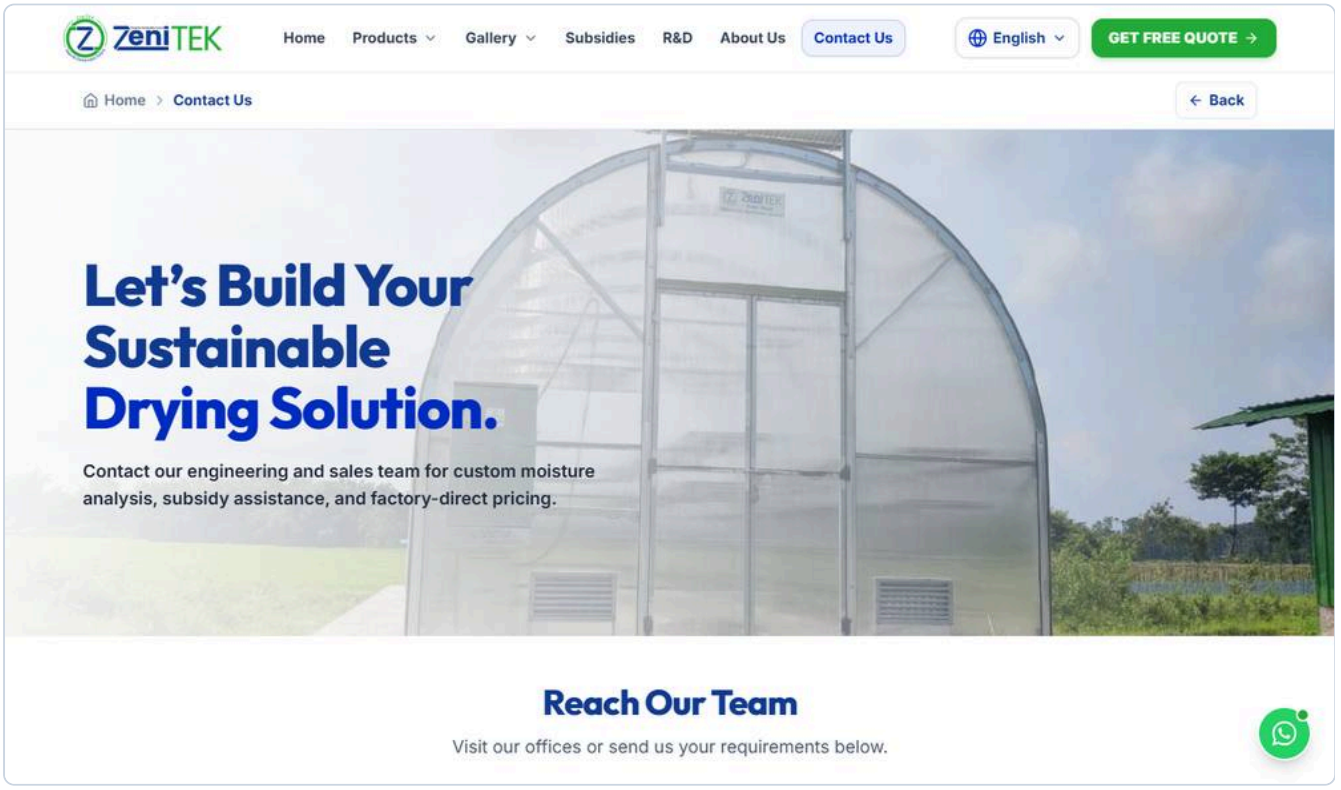

Section 7 Connect With ZeniTEK Engineers

Subheading	Contact our Erode engineering office …
Content / description	Registered location, phone and GST number with three action buttons.
Topics covered	Contact details
Important information	• Erode, Tamil Nadu — 638 112 • +91-8903852623 • GST: 33AACFZ8530G1Z5
Images / visuals	Contact card.
Buttons, links & destinations	**REQUEST ENGINEERING QUOTE** → Opens the Get Free Quote page (/quote), pre-filled with capacity 'About Us Consultation' **CALL DIRECTLY** → tel:+918903852623 **WHATSAPP** → https://wa.me/918903852623 (note: a different WhatsApp number from the rest of the site)

/about#rnd — the navbar 'R&D' link scrolls to the highlighted R&D card

4.14 Contact Us — /contact

Contact Us — top of page

Section 1 **Hero**

Subheading	Contact our engineering and sales team for custom moisture analysis, subsidy assistance, and factory-direct pricing.
Content / description	Headline 'Let's Build Your Sustainable Drying Solution.'
Images / visuals	Background photo.
Buttons, links & destinations	None in this section

Section 2 Reach Our Team

Subheading	Visit our offices or send us your requirements below.
Content / description	Left: 'Offices & Operations' with the registered office, the operation address (incubation centre), GSTIN, two phone numbers with the contact person and hours, three email addresses and a WhatsApp button. Right: 'Pre-Qualifying Quote & Sizing Enquiry' form.
Topics covered	Registered office · Operation address · GSTIN · Phones · Emails · WhatsApp · Enquiry form
Important information	• Reg. Office: 4/501, Aitreya garden, Athappam palayam, Vallipurathanpalayam (PO), Erode (Dt), Tamil Nadu - 638 112 • Operation: Zenitek Incubation center, SSM College of Engineering, NH-544, Valayakaranur, Komarapalayam, Namakkal Dt., Tamil Nadu - 638 183 • GSTIN 33AACFZ8530G1Z5 • Balakrishnan (Sales & Engineering), Mon–Sat 9:00 AM–7:00 PM IST • Emails: zenitek2k@gmail.com, sales@zenitek.in, info@zenitek.in • Form fields: Your Name*, WhatsApp Number*, User Category*, Desired Daily Capacity*, Target Crop*, Additional Requirements
Images / visuals	Icons per contact item.
Buttons, links & destinations	**+91-8903852623 / +91 80986 13422** → tel: links **Email links** → mailto: links **CHAT INSTANTLY ON WHATSAPP** → https://wa.me/918098613422 with a quote request message **SUBMIT & REQUEST FORMAL PROPOSAL** → Sends the enquiry to the server (POST /api/leads), shows a thank-you message and opens WhatsApp; if the server cannot be reached it opens WhatsApp directly

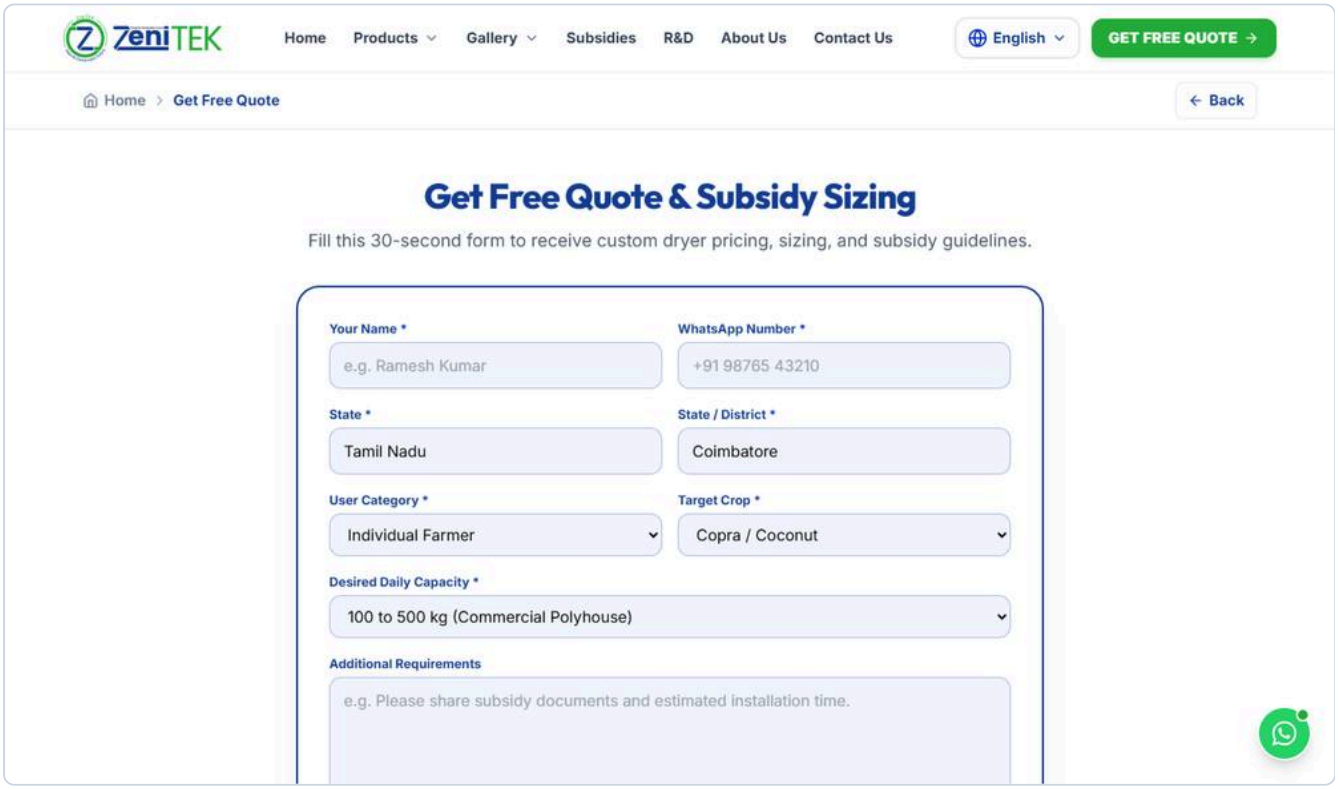

Section 3 Support Assurance Row

Subheading	(no heading)
Content / description	Three reassurance points.
Important information	• Free Government Subsidy Eligibility Check • Custom Moisture-Analysis Sizing Consults • 100% On-Farm Setup & Operator Training
Images / visuals	Icons.
Buttons, links & destinations	None in this section

Section 4 Partner with ZeniTEK for Rural Livelihood Projects

Subheading	CSR & NGO PARTNERSHIP PORTAL
Content / description	Invites CSR foundations, NABARD and NGOs to deploy dryers for rural women's self-help groups.
Topics covered	CSR partnerships
Images / visuals	Banner.
Buttons, links & destinations	**REQUEST CSR PARTNERSHIP PITCH** → Opens the Get Free Quote page (/quote), pre-filled with client type 'NGO / CSR Partner'

4.15 Get Free Quote — /quote

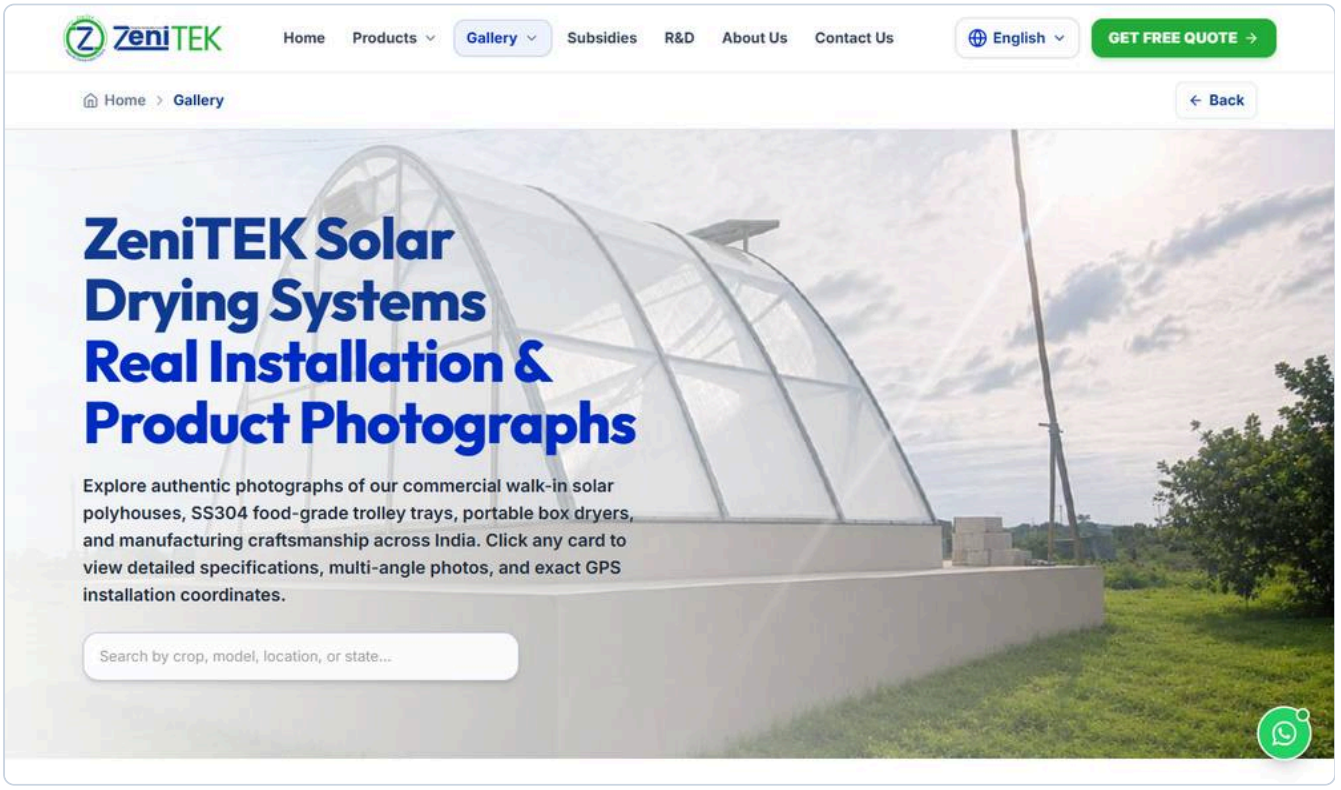

Get Free Quote — top of page

Section 1 **Get Free Quote & Subsidy Sizing**

Subheading	Fill this 30-second form to receive custom dryer pricing, sizing, and subsidy guidelines.
Content / description	An 8-field form. Values arriving in the web address (name, phone, state, district, client, crop, capacity, message) are filled in automatically; any value that does not match a drop-down option (for example a specific model name) is kept by adding it to the message box. On submit the form is saved by the server, a success note appears and WhatsApp opens with a pre-written message; if the server fails, WhatsApp opens directly.
Topics covered	Enquiry form · Prefill from buttons
Important information	• Fields: Your Name*, WhatsApp Number*, State*, 'State / District'* (district), User Category*, Target Crop*, Desired Daily Capacity*, Additional Requirements • Defaults: Tamil Nadu / Coimbatore / Individual Farmer / Copra-Coconut / 100 to 500 kg • Badges: MNRE Approved & Enlisted · WhatsApp follow-up · 40-60% Govt Subsidy Assistance
Images / visuals	Bordered form card.
Buttons, links & destinations	**CHAT INSTANTLY ON WHATSAPP (submit)** → POST /api/leads, then opens the WhatsApp link returned by the server (wa.me/918098613422)

4.16 Gallery — /gallery

Gallery — top of page

Section 1 **Hero**

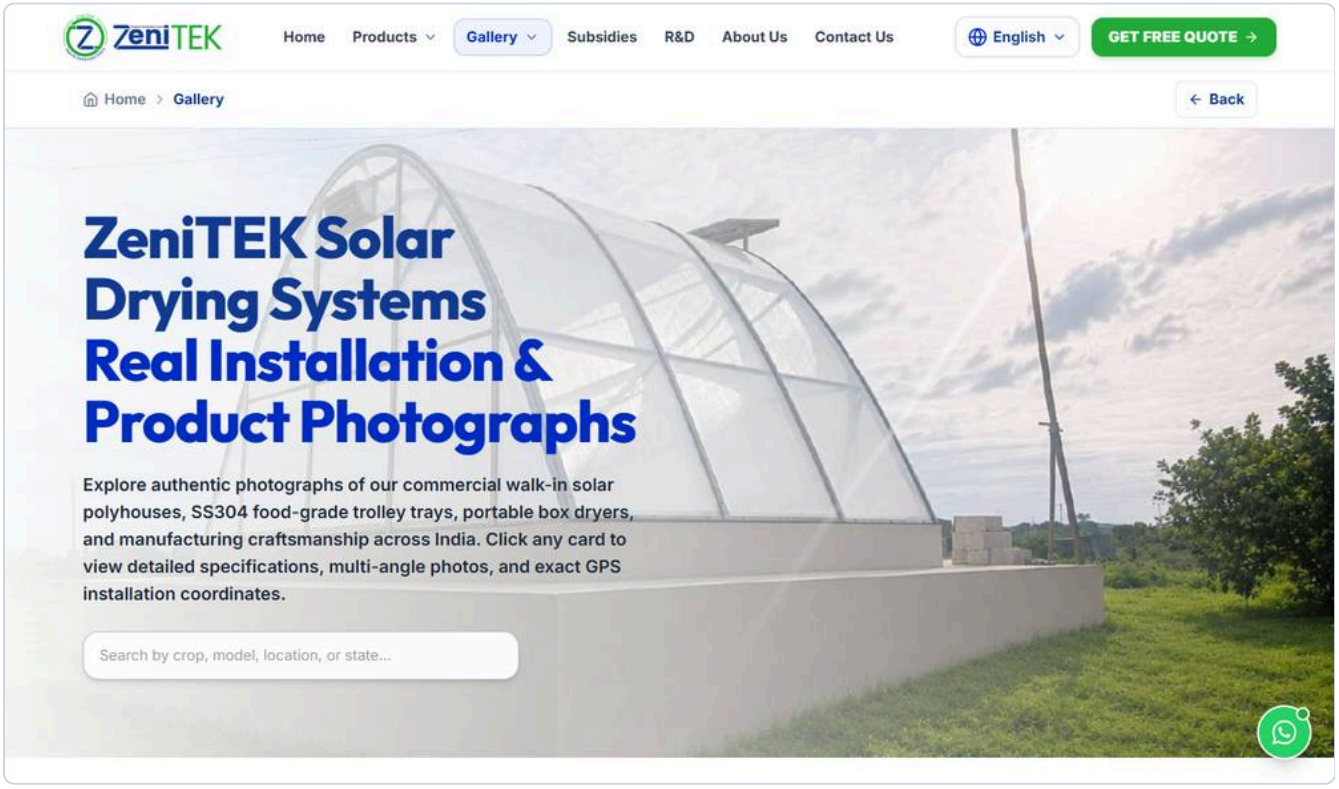

Subheading	Explore authentic photographs of our commercial walk-in solar polyhouses …
Content / description	Headline plus a search box that searches title, crop, model, location and state.
Topics covered	Photo search
Images / visuals	Background photo.
Buttons, links & destinations	**Search gallery** → Filters the grid

Section 2 Installation & Product Photos

Subheading	Browse field installations and product photos. Open any card for full details and location map.
Content / description	Category chips with counts and a grid of photo cards. Each card shows GPS coordinates, category, model, location, capacity/size and a description. The 'Brochures (PDF)' chip replaces the photos with three brochure cards.
Topics covered	All Photographs (30) · Polyhouse Tunnels (9) · Tunnel Interior & Trays (4) · Box Type Dryers (12) · Produce & SS304 Trays (3) · Engineering & Packaging (2) · Brochures (PDF) (3)
Important information	• Category is kept in the address (?cat=...), so filtered views can be shared
Images / visuals	30 photos / 3 brochure covers.
Buttons, links & destinations	**Category chips** → Filter (updates ?cat=) **Photo card / zoom / 'View Details & Interactive Map'** → /gallery/photo-NN **View Brochure** → /brochures/<id> **Download PDF** → PDF file

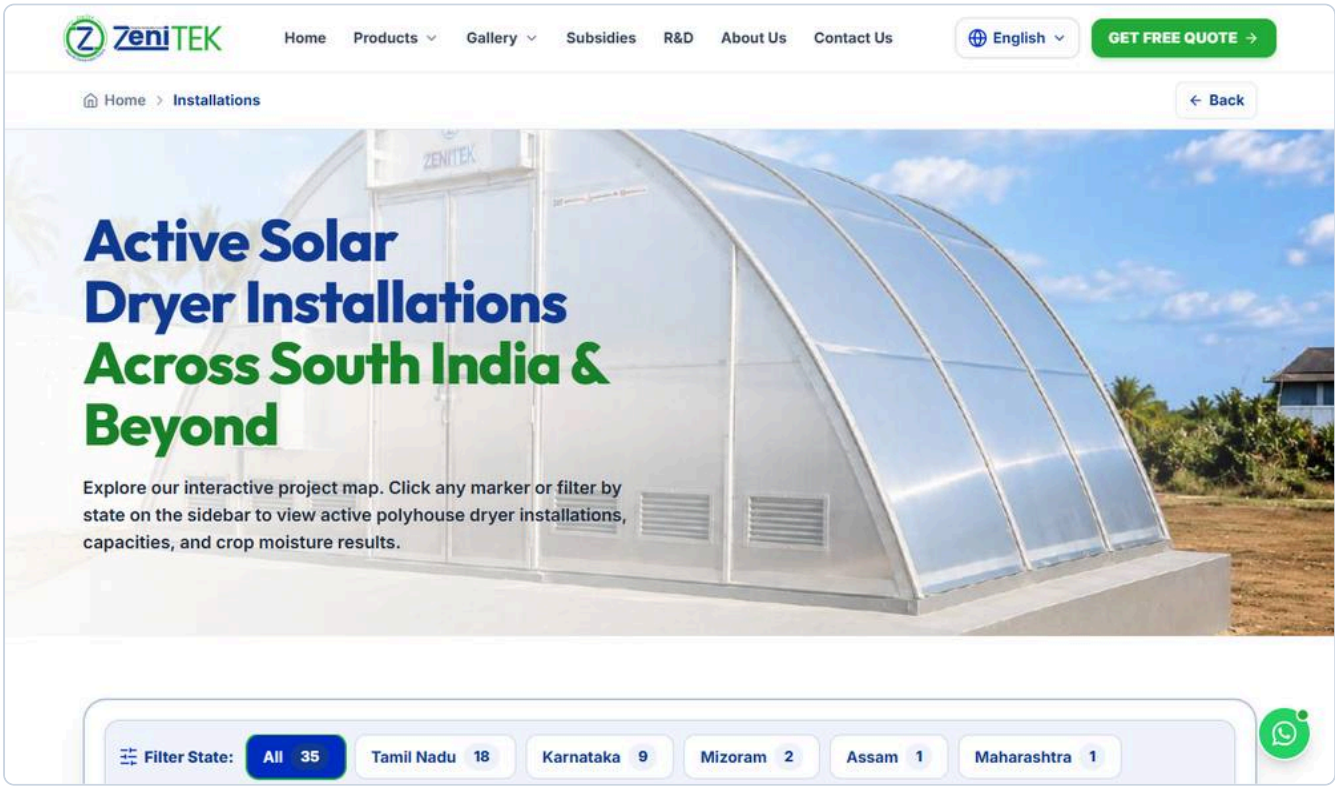

Section 3 Looking for a Complete Commercial Polyhouse Dryer Installation?

Subheading	ZeniTEK handles structural engineering, CNC fabrication ...
Content / description	Closing call-to-action.
Images / visuals	Banner.
Buttons, links & destinations	**GET TURNKEY QUOTE** → Opens the Get Free Quote page (/quote), pre-filled with capacity 'Complete Turnkey Dryer Project'

Gallery with the 'Brochures (PDF)' category selected (/gallery?cat=brochure)

4.17 Installations — /installations

Installations — top of page

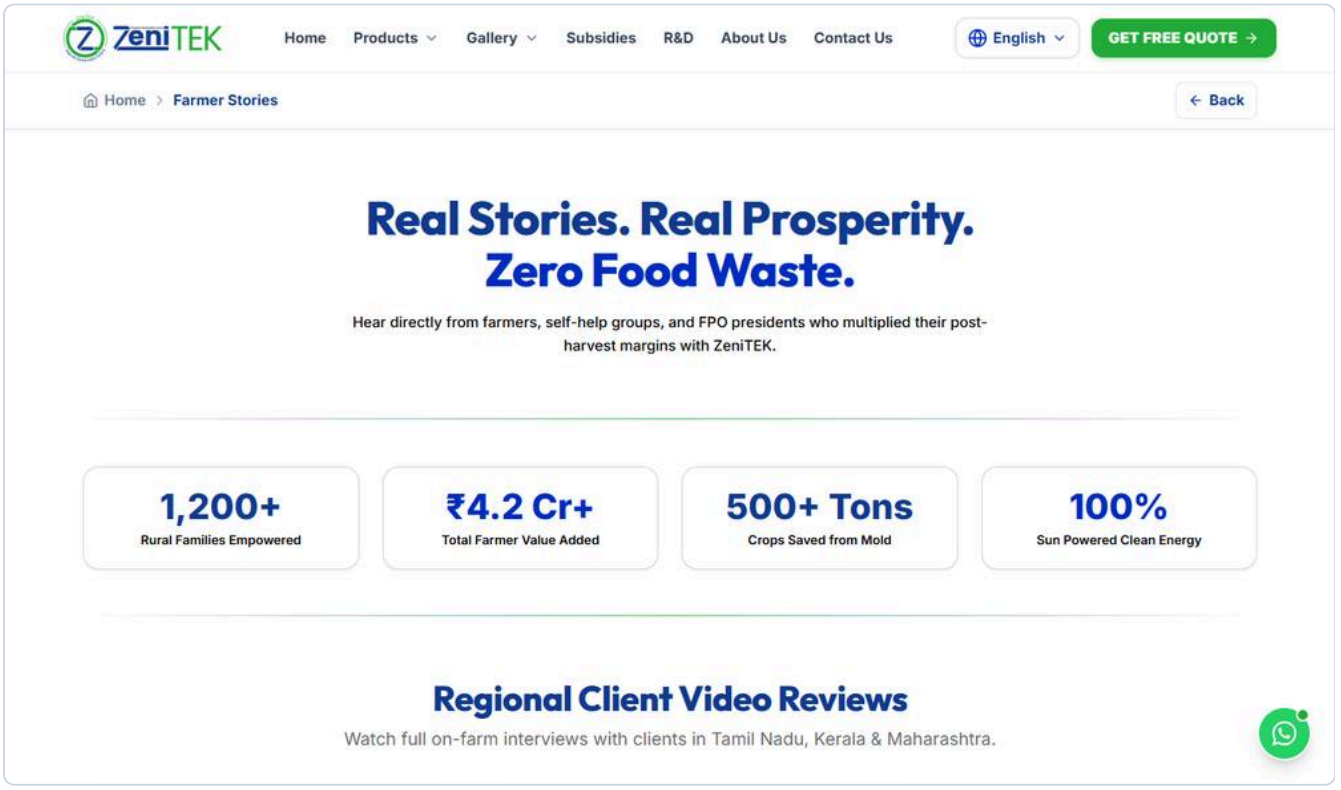

Section 1 Hero

Subheading	Explore our interactive project map ...
Content / description	Headline 'Active Solar Dryer Installations Across South India & Beyond'.
Images / visuals	Background photo zenitek_photo_21.
Buttons, links & destinations	None in this section

Section 2 Interactive Map + Visit CTA

Subheading	Want to Visit an Active Solar Dryer Installation Near You?
Content / description	The 35-site map with state filters, search, layer switch and zoom controls; each pin links to the site's detail page. Below it, a card says ZeniTEK arranges live site visits for FPO directors, officials and farmers.
Topics covered	Map, Site visits
Important information	• Tamil Nadu 18, Karnataka 9, Mizoram 2, Assam 1, Maharashtra 1, Chhattisgarh 1, Kerala 1, Gujarat 1, Odisha 1
Images / visuals	Leaflet map with Esri/OSM tiles.
Buttons, links & destinations	**Pin links** → /installations/loc-N **Book Live Site Visit** → Opens the Get Free Quote page (/quote) (empty)

4.18 Farmer Stories — /stories

Farmer Stories — top of page

Section 1 Hero

Subheading	Hear directly from farmers, self-help groups, and FPO presidents …
Content / description	Headline 'Real Stories. Real Prosperity. Zero Food Waste.'
Buttons, links & destinations	None in this section

Section 2 Global Impact Dashboard

Subheading	(four statistics)
Content / description	Four headline impact figures.
Topics covered	Impact
Important information	• 1,200+ Rural Families Empowered • ₹4.2 Cr+ Total Farmer Value Added • 500+ Tons Crops Saved from Mold • 100% Sun Powered Clean Energy
Images / visuals	Icon tiles.
Buttons, links & destinations	None in this section

Section 3 Regional Client Video Reviews

Subheading	Watch full on-farm interviews with clients in Tamil Nadu, Kerala & Maharashtra.
Content / description	Three cards, each with an embedded YouTube video, name, rating, role/location and a quote. The page tries to load approved reviews from the server and otherwise uses the same three sample reviews as the Home page. All three sample videos point to the same placeholder YouTube video (ID dQw4w9WgXcQ), not real customer interviews.
Topics covered	K. Subramaniam · Ananya Nair · Rajesh Patil
Important information	• Placeholder video on all three cards
Images / visuals	3 YouTube embeds.
Buttons, links & destinations	None in this section

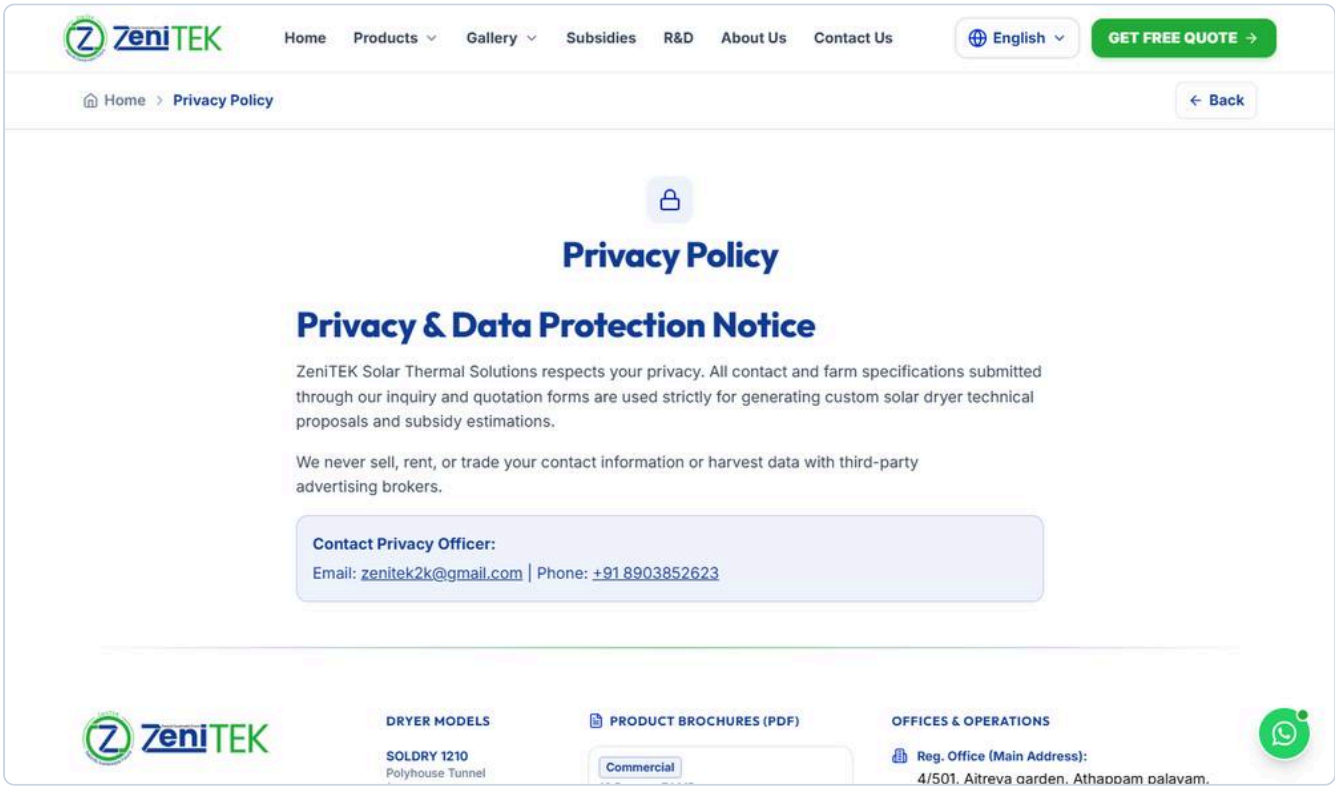

Section 4 In-Depth Case Studies

Subheading	POLLACHI COCONUT FARMERS COLLECTIVE
Content / description	One case study told as Problem → Solar Solution → Profit Result.
Topics covered	How 50 Coconut Farmers Eliminated Rain Losses & Increased Copra Revenue by 28%
Important information	• Problem: monsoon rains destroyed 30% of copra • Solution: 500 kg polyhouse dryer with 50% state subsidy • Result: Grade-1 white copra in 2.5 days; extra ₹18/kg
Images / visuals	Card.
Buttons, links & destinations	None in this section

Section 5 Our 360° Partner Support Commitment

Subheading	(three commitments)
Content / description	Three support promises and a final button.
Topics covered	End-to-End Subsidy Clearance · On-Farm Installation & Training · Direct B2B Buyer Linkage
Important information	• Mentions 'Our Coimbatore engineers'
Images / visuals	3 cards.
Buttons, links & destinations	**START YOUR PROSPERITY STORY TODAY** → Opens the Get Free Quote page (/quote)

4.19 Privacy Policy — /privacy

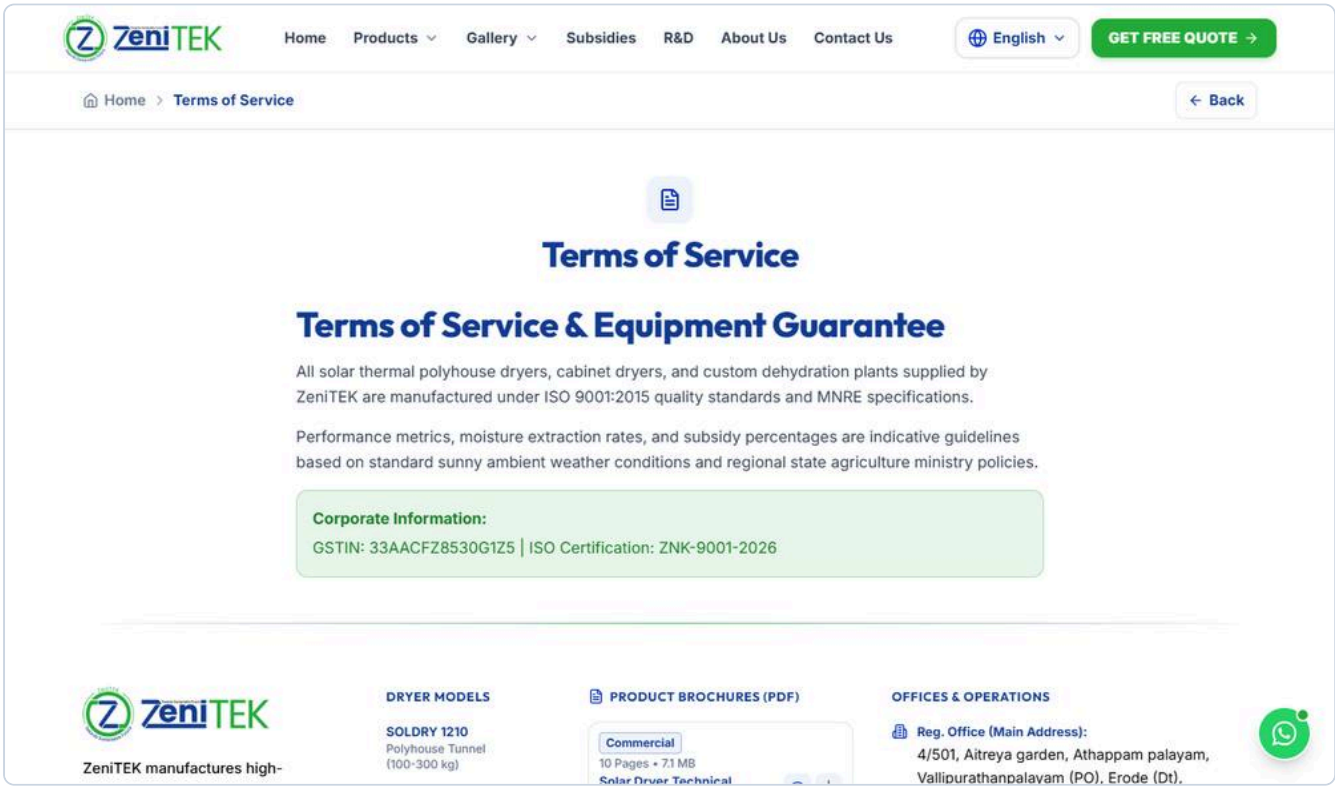

Privacy Policy — top of page

Section 1 **Privacy & Data Protection Notice**

Content / description	Says submitted contact and farm details are used only for quotations, subsidy guidance and support, and are never sold, rented or traded to advertisers. Gives a privacy contact.
Topics covered	Data use
Important information	• Contact: zenitek2k@gmail.com | +91 8903852623
Images / visuals	Text only.
Buttons, links & destinations	**Email / phone links** → mailto: / tel:

4.20 Terms of Service — /terms

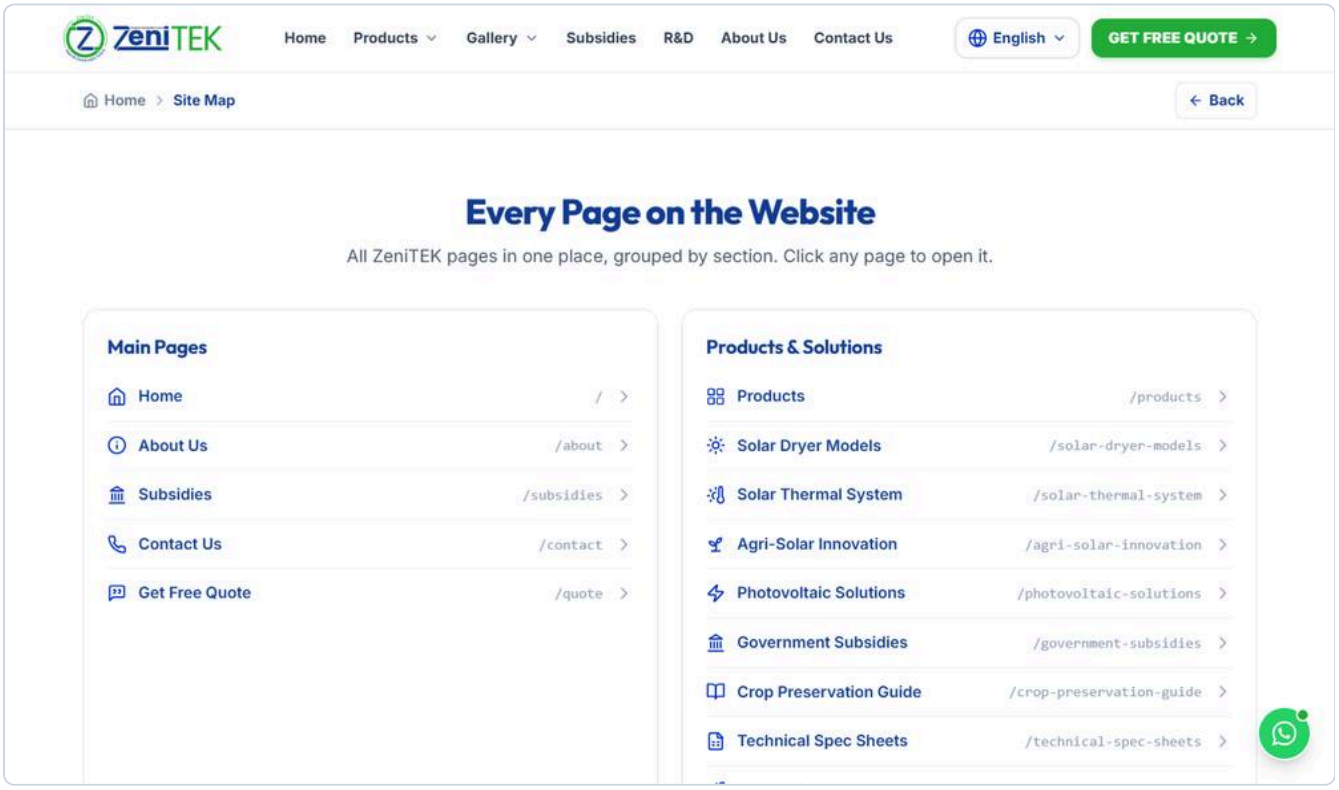

Terms of Service — top of page

Section 1 **Terms of Service & Equipment Guarantee**

Content / description	Says equipment is made to ISO 9001:2015 and MNRE specifications, and that drying rates and subsidy percentages are indicative (depend on weather and state rules).
Important information	• GSTIN: 33AACFZ8530G1Z5 | ISO Certification: ZNK-9001-2026
Images / visuals	Text only.
Buttons, links & destinations	None in this section

4.21 Site Map — /sitemap

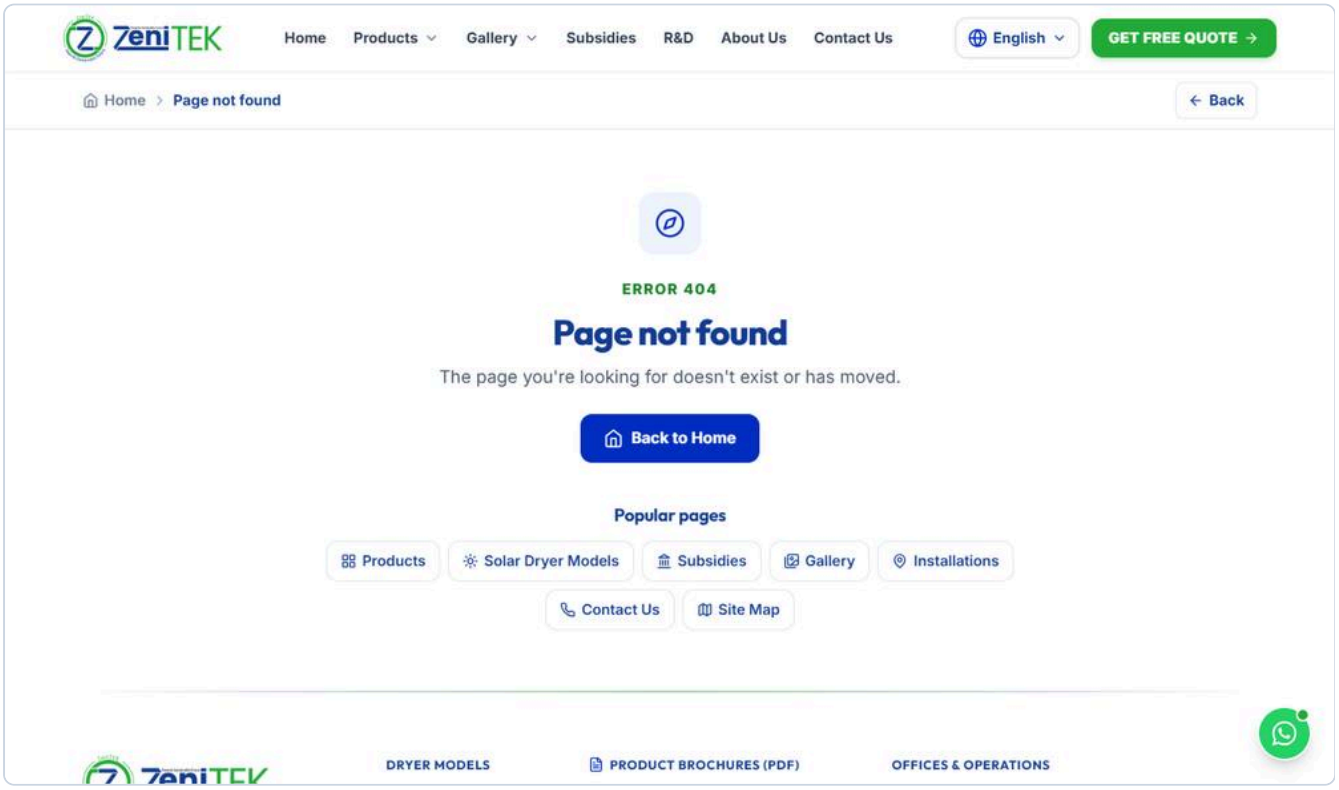

Site Map — top of page

Section 1 **Every Page on the Website**

Subheading	All ZeniTEK pages in one place, grouped by section. Click any page to open it.
Content / description	Four boxes listing 20 pages with their web addresses. Detail pages (models, projects, photos, brochures) are not listed; they are reached from their parent lists.
Topics covered	Main Pages: Home, About Us, Subsidies, Contact Us, Get Free Quote Products & Solutions: Products, 7 solution pages, Applications Gallery & Installations: Gallery, Installations, Farmer Stories Support & Legal: Site Map, Privacy Policy, Terms of Service
Images / visuals	Icon per page.
Buttons, links & destinations	**Every entry** → Its page

4.22 Page Not Found (404) — /<any unknown address>

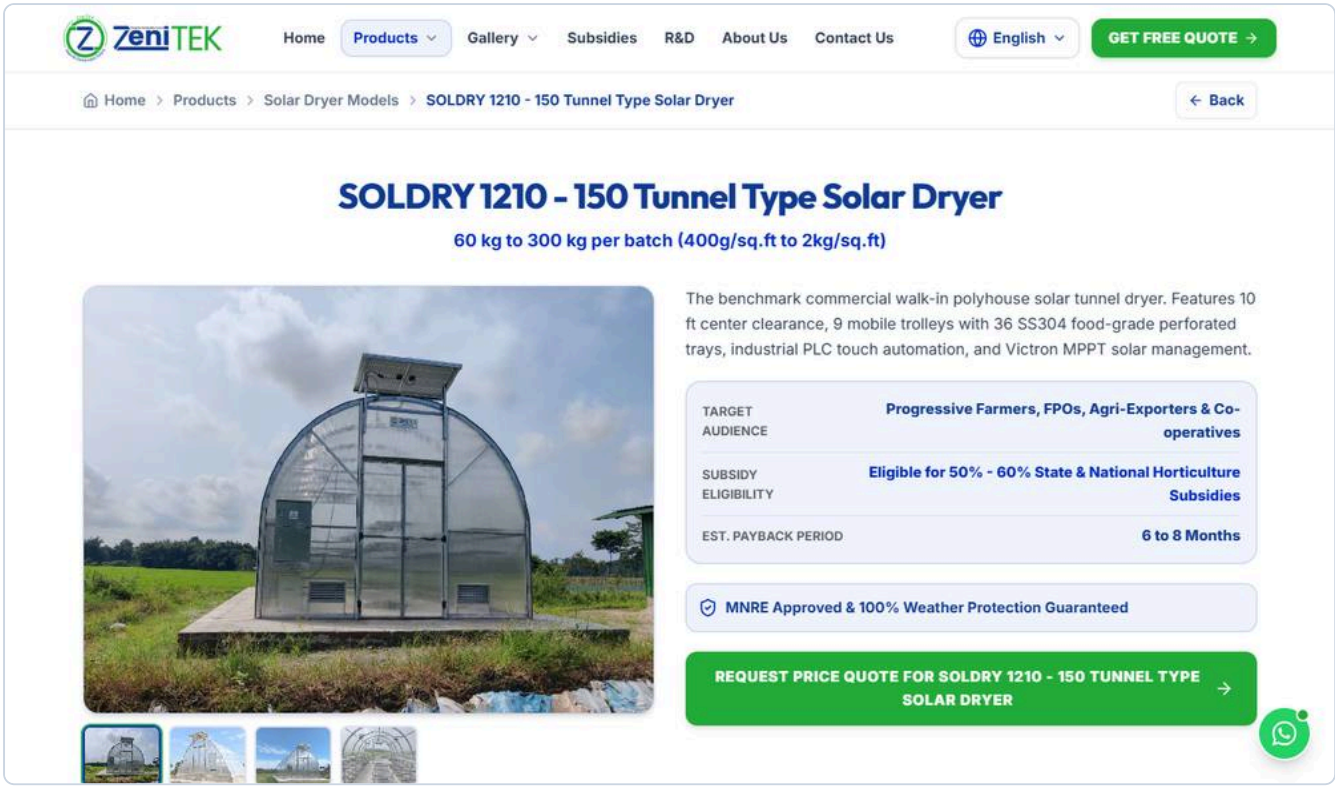

Page Not Found (404) — top of page

Section 1 **Page not found**

Subheading	ERROR 404 — The page you're looking for doesn't exist or has moved.
Content / description	Friendly error with recovery links.
Images / visuals	Compass icon.
Buttons, links & destinations	**Back to Home** → / **Popular pages** → /products, /solar-dryer-models, /subsidies, /gallery, /installations, /contact, /sitemap

4.23 Dryer Model Detail — /solar-dryer-models/:modelId (template, 8 pages)

Example: Dryer Model Detail

Section 1 Model Summary

Subheading	<Model name> (H1) + capacity
Content / description	Photo gallery (up to 4 images, thumbnails to switch), capacity per batch, description, target audience, subsidy eligibility, estimated payback period and an MNRE badge.
Topics covered	Overview
Images / visuals	Up to 4 real photos.
Buttons, links & destinations	**Show image 1–4** → Switch photo **REQUEST PRICE QUOTE FOR <MODEL>** → /quote?capacity=<model name>

Section 2 Technical Specifications

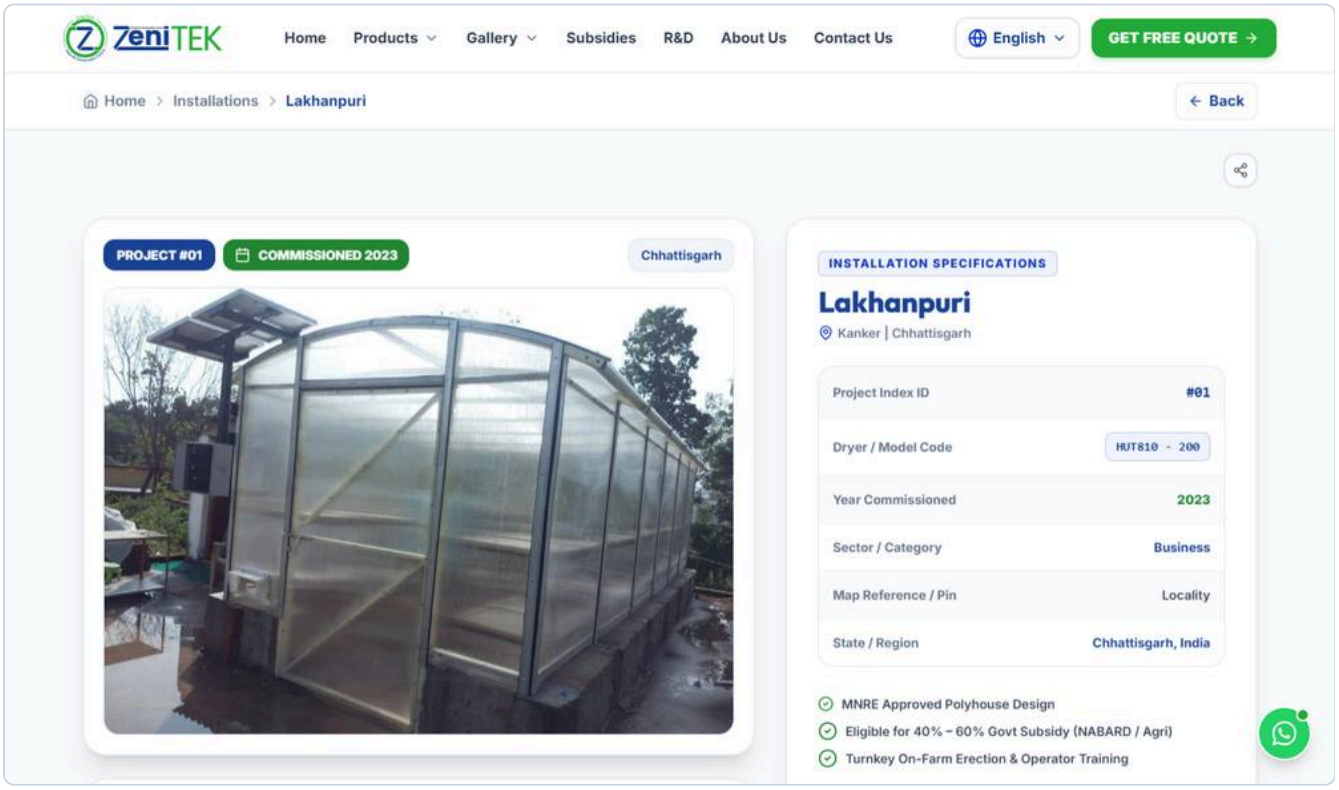

Subheading	From the official ZeniTEK product brochure.
Content / description	Floor area, tray area, tray count/size, trolleys, solar power, exhaust and circulation fans, electrical heater, grid backup, dimensions, structure, controller, mobility (where applicable).
Topics covered	Specifications
Images / visuals	Icon list.
Buttons, links & destinations	None in this section

Section 3 **Key Advantages & Applications**

Content / description	Key feature bullets and compatible crops, followed by a quote button.
Topics covered	Features · Crops
Buttons, links & destinations	**GET A QUOTE FOR THIS MODEL** → /quote?capacity=<model name>

The full list of the 8 pages built from this template, with their titles, is in Chapter 7.

4.24 Project Detail — /projects/:id (template, 25 pages)

Example: Project Detail

Section 1 Photo & Story

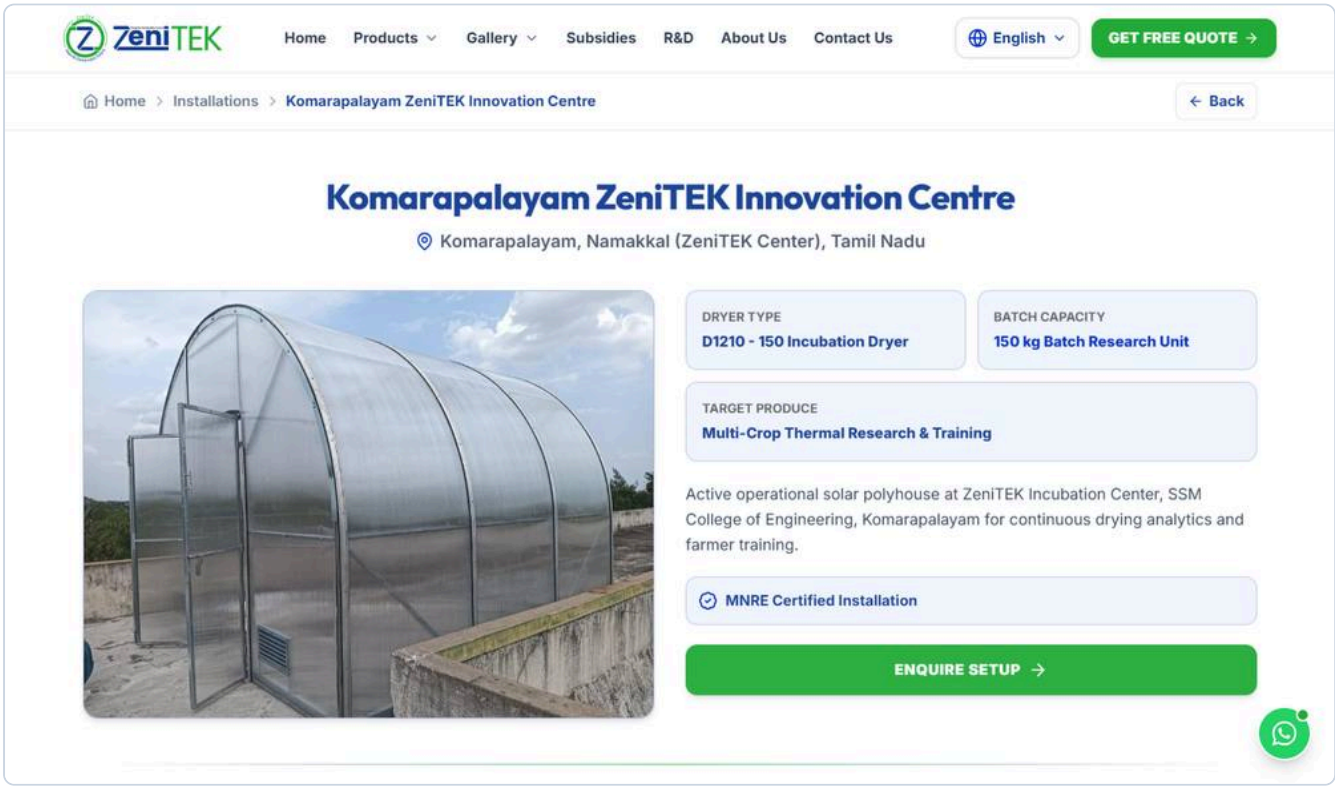

Subheading	<application> (H2)
Content / description	Badges (project number, year commissioned, state), the clean photo, a produce card with a cut-out image, the description and three highlight tiles.
Topics covered	Application · Description
Important information	• Highlights: 100% Rain & Dust Sealed; Zero Fuel / Solar Driven; +25% to 40% Grade Premium
Images / visuals	Project photo + produce image.
Buttons, links & destinations	**Share Link** → Copies the page link **Exterior / Interior (project 06 only)** → Switch photo

Section 2 Installation Specifications

Subheading	<project title> (H1)
Content / description	Project index, dryer/model code, year, sector, map reference, locality, state; badges for MNRE design, subsidy eligibility and turnkey installation.
Topics covered	Specifications
Buttons, links & destinations	**GET A QUOTE FOR THIS SETUP / REQUEST SUBSIDY & PRICE QUOTE** → Opens the Get Free Quote page (/quote), pre-filled with capacity '<dryer code> (<title> Reference)', crop = application, district = locality **Call: +91 80986 13422** → tel:+918098613422 **Previous / Next** → /projects/<NN±1>

The full list of the 25 pages built from this template, with their titles, is in Chapter 7.

4.25 Installation (Map Site) Detail — /installations/:id (template, 35 pages)

Example: Installation (Map Site) Detail

Section 1 Site Overview

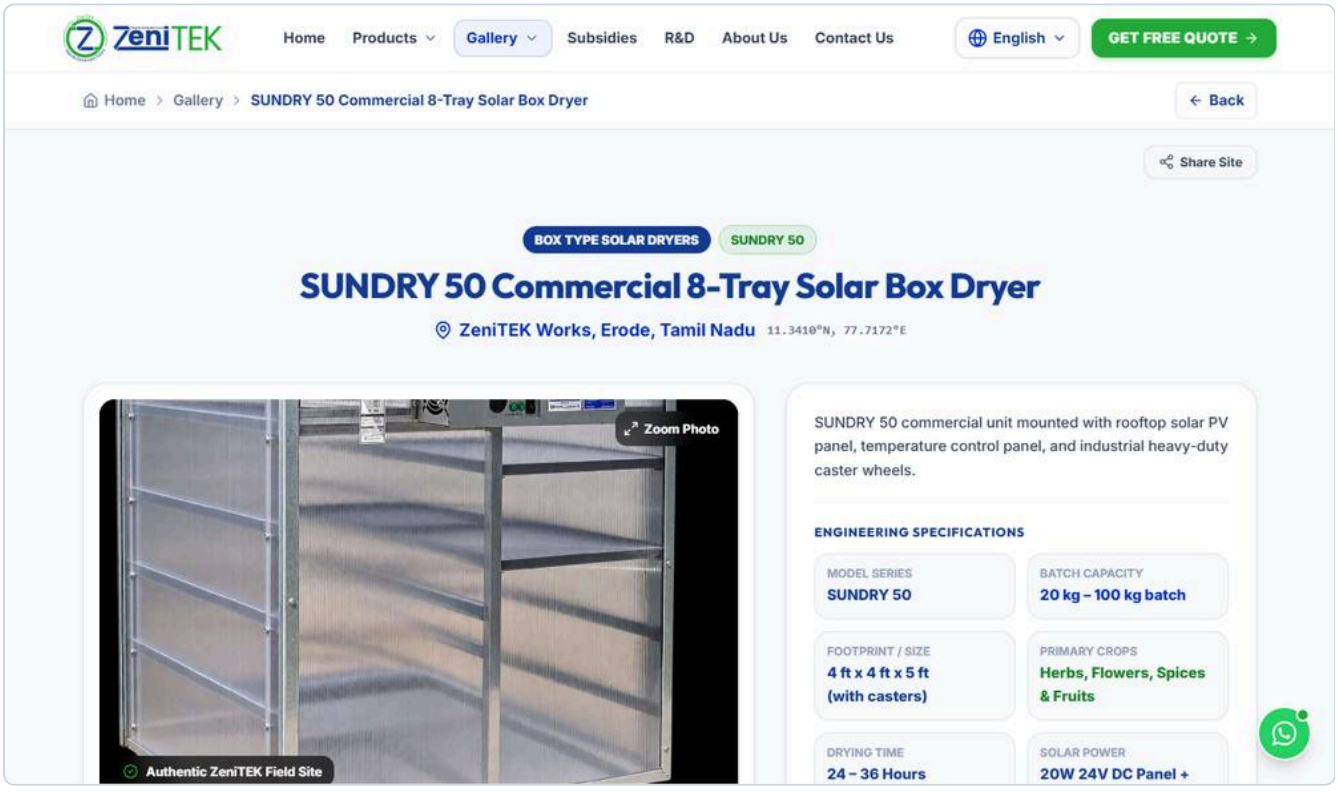

Subheading	<site title> (H1)
Content / description	Location line, photo, three key facts (dryer type, batch capacity, target produce), a description and an MNRE badge.
Topics covered	Site facts
Images / visuals	Site photo.
Buttons, links & destinations	**ENQUIRE SETUP** → /quote pre-filled with district, crop and capacity of the site

Section 2 Drying Results at This Site

Content / description	Drying time compared with open sun, moisture before/after and value addition.
Topics covered	Results
Important information	• e.g. loc-1: 2 Days Solar vs 6–8 Days Open Sun; 75% → 8%; +30% Value Addition
Buttons, links & destinations	None in this section

The full list of the 35 pages built from this template, with their titles, is in Chapter 7.

4.26 Gallery Photo Detail — /gallery/:id (template, 30 pages)

Example: Gallery Photo Detail

Section 1 Showcase & Specifications

Subheading	<photo title> (H1)
Content / description	Photo with thumbnails and zoom; field-site box; description; specs (model series, batch capacity, footprint, primary crops, drying time, solar power, temperature, tray details).
Topics covered	Specifications
Images / visuals	Main photo + related angles; full-screen lightbox.
Buttons, links & destinations	**Share** → Copies the link **Zoom Photo** → Lightbox **REQUEST SIZING QUOTE / GET PRICING & SUBSIDY QUOTE FOR THIS MODEL** → Opens the Get Free Quote page (/quote), pre-filled with capacity, crop and '<location>, <state>' as district **CHAT ON WHATSAPP DIRECTLY** → https://wa.me/919443729576 (a third, different WhatsApp number)

Section 2 Installation Site Map: <location>

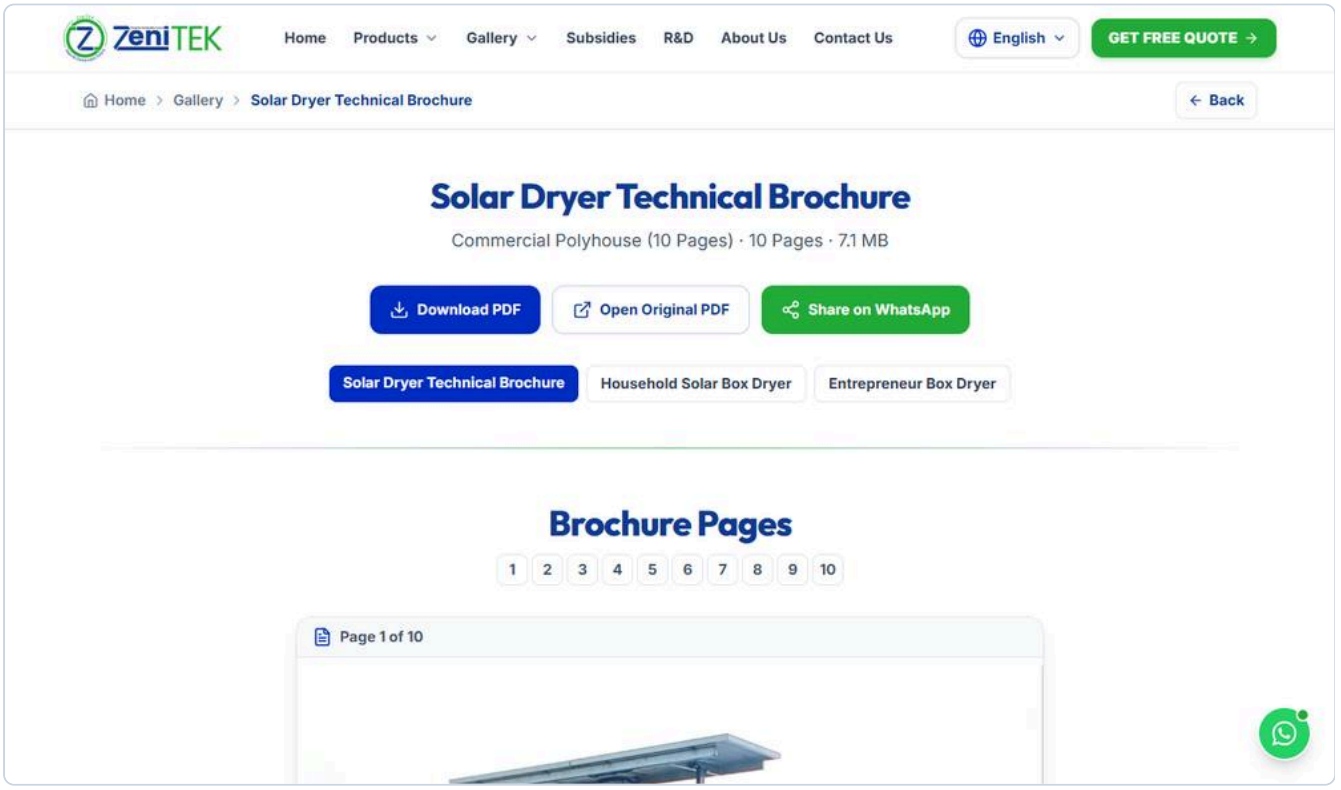

Subheading	Interactive field coordinate preview.
Content / description	Street map centred on the GPS point.
Topics covered	Location
Images / visuals	Leaflet + OpenStreetMap.
Buttons, links & destinations	**+ / −** → Zoom

Section 3 **Related Real Installations**

Subheading	Explore other commissioned projects in this category
Content / description	Three photos from the same category.
Images / visuals	3 photos.
Buttons, links & destinations	**Related card** → /gallery/photo-NN **View All 30 Sites** → /gallery

The full list of the 30 pages built from this template, with their titles, is in Chapter 7.

4.27 Brochure Reader — /brochures/:brochureId (template, 3 pages)

Example: Brochure Reader

Section 1 Brochure Header

Subheading	<brochure title> (H1)
Content / description	Brochure name, subtitle, page count and file size with actions.
Buttons, links & destinations	**Download PDF** → Downloads the file **Open Original PDF** → Opens the PDF in a new tab **Share on WhatsApp** → wa.me share link with the page URL **Other brochures** → /brochures/<other-id>

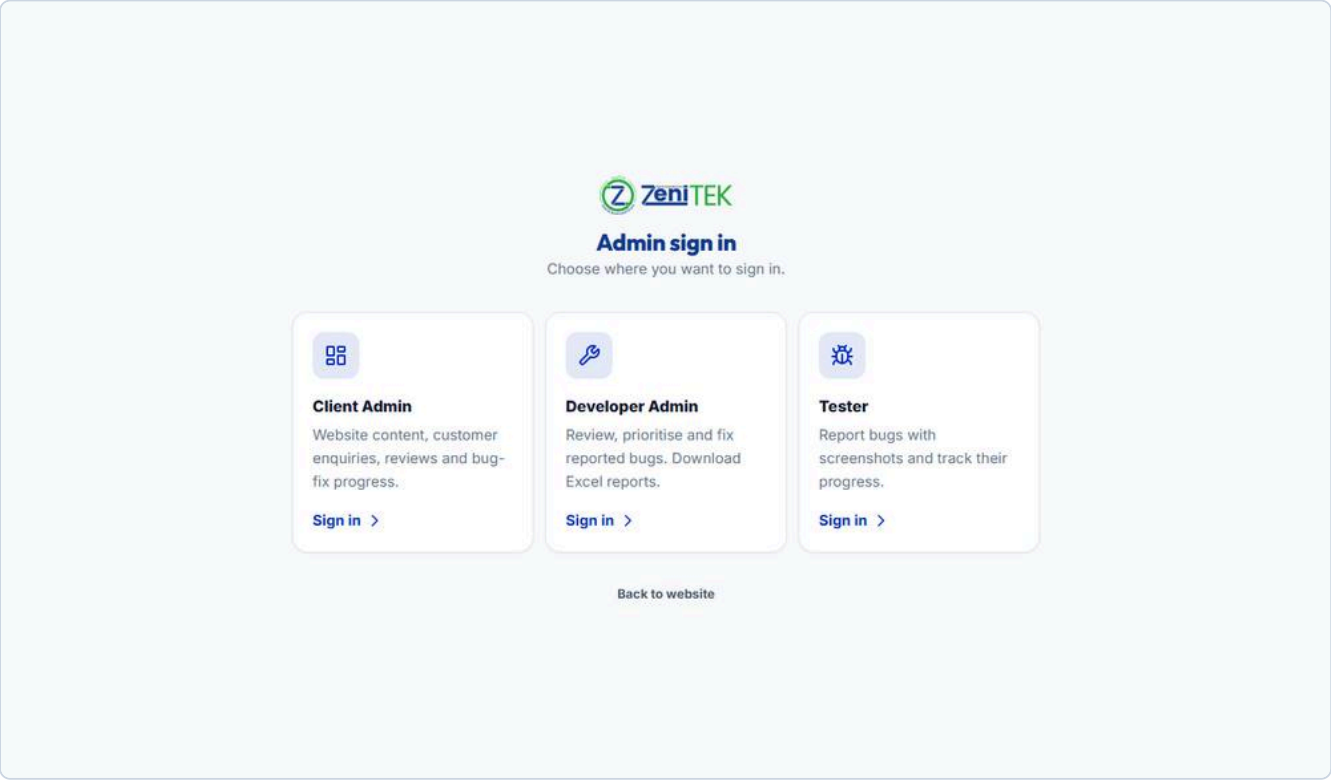

Section 2 Brochure Pages

Content / description	Numbered jump links and every page shown as a full-width image.
Important information	• solar-dryer: 10 pages; household-box: 3; entrepreneur-box: 4
Images / visuals	Page images from /brochures/pages/...
Buttons, links & destinations	**1, 2, 3 ...** → Jumps to that page **REQUEST TECHNICAL QUOTATION** → /quote

The full list of the 3 pages built from this template, with their titles, is in Chapter 7.

4.28 Restricted staff area — /admin

Staff pages have no public navbar, footer or WhatsApp button. Without credentials only the sign-in screens are visible; the dashboard contents below are described from the source code.

/admin/login — sign-in chooser

Section 1 Admin Sign-in Chooser — /admin/login

Content / description	Lets staff choose which dashboard to sign in to: Client Admin, Developer Admin or Tester.
Topics covered	Client Admin → /admin · Developer Admin → /admin/developer · Tester → /admin/tester · Back to website → /
Buttons, links & destinations	None in this section

Section 2 Client Admin (website CMS) — /admin

Content / description	Sign-in, then a dashboard for the business owner: Overview, Enquiries (leads, with detail and delete), Products, Product Sections, Gallery, Reviews (approve/hide/delete) and Bug Status (read-only bug tracker plus ability to report a bug).
Topics covered	Overview · Enquiries · Products · Product Sections · Gallery · Reviews · Bug Status
Buttons, links & destinations	None in this section

Section 3 Developer Admin (bug triage) — /admin/developer

Content / description	Sign-in, then a bug-tracker dashboard: summary counts (open, in progress, completed, overdue; by priority/severity/category), All Bugs, Overdue (past 7-day deadline), Completed, bug detail with status changes, and an Excel report download.
Topics covered	Dashboard · All Bugs · Overdue · Completed · Download Excel Report
Buttons, links & destinations	None in this section

Section 4 Tester (bug reporting) — /admin/tester

Content / description	Sign-in, then a dashboard for testers: My Bugs and Report a Bug (with screenshots). While a tester or client admin is signed in, a floating 'Report a bug' button also appears on public pages.
Topics covered	Dashboard · My Bugs · Report a Bug
Buttons, links & destinations	None in this section

5 Complete Titles and Headings Inventory

Every heading (H1–H4) as it rendered on each page, in page order, including repeated and nested headings and headings that appear only after clicking a tab or filter. Indentation shows the heading level.

5.1 Headings on every public page

5.1.1 Home / — tab title: "ZeniTEK | Solar Dryers & Solar Thermal Systems"

Level	Heading text
H1	Stop Post-Harvest Loss. Multiply Your Farm Profits.
H2	Interactive Profit & Sizing Calculator
H3	SOLDRY 1210 Polyhouse Tunnel Dryer
H3	Operational Advantages & Quality Safeguards
H2	Choose the Perfect Solar Thermal Dryer for Your Farm
H3	SOLDRY 1210
H2	Active Solar Dryer Installations
H2	What Can You Dry With ZeniTEK?
H3	Red Chillies / Spices
H3	Herbs & Flowers
H3	Salted Fish & Seafood
H2	Towards a Sustainable Future
H3	Trusted by Academic & Industry Partners
H2	Trusted by 1,200+ Agricultural Entrepreneurs
H4	K. Subramaniam
H4	Ananya Nair
H4	Rajesh Patil
H2	Get Instant Pricing & Subsidy Details on WhatsApp

5.1.2 Products /products — tab title: "Products | ZeniTEK"

Level	Heading text
H1	Solar Drying & Energy Solutions
H2	All Solutions
H3	Solar Dryer Models
H3	Solar Thermal System

Level	Heading text
H3	Agri-Solar Innovation
H3	Photovoltaic Solutions
H3	Government Subsidies
H3	Crop Preservation Guide
H3	Technical Spec Sheets
H3	Applications

5.1.3 Solar Dryer Models /solar-dryer-models — tab title: "Solar Dryer Models | ZeniTEK"

Level	Heading text
H1	High-Performance Solar Dryers Engineered for Agriculture & Food Processing
H2	Solar Dryer Models & Technical Specifications
H3	SUNDRY 6 Box Type Solar Dryer
H3	SUNDRY 12 Box Type Solar Dryer
H3	SUNDRY 50 Commercial Box Type Solar Dryer
H3	SOLDRY 1210 - 150 Tunnel Type Solar Dryer
H3	SOLDRY 1709 - 200 Inverted Parabolic Tunnel Solar Dryer
H3	SOLDRY 2008 - 250 Wide Profile Tunnel Solar Dryer
H3	SOLDRY 1210 - 300 High-Capacity Tunnel Solar Dryer
H3	SOLDRY Modular & Scalable Commercial Solar Polyhouse
H2	SOLDRY Profile Comparison — 150 · 200 · 250 Sq.Ft
H3	SOLDRY 1210 - 150
H3	SOLDRY 1709 - 200
H3	SOLDRY 2008 - 250
H2	Solar Dryer Working Principle
H4	Solar Heat Generation
H4	Moisture Release
H4	Moisture Exhaust & Fresh Air Intake
H4	Automatic Control
H4	UV Protection
H4	Hygienic Drying
H4	Faster Drying
H2	Official ZeniTEK PDF Product Brochure Catalog

Level	Heading text
H4	SOLDRY 1210 - 150 Tunnel Type Solar Dryer
H4	SOLDRY 1709 - 200 Inverted Parabolic Tunnel Type Solar Dryer
H4	SOLDRY Solar Tunnel Dryer Profile Comparison
H4	SUNDRY 6 Box Type Solar Dryer
H4	SUNDRY 12 Box Type Solar Dryer
H4	SUNDRY 50 Box Type Solar Dryer
H4	Solar Drying Solutions for Every Need
H4	Solar Dryer Working Principle
H4	SOLDRY 1210 - 300 Tunnel Type Solar Dryer
H2	Real Operational Solar Dryers in Action
H4	SUNDRY 50 Commercial 8-Tray Solar Box Dryer
H4	Inside Commercial Tunnel Dryer with Multi-Tier Trolleys
H4	Multi-Tier SS304 Perforated Food-Grade Trays
H4	SOLDRY Tunnel Polyhouse Elevation with Solar Apex
H4	SUNDRY 12 Compact Dual-Tier Box Dryer (Door Open)
H4	SUNDRY Box Dryer Transport Preparation
H4	Precision GI Base Trolley Frame with Caster Wheels
H4	Herb & Flower Dehydration on Multi-Tier SS304 Trays
H3	Looking for More Site Photos & Factory Trays?
H2	Verified Project Installation Gallery
H3	Lakhanpuri
H3	Kallanatham
H3	Vazhapady
H3	Pollachi
H3	Chikkaballapur
H3	Mulbagal
H2	Verified Operational Solar Dryers Map (35 Active Sites)
H2	Need a Custom Solar Dryer Sized for Your Farm?

5.1.4 Solar Thermal System /solar-thermal-system — tab title: “Solar Thermal System | ZeniTEK Solar Thermal Solutions”

Level	Heading text
H1	Solar Thermal System

Level	Heading text
H2	Key Capabilities & Impact
H2	Technical Overview & Operations
H2	Ready to Upgrade to High-Efficiency Solar Thermal?

5.1.5 Agri-Solar Innovation /agri-solar-innovation — tab title: "Agri-Solar Innovation | ZeniTEK Solar Thermal Solutions"

Level	Heading text
H1	Agri-Solar Innovation
H2	Key Benefits for Growers
H2	How Agri-Solar Drying Works
H2	Ready to Bring Agri-Solar Drying to Your Farm?

5.1.6 Photovoltaic Solutions /photovoltaic-solutions — tab title: "Photovoltaic Solutions | ZeniTEK Solar Thermal Solutions"

Level	Heading text
H1	Photovoltaic Solutions
H2	Key Capabilities & Impact
H2	Technical Overview & Operations
H2	Ready to Run Your Dryer on Solar Power?

5.1.7 Government Subsidies (solution page) /government-subsidies — tab title: "Government Subsidies | ZeniTEK Solar Thermal Solutions"

Level	Heading text
H1	Government Subsidies
H2	Subsidy Schemes & Support
H2	How the Subsidy Process Works
H2	Calculate Your Solar Dryer Subsidy
H2	Ready to Claim Your Solar Dryer Subsidy?

5.1.8 Crop Preservation Guide /crop-preservation-guide — tab title: "Crop Preservation Guide | ZeniTEK Solar Thermal Solutions"

Level	Heading text
H1	Crop Preservation Guide
H2	Key Preservation Guidelines
H2	Crop Drying Guidelines
H2	Validated Crop Dehydration Matrix

Level	Heading text
H2	Ready to Dry Your Crops to Export Grade?

5.1.9 Technical Spec Sheets /technical-spec-sheets — tab title: "Technical Spec Sheets | ZeniTEK Solar Thermal Solutions"

Level	Heading text
H1	Technical Spec Sheets
H2	Key Specifications
H2	Technical Specifications
H4	Structural Specifications
H4	Civil & Foundation Requirements
H2	Official Specification Sheets & CAD Blueprints
H4	Solar Dryer Technical Brochure
H4	Household Solar Box Dryer
H4	Entrepreneur Box Dryer
H2	Need Detailed Specs for Your Project?

5.1.10 Applications /applications — tab title: "Applications | ZeniTEK"

Level	Heading text
H1	Engineered to Dry Over 50+ Agricultural & Industrial Products
H2	Crops & Products We Dry
H3	Copra / Coconut
H3	Moringa / Herbs / Tea
H3	Red Chillies / Spices
H2	Crop Moisture Parameter Matrix
H2	Tailored Solutions for Your Operations
H3	For FPOs & Cooperatives
H3	For Food Exporters
H3	For Smallholder Farmers
H3	Salted Fish & Seafood (tab: Marine & Seafood (Salted Fish, Shrimp))
H3	Salted Fish & Seafood (tab: Marine & Seafood (Salted Fish, Shrimp))
H3	Other Biomass & Crops (tab: Industrial & Biomass (Sludge, Rubber, Timber))
H3	Other Biomass & Crops (tab: Industrial & Biomass (Sludge, Rubber, Timber))

5.1.11 Subsidies /subsidies — tab title: "Subsidies | ZeniTEK"

Level	Heading text
H1	Government Subsidies for ZeniTEK Solar Dryers (40% – 60%)
H2	Instant State Subsidy Estimator
H2	Available Central & State Subsidy Schemes
H3	State Horticulture Mission (MIDH / SHM)
H3	Ministry of New & Renewable Energy (MNRE)
H3	Agriculture Infrastructure Fund (AIF)
H3	PM-FME & MSME Food Processing Scheme
H2	How ZeniTEK Handles Your Subsidy End-to-End

6 Topics and Subtopics Inventory

Main topics of each page with their subtopics (section topics), followed by the site-wide lists of keywords, services, products and features.

6.1 Topics and subtopics by page

Page	Main topics	Subtopics (by section)
Home /	Post-harvest loss, Solar thermal dryers, Government subsidy (40–60%), Dryer models, Installations map, Crops that can be dried, Company background, Testimonials, Quote enquiry	**Hero Carousel**: Value proposition, Solar dehydration, Key statistics **Trust Strip**: Certification, Subsidy eligibility **Interactive Profit & Sizing Calculator**: SOLDRY 1210 Polyhouse Tunnel, SOLDRY 1709 Parabolic Arch Tunnel, Red chilli dehydration, SUNDRY 50 box dryer, Tunnel interior, Drying speed, Hygiene, Quality retention **Model Showcase**: Dryer model comparison, Capacity per batch, Subsidy assistance **Active Solar Dryer Installations**: Installation footprint, States served, Site details **What Can You Dry With ZeniTEK?**: Red chillies / spices, Herbs & flowers, Salted fish & seafood **Towards a Sustainable Future (About ZeniTEK)**: Company origin, Business pillars, Academic & industry partners **Trusted by 1,200+ Agricultural Entrepreneurs**: Customer testimonials, Copra margins, Spice export quality, Subsidy & ROI **Get Instant Pricing & Subsidy Details on WhatsApp**: Lead capture, Pricing, Subsidy guidance
Products /products	Product & solution categories	**Hero**: Overview **All Solutions**: Solar Dryer Models, Solar Thermal System, Agri-Solar Innovation, Photovoltaic Solutions, Government Subsidies, Crop Preservation Guide, Technical Spec Sheets, Applications
Solar Dryer Models /solar-dryer-models	8 dryer models, Box vs tunnel dryers, SOLDRY profile comparison, Working principle (7 steps), Brochure catalogue, Real photos, Project installations, Installations map	**Hero Header**: Product range promise **Quick Jump Strip**: In-page navigation **Our Products (CMS products)**: Admin-managed products **Solar Dryer Models & Technical Specifications**: SUNDRY 6, SUNDRY 12, SUNDRY 50, SOLDRY 1210-150, SOLDRY 1709-200, SOLDRY 2008-250, SOLDRY 1210-300, SOLDRY Modular (up to 1,000 sq.ft) **SOLDRY Profile Comparison — 150 · 200 · 250 Sq.Ft**: Tunnel profiles, Tray vs floor drying, Modular extension **Solar Dryer Working Principle**: Solar heat generation, Moisture release, Exhaust & fresh air intake, Automatic control, UV protection, Hygienic drying, Faster drying **Official ZeniTEK PDF Product Brochure Catalog**: Brochure pages 1–9 **Real Operational Solar Dryers in Action**: Field photos, Box dryers, Tunnel interiors, Trays & trolleys **Verified Project Installation Gallery**: 25 project case studies, Search & filters, Pagination **Verified Operational Solar Dryers Map (35 Active Sites)**: Installations map **Need a Custom Solar Dryer Sized for Your Farm?**: Custom sizing

Page	Main topics	Subtopics (by section)
Solar Thermal System /solar-thermal-system	Selective absorber surfaces, Forced-convection ducts, Chamber temperature up to 65°C, Thermal storage, Blower automation	**Hero**: Page introduction **Key Capabilities & Impact**: Advanced Selective Solar Absorber Surfaces (>85% Thermal Con, Patented Aerodynamic Forced Convection Ducts for Uniform Bat, Boosts Internal Drying Chamber Temperature up to 65°C Withou, Secondary Auxiliary Thermal Mass Storage for Extended Evenin, Precision Multi-Zone Blower Automation with Digital Calibrat **Technical Overview & Operations**: Selective absorber surfaces, Forced-convection ducts, Chamber temperature up to 65°C, Thermal storage, Blower automation **Ready to Upgrade to High-Efficiency Solar Thermal?**: Call to action
Agri-Solar Innovation /agri-solar-innovation	Multi-crop versatility, Moisture 85% → <8% in 18–36 h, Colour/curcumin/oil retention, UV protection, 25–45% higher selling price	**Hero**: Page introduction **Key Benefits for Growers**: Multi-Crop Versatility (Turmeric, Copra, Chillies, Moringa, , Drastically Reduces Moisture from 85% to <8% Within 18-36 Op, Locks in Original Natural Color, Curcumin, Essential Oils, a, Zero UV Degradation, Delivers 25% to 45% Higher Selling Price at Mandi & Export M **How Agri-Solar Drying Works**: Multi-crop versatility, Moisture 85% → <8% in 18–36 h, Colour/curcumin/oil retention, UV protection, 25–45% higher selling price **Ready to Bring Agri-Solar Drying to Your Farm?**: Call to action
Photovoltaic Solutions /photovoltaic-solutions	Monocrystalline PV modules, BLDC blowers, LFP battery storage, Grid failover, IoT smart controller	**Hero**: Page introduction **Key Capabilities & Impact**: High-Efficiency Tier-1 Monocrystalline Solar Photovoltaic Mo, Ultra-Efficient Brushless DC (BLDC) Smart Forced-Air Exhaust, Safe, Long-Life Lithium Ferro Phosphate (LFP) Battery Energy, Dual Hybrid Input, Integrated IoT Smart Controller for Mobile Telemetry and Rem **Technical Overview & Operations**: Monocrystalline PV modules, BLDC blowers, LFP battery storage, Grid failover, IoT smart controller **Ready to Run Your Dryer on Solar Power?**: Call to action
Government Subsidies (solution page) /government-subsidies	MIDH / SHM, MNRE, AIF, PM-FME, DPR & liaison support, Subsidy calculator	**Hero**: Page introduction **Subsidy Schemes & Support**: Mission for Integrated Development of Horticulture (MIDH / S, Ministry of New & Renewable Energy (MNRE), Agriculture Infrastructure Fund (AIF), PM Formalisation of Micro Food Processing Enterprises (PM-FM, End-to-End Liaison Support **How the Subsidy Process Works**: MIDH / SHM, MNRE, AIF, PM-FME, DPR & liaison support, Subsidy calculator **Calculate Your Solar Dryer Subsidy**: Subsidy estimate **Ready to Claim Your Solar Dryer Subsidy?**: Call to action
Crop Preservation Guide /crop-preservation-guide	Spice temperatures, Fruit protocols, Herbal plants, Moisture targets, FSSAI/export compliance, Crop dehydration matrix	**Hero**: Page introduction **Key Preservation Guidelines**: Precise Drying Parameters for Spices, Horticultural Protocols for Fruits, Herbal & Medicinal Plants, Target Moisture Levels, FSSAI & Global Export Quality Compliance Guidelines Included **Crop Drying Guidelines**: Spice temperatures, Fruit protocols, Herbal plants, Moisture targets, FSSAI/export compliance, Crop dehydration matrix **Validated Crop Dehydration Matrix**: Turmeric, Copra, Moringa, Red chillies, Cardamom & pepper, Banana & mango chips, Ginger **Ready to Dry Your Crops to Export Grade?**: Call to action

Page	Main topics	Subtopics (by section)
Technical Spec Sheets /technical-spec-sheets	Polycarbonate glazing, SS304 trays, Wind-load rating, Civil & foundation requirements, Downloadable brochures	**Hero**: Page introduction **Key Specifications**: High-Grade Hot-Dip Galvanized Iron (GI) Structural Framework, UV-Protected Multi-Wall Polycarbonate Glazing with 10-Year W, Food-Contact Grade SS304 Wire Mesh Trays with Heavy-Duty Str, Wind Load Resistance up to 130 km/h (Cyclone & Storm Resilie, Comprehensive Electrical & Mechanical Schematic CAD Drawings **Technical Specifications**: Polycarbonate glazing, SS304 trays, Wind-load rating, Civil & foundation requirements, Downloadable brochures **Official Specification Sheets & CAD Blueprints**: Solar Dryer Technical Brochure, Household Solar Box Dryer, Entrepreneur Box Dryer **Need Detailed Specs for Your Project?**: Call to action
Applications /applications	Food & agriculture, Marine & seafood, Industrial & biomass, Moisture matrix, Customer personas	**Hero**: Range of products **Crops & Products We Dry**: Copra, Moringa, Chillies, Salted fish, Seafood processing, Industrial sludge, Timber & rubber **Crop Moisture Parameter Matrix**: Copra, Moringa leaves, Red chillies, Salted fish & shrimp, Turmeric & ginger, Flowers & tea/herbs **Tailored Solutions for Your Operations**: FPOs & cooperatives, Food exporters, Smallholder farmers
Subsidies /subsidies	Subsidy estimate, MIDH/SHM, MNRE, AIF, PM-FME, Application process	**Hero**: Subsidy range **Instant State Subsidy Estimator**: Eligibility estimate **Available Central & State Subsidy Schemes**: State Horticulture Mission (MIDH / SHM), Ministry of New & Renewable Energy (MNRE), Agriculture Infrastructure Fund (AIF), PM-FME & MSME Food Processing Scheme **How ZeniTEK Handles Your Subsidy End-to-End**: Select model & official quote, DPR & document preparation, Government portal submission, Manufacturing & installation, Department inspection & direct credit
About Us /about	Company history, Mentors, Solar thermal, Agri-solar, Photovoltaics, R&D, Landmark projects, Partners, Registered details	**Hero**: Company snapshot **Pioneering Renewable Energy From Erode to All India**: Company history, Mentorship **What We Do**: Solar Thermal Systems, Agri-Solar Innovations, Photovoltaic Solutions, Research & Development **Landmark Installations & Test Rigs**: 37.5 Sq.m Parabolic Trough Collector, Solar PV Certification Laboratory Test Rigs, 592 Sq.m Scheffler Dish Refurbishment, 192 Sq.m Commercial Solar Tunnel Dryer, 4-Row Solar Paddy Transplanter, 80 Sq.m Scheffler Dish Refurbishment **Academic & Industrial Partners**: IIT Bhubaneswar, Anna University Chennai, SRM University, Sree Sankara College, Gandhigram University, College of Fisheries, Mitsui Chemicals, Indo-MIM, SELCO Foundation, Pro-Target & NISE **Real Field Photo Reel**: Parabolic trough, SOLDRY 1210, Active hub, SUNDRY 50, Industrial greenhouse, SUNDRY 12, Testing rigs, Airflow **Connect With ZeniTEK Engineers**: Contact details
Contact Us /contact	Office addresses, GSTIN, Phone & email, WhatsApp, Enquiry form, CSR partnerships	**Hero** **Reach Our Team**: Registered office, Operation address, GSTIN, Phones, Emails, WhatsApp, Enquiry form **Support Assurance Row** **Partner with ZeniTEK for Rural Livelihood Projects**: CSR partnerships

6.2 Important keywords

solar dryer | solar thermal | polyhouse | tunnel dryer | box dryer | SOLDRY | SUNDRY | post-harvest loss | dehydration | MNRE | ISO 9001:2015 | subsidy | MIDH | SHM | AIF | PM-FME | DPR | FPO | SHG | CSR | SS304 | polycarbonate | UV protection | PLC | HMI | MPPT | BLDC | LFP battery | copra | moringa | chillies | turmeric | spices | seafood | sludge | aflatoxin | Grade-1 white copra | moisture | drying time | Scheffler dish | parabolic trough | evacuated tube collector | PV test rig | paddy transplanter | Erode | Komarapalayam | Tamil Nadu | Karnataka | WhatsApp | free quote

6.3 Services offered (as named on the site)

- Solar Thermal Systems — Evacuated Tube Collectors (ETC), Parabolic Trough Collectors (PTC), Scheffler Dishes & Concentrators, Refurbishing & Service of Inoperative Systems
- Agri-Solar Innovations — commercial polyhouse tunnel dryers, portable stainless-steel box dryers, solar-powered 4-row paddy transplanters, zero-power agricultural cold storage
- Photovoltaic Solutions — PV panels & turnkey system integration, visual inspection / outdoor / indoor PV test rigs
- Research & Development — academic demonstration models, prototype test rigs, turnkey commercialization pipelines, sensor telemetry & automated airflow
- Subsidy assistance — official quotation, DPR preparation, portal submission, inspections, direct benefit transfer follow-up
- Turnkey design & EPC, on-farm installation and operator training, site visits, B2B buyer linkage, CSR/NGO partnership projects

6.4 Products and product families

Family	Products
SUNDRY box-type solar dryers	SUNDRY 6, SUNDRY 12, SUNDRY 50 (also 'Household Solar Box Dryer' and 'Entrepreneur Box Dryer' brochures)
SOLDRY tunnel-type solar dryers	SOLDRY 1210 - 150, SOLDRY 1709 - 200, SOLDRY 2008 - 250, SOLDRY 1210 - 300, SOLDRY Modular (up to 1,000 sq.ft)
Names used elsewhere on the site	'SOLDRY 300' (= SOLDRY 1210 - 300), 'SOLDRY 1210 Polyhouse Tunnel', 'SOLDRY 1709 Parabolic Arch Tunnel', 'Portable DIY Solar Dryer', 'Multi-Tunnel Industrial Hybrid Dryer', 'Industrial Multi-Tunnel Plant'
Project dryer codes	1208 - 150, 1208 - 300, 1209 - 150, D1210 - 100, D1210 - 150, D1210 - 300, D1210 - 450, H2008 - 1000, H2008 - 250, HUT810 - 200, P1709 - 200
Installation dryer types	1208 - 150 Polyhouse Dryer, 1208 - 300 Walk-In Tunnel, 1209 - 150 Solar Dryer, Commercial Polyhouse Tunnel, D1210 - 100 Solar Polyhouse, D1210 - 150 Hill Polyhouse, D1210 - 150 Incubation Dryer, D1210 - 150 Solar Dehydrator, D1210 - 150 Solar Dryer, D1210 - 150 Solar Polyhouse, D1210 - 300 High-Elevation Unit, D1210 - 300 Hill Polyhouse, D1210 - 300 Industrial Plant, D1210 - 300 Polyhouse, D1210 - 300 Solar Polyhouse, D1210 - 300 Walk-In, D1210 - 450 Multi-Tier Walk-In, H2008 - 1000 Industrial Dryer, H2008 - 250 Commercial Unit, H2008 - 250 Solar Tunnel, HUT810 - 200 Commercial Dryer, High-Humidity Solar Dryer, High-Volume Solar Tunnel, Hybrid Solar Polyhouse, P1709 - 200 Polyhouse, Polyhouse Solar Dehydrator, SOLDRY 1208 Tunnel Dryer, SOLDRY 1210 Polyhouse, SOLDRY 1210 Setup, SOLDRY 1210 Tunnel, SOLDRY 1210 Walk-In, Sealed Coastal Solar Dryer

6.5 Features named on the site

6 mm double-walled UV polycarbonate | CNC-folded GI steel frame | EPDM rubber beading | SS304 perforated food-grade trays | mobile trolleys | PLC automation with touchscreen HMI | interior/exterior temperature & humidity sensors | automated exhaust fans | internal circulation fans | Victron Bluetooth MPPT controller | solar PV panel + battery | auxiliary electric heater (night backup) | 24V DC SMPS grid supply | modular prefabricated sections | IoT smart controller | LFP battery storage | BLDC blowers | thermal mass storage | wind load resistance up to 130 km/h

7 Services, Products and Features Documentation

7.1 The seven solution categories

Route	Title	Subtitle	Highlights
`/solar-dryer-models`	Solar Dryer Models	Commercial Walk-In Tunnels, Industrial Multi-Unit Plants & Micro Box Dryers	• MNRE Enlisted & Subsidy Eligible (40% - 60% Govt Assistance) • 100% Zero-Electricity Solar Thermal Operation Mode • Stainless Steel SS304 Food-Grade Trays & Anti-Contamination Design • Automated Microcontroller Humidity & Exhaust Temperature Management • Available in capacities from 12 kg pilot units up to 1000 kg+ commercial plants
`/solar-thermal-system`	Solar Thermal System	High-Efficiency Thermal Collectors with Patented Aerodynamic Air Circulation	• Advanced Selective Solar Absorber Surfaces (>85% Thermal Conversion) • Patented Aerodynamic Forced Convection Ducts for Uniform Batch Heating • Boosts Internal Drying Chamber Temperature up to 65°C Without Fossil Fuels • Secondary Auxiliary Thermal Mass Storage for Extended Evening Drying Runs • Precision Multi-Zone Blower Automation with Digital Calibrated Sensors
`/agri-solar-innovation`	Agri-Solar Innovation	Pioneering Decentralized Solar Drying Solutions for Farmers and FPOs	• Multi-Crop Versatility (Turmeric, Copra, Chillies, Moringa, Banana & Herbs) • Drastically Reduces Moisture from 85% to <8% Within 18-36 Operating Hours • Locks in Original Natural Color, Curcumin, Essential Oils, and Aroma • Zero UV Degradation: Food-grade Polycarbonate Blocks Harmful UV Spectra • Delivers 25% to 45% Higher Selling Price at Mandi & Export Markets
`/photovoltaic-solutions`	Photovoltaic Solutions	Hybrid Solar PV & DC Micro-Grid Systems for 24/7 Uninterrupted Operation	• High-Efficiency Tier-1 Monocrystalline Solar Photovoltaic Modules • Ultra-Efficient Brushless DC (BLDC) Smart Forced-Air Exhaust Blowers • Safe, Long-Life Lithium Ferro Phosphate (LFP) Battery Energy Storage Options • Dual Hybrid Input: Solar PV Primary with Auto-Grid Failover for Rainy Periods • Integrated IoT Smart Controller for Mobile Telemetry and Remote Alerts

Route	Title	Subtitle	Highlights
`/government-subsidies`	Government Subsidies	40% to 60% Capital Subsidy Assistance Under Central & State Agri Schemes	• Mission for Integrated Development of Horticulture (MIDH / SHM): 40% - 50% Subsidy • Ministry of New & Renewable Energy (MNRE): Enlisted Approved Manufacturer • Agriculture Infrastructure Fund (AIF): 3% Interest Subvention on Term Loans • PM Formalisation of Micro Food Processing Enterprises (PM-FME): Up to ₹10 Lakhs Grant • End-to-End Liaison Support: From DPR Preparation to Department Bank Credit
`/crop-preservation-guide`	Crop Preservation Guide	Optimal Temperature, Moisture Targets & Drying Protocols for 50+ Agricultural Commodities	• Precise Drying Parameters for Spices: Turmeric (60°C), Pepper (55°C), Cardamom (50°C) • Horticultural Protocols for Fruits: Banana (58°C), Mango (62°C), Amla (55°C) • Herbal & Medicinal Plants: Moringa Leaves (48°C), Stevia (45°C), Tulsi (42°C) • Target Moisture Levels: From 80%+ Fresh Down to Safe 7-10% Storage Thresholds • FSSAI & Global Export Quality Compliance Guidelines Included
`/technical-spec-sheets`	Technical Spec Sheets	Engineering CAD Blueprints, Electrical Ratings & Material Certifications	• High-Grade Hot-Dip Galvanized Iron (GI) Structural Framework (150 GSM Coating) • UV-Protected Multi-Wall Polycarbonate Glazing with 10-Year Warranty • Food-Contact Grade SS304 Wire Mesh Trays with Heavy-Duty Structural Bracing • Wind Load Resistance up to 130 km/h (Cyclone & Storm Resilient) • Comprehensive Electrical & Mechanical Schematic CAD Drawings Available for Download

7.2 Dryer models — summary

Model	Type	Tier	Capacity per batch	Floor area	Target audience	Payback
SUNDRY 6	Box Type Solar Dryer	Household Model	2.5 kg to 12.5 kg per batch (400g/sq.ft light to 2kg/sq.ft dense)	8 sq.ft	Households, Small Kitchen Businesses & Herbalists	3 to 5 Months
SUNDRY 12	Box Type Solar Dryer	Household Model	5 kg to 25 kg per batch (400g/sq.ft light to 2kg/sq.ft dense)	8 sq.ft	Small Businesses, Agri-Entrepreneurs & Families	4 to 6 Months
SUNDRY 50	Box Type Solar Dryer	Small Business Model	20 kg to 100 kg per batch (400g/sq.ft leafy to 2kg/sq.ft dense)	16 sq.ft	Small Agri-Businesses, SHGs, Cottage Industries & FPOs	5 to 7 Months
SOLDRY 1210 - 150	Commercial Tunnel Solar Dryer	Commercial Large Scale	60 kg to 300 kg per batch (400g/sq.ft to 2kg/sq.ft)	150 sq.ft	Progressive Farmers, FPOs, Agri-Exporters & Co-operatives	6 to 8 Months

Model	Type	Tier	Capacity per batch	Floor area	Target audience	Payback
SOLDRY 1709 - 200	Commercial Tunnel Solar Dryer	Commercial Large Scale	80 kg to 400 kg per batch (combined tray and floor loading)	200 sq.ft	Agri-Processors, Masala Manufacturers & Large Farm Clusters	6 to 8 Months
SOLDRY 2008 - 250	Commercial Tunnel Solar Dryer	Commercial Large Scale	100 kg to 500 kg per batch (spread floor bed capacity)	250 sq.ft	Bulk Grain, Seed, Chilli & Copra Producers	6 to 9 Months
SOLDRY 1210 - 300	Commercial Tunnel Solar Dryer	Commercial Large Scale	180 kg to 900 kg per batch (400g/sq.ft light to 2kg/sq.ft dense)	300 sq.ft	Commercial Food Exporters, Large FPOs & Processing Clusters	6 to 8 Months
SOLDRY 1000 MODULAR	Commercial Tunnel Solar Dryer	Commercial Large Scale	500 kg to 2,500+ kg per batch	Up to 1,000 sq.ft	Mega Exporters, Corporate Agri-Farms & Government Processing Hubs	8 to 12 Months

7.3 Dryer models — full specifications

SUNDRY 6 Box Type Solar Dryer

Tagline	Smart Drying Powered by the Sun • 40% Faster Than Open-Sun Drying
Badge	Compact & Home
Description	Compact, efficient, and 100% hygienic box type solar dryer. Designed for small businesses, kitchen entrepreneurs, and households desiring dust-free and rain-proof drying of fruits, vegetables, flowers, spices, and herbs.
Capacity	2.5 kg to 12.5 kg per batch (400g/sq.ft light to 2kg/sq.ft dense)
Floor area	8 sq.ft
Total tray area	6.25 sq.ft
Trays	1 No. (SS304 perforated sheet)
Tray size	42" x 22" x 1"
Dimensions	4 ft (L) x 2 ft (W) x 1 ft (H) + 2 ft leg height option
Structure	GI steel with 6mm double-walled polycarbonate sheet (UV protected)
Solar power	20W 12V DC Solar Panel (powers exhaust fan)
Electrical heater	500W electrical heater with fan (thermostat controlled)
Grid backup	Standard 230V AC socket plug-in
Exhaust fans	1 No. (thermostat controlled)
Circulation fans	Natural convection airflow
Controller	Analog/Digital Thermostat Control
Mobility	2" caster wheels for easy relocation

Subsidy eligibility	Eligible for Micro-Agri & Home Enterprise Grants
Payback period	3 to 5 Months
Key features	• GI steel frame covered with 6mm double-walled UV-coated polycarbonate • Thermostat-controlled exhaust fan for rapid hot and moist air removal • Powered by 20W 12V DC solar panel with zero grid dependency for daytime ventilation • 500W electric heater with fan for night-time & rainy day drying • Food-grade SS304 perforated tray (42" x 22" x 1") • 2" caster wheels and optional 2 ft leg extension for ergonomic loading
Compatible crops	Herbs & Leaves, Cut Flowers, Red Chillies, Turmeric Slices, Banana & Fruits, Fish, Spices
Page	`/solar-dryer-models/sundry-6`

SUNDRY 12 Box Type Solar Dryer

Tagline	Natural, Clean, Nutritious, Sustainable Drying Solution
Badge	Dual Tray Compact
Description	Two-tray compact solar box dryer providing 12 sq.ft of SS304 food-grade drying area. Double-tiered capacity is ideal for home farmers and small food startups producing dried mango, moringa flakes, mushroom, and medicinal herbs.
Capacity	5 kg to 25 kg per batch (400g/sq.ft light to 2kg/sq.ft dense)
Floor area	8 sq.ft
Total tray area	12 sq.ft (6.25 sq.ft per tray)
Trays	2 Nos. (SS304 perforated sheet)
Tray size	42" x 22" x 1"
Dimensions	4 ft (L) x 2 ft (W) x 2 ft (H) + optional 2 ft leg height
Structure	GI steel structure with 6mm double-walled polycarbonate sheet (UV protection)
Solar power	20W 12V DC Solar Panel (powers exhaust fan)
Electrical heater	500W electrical heater with fan (thermostat controlled)
Grid backup	Standard 230V AC socket plug-in
Exhaust fans	1 No. (thermostat controlled)
Circulation fans	Internal dual-level air draft
Controller	Thermostat temperature regulation
Mobility	2" caster wheels for effortless maneuvering
Subsidy eligibility	Eligible for 40% State Micro-Enterprise Subsidy
Payback period	4 to 6 Months

Key features	• Dual SS304 perforated food-grade trays with 12 sq.ft drying area • UV-protected 6mm double-walled polycarbonate glazing on all sides • Thermostat exhaust fan powered by 20W 12V DC solar panel • 500W auxiliary night heating for round-the-clock uninterrupted drying • Full rain, dust, and insect barrier keeping product 100% sterile • Heavy duty 2" caster wheels with optional 2 ft elevation leg kit
Compatible crops	Mushroom, Moringa Flakes, Turmeric Slices, Dry Fruits, Spices, Chilli, Fish
Page	`/solar-dryer-models/sundry-12`

SUNDRY 50 Commercial Box Type Solar Dryer

Tagline	Efficient • Hygienic • Reliable — 20 Kg to 100 Kg Batch Capacity
Badge	50 Sq.ft Trays
Description	Built for entrepreneurs and high-value value-addition. SUNDRY 50 houses 8 SS304 stainless steel trays (50 sq.ft total drying area), 4 internal circulation fans, 2 automated exhaust blowers, and 24V solar + battery storage.
Capacity	20 kg to 100 kg per batch (400g/sq.ft leafy to 2kg/sq.ft dense)
Floor area	16 sq.ft
Total tray area	50 sq.ft (8 trays x 6.25 sq.ft)
Trays	8 Nos. (SS304 perforated sheet)
Tray size	42" x 22" x 1"
Dimensions	4 ft (L) x 4 ft (W) x 4 ft (H) + 1 ft leg height (Total 5 ft)
Structure	GI steel with 6mm double-walled polycarbonate sheet (UV protected)
Solar power	20W 24V DC Solar Panel with charge controller and battery backup
Electrical heater	750W electrical heater with fan (thermostat controlled)
Grid backup	24V DC SMPS for continuous grid supply
Exhaust fans	2 Nos. (temperature & timer controlled)
Circulation fans	4 Nos. internal circulation fans (top-to-bottom even hot air distribution)
Controller	Integrated controller with temperature & timer automation
Mobility	4" heavy-duty caster wheels with foot brakes
Subsidy eligibility	Eligible for 40% - 50% State Agriculture & MSME Subsidy
Payback period	5 to 7 Months
Key features	• 50 sq.ft tray drying area handling up to 100 kg batch volume • 4 internal circulation fans ensure uniform hot air distribution top-to-bottom • 2 exhaust fans with dual temperature and timer control to expel humidity • 24V DC solar array with battery backup and 24V DC SMPS grid failover • 750W thermostat-regulated heater for continuous night and monsoon operation • 4" industrial caster wheels for effortless rolling between yard and indoor storage
Compatible crops	Copra / Coconut, Turmeric Fingers, Red Chillies, Herbal Leaves, Ginger, Fish & Shrimp, Flower Petals

Page	`/solar-dryer-models/sundry-50`

SOLDRY 1210 - 150 Tunnel Type Solar Dryer

Tagline	Sustainable Drying Solution for a Healthier Tomorrow • Tray Drying Specialist
Badge	Most Popular Tunnel
Description	The benchmark commercial walk-in polyhouse solar tunnel dryer. Features 10 ft center clearance, 9 mobile trolleys with 36 SS304 food-grade perforated trays, industrial PLC touch automation, and Victron MPPT solar management.
Capacity	60 kg to 300 kg per batch (400g/sq.ft to 2kg/sq.ft)
Floor area	150 sq.ft
Total tray area	225 sq.ft (36 trays)
Trays	36 Nos. (SS304 perforated sheet, 42" x 22" x 1")
Dimensions	12.5 ft Front Width x 12.5 ft Side Length x 10 ft Center Height
Structure	Heavy GI steel, precision laser cut & CNC folded
Solar power	110W 24V DC Solar Panel, 24V 12Ah Battery, Victron MPPT Controller (Bluetooth)
Electrical heater	1 kW to 6 kW with fan and thermostat (night / low sunlight backup)
Grid backup	24V DC SMPS for seamless grid supply
Exhaust fans	2 Nos. (automated PLC moisture exhaust)
Circulation fans	4 Nos. internal circulation fans for uniform chamber convection
Controller	PLC with 4" touchscreen HMI & dual inside/outside temp & humidity sensors
Subsidy eligibility	Eligible for 50% - 60% State & National Horticulture Subsidies
Payback period	6 to 8 Months
Key features	• Precision CNC folded GI steel structure with 6mm double-walled UV polycarbonate glazing • Air-tight and water-proof EPDM rubber beadings with aluminium profile locks • 9 mobile trolleys with 36 food-grade SS304 perforated trays (225 sq.ft tray area) • PLC automation with 4" color touchscreen HMI and dual interior/exterior sensors • Victron Bluetooth MPPT charge controller with 110W solar panel and 24V battery bank • Auxiliary 1 kW - 6 kW thermostatic fan heater ensures 24/7 continuous throughput
Compatible crops	Copra / Coconut, Turmeric, Cardamom & Pepper, Moringa, Sago & Tapioca, Fish, Seeds
Page	`/solar-dryer-models/soldry-1210-150`

SOLDRY 1709 - 200 Inverted Parabolic Tunnel Solar Dryer

Tagline	Smart Drying for a Healthier Tomorrow • Balanced Profile (200 Sq.ft)
Badge	Tray + Floor Hybrid
Description	Aerodynamic inverted parabolic solar tunnel dryer offering a wider 17 ft front footprint. Perfectly balances trolley-tray drying with floor bed spreading for versatile mixed-crop operations.

Capacity	80 kg to 400 kg per batch (combined tray and floor loading)
Floor area	200 sq.ft
Total tray area	225 sq.ft (36 trays) + spacious floor drying zone
Trays	36 Nos. (SS304 perforated sheet, 42" x 22" x 1")
Dimensions	17 ft Front Width x 12.5 ft Side Length x 9 ft Center Height
Structure	Inverted parabolic aerodynamic GI steel, CNC folded sheet metal
Solar power	110W 24V DC Solar Panel, 24V 12Ah Battery, Victron MPPT Controller (Bluetooth)
Electrical heater	1 kW to 6 kW with fan and thermostat
Grid backup	24V DC SMPS
Exhaust fans	2 Nos. for hot & moist air removal
Circulation fans	4 Nos. internal air circulation fans
Controller	PLC with 4" touchscreen HMI & dual temp/humidity sensors
Subsidy eligibility	Eligible for 50% State Agritech Subsidy
Payback period	6 to 8 Months
Key features	• 17 ft wide inverted parabolic arch provides 200 sq.ft floor area with 9 ft center height • Accommodates 9 tray trolleys (36 trays) plus dedicated floor space for bulk spreading • High-velocity 4-fan circulation pushes hot air downward into lower tray layers • Automated exhaust vents expel moist air based on real-time relative humidity delta • Victron MPPT Bluetooth monitoring allows remote solar efficiency tracking on phone • Enclosed cleanroom environment prevents bird droppings, fungal spores, and dust
Compatible crops	Masala Ingredients, Red Chillies, Paddy & Grains, Turmeric Rhizomes, Cut Fruits, Copra
Page	`/solar-dryer-models/soldry-1709-200`

SOLDRY 2008 - 250 Wide Profile Tunnel Solar Dryer

Tagline	Wider & Lower Profile Maximizes Usable Floor Area • Floor Drying Specialist
Badge	Maximum Floor Area
Description	Designed for operations requiring maximum floor drying footprint. The 20 ft front width maximizes square footage for bulk spreading of grains, coffee cherries, turmeric rhizomes, and whole coconuts.
Capacity	100 kg to 500 kg per batch (spread floor bed capacity)
Floor area	250 sq.ft
Total tray area	Floor bed + optional modular tray racks
Trays	Floor drying design / customizable tray units
Dimensions	20 ft Front Width x 12.5 ft Side Length x 8 ft Center Height
Structure	Extra-wide span GI steel frame (laser cut & CNC folded)
Solar power	110W - 220W 24V DC Solar Panel with Victron MPPT and battery bank

Electrical heater	1 kW to 6 kW auxiliary electric heater with thermostat
Grid backup	24V DC SMPS
Exhaust fans	2 to 3 Nos. high-CFM exhaust blowers
Circulation fans	4 Nos. internal convection fans
Controller	PLC with 4" touchscreen HMI
Subsidy eligibility	Eligible for 50% - 60% Horticulture & Agri Subsidies
Payback period	6 to 9 Months
Key features	• Massive 20 ft front width delivering 250 sq.ft of direct usable floor area • Aerodynamic 8 ft center height traps intense thermal heat directly near floor level • Double-walled polycarbonate sheet traps infrared thermal radiation continuously • Automated humidity-triggered exhaust fans prevent moisture reabsorption • Complete rodent, insect, rain, and dust barrier • Easily expandable with modular section add-ons
Compatible crops	Whole Coconuts / Copra, Turmeric Rhizomes, Paddy & Pulses, Oil Seeds, Chilli, Coffee Cherries
Page	`/solar-dryer-models/soldry-2008-250`

SOLDRY 1210 - 300 High-Capacity Tunnel Solar Dryer

Tagline	Dry • Preserve • Add Value Naturally — 300 Sq.ft Floor, 450 Sq.ft Trays
Badge	72 Trays Commercial
Description	Flagship commercial solar tunnel system with 24.5 ft tunnel length, 18 mobile trolleys, and 72 food-grade SS304 trays delivering 450 sq.ft of clean tray drying area. Engineered for continuous industrial agricultural production.
Capacity	180 kg to 900 kg per batch (400g/sq.ft light to 2kg/sq.ft dense)
Floor area	300 sq.ft
Total tray area	450 sq.ft (72 trays)
Trays	72 Nos. (SS304 perforated sheet, 42" x 22" x 1")
Dimensions	12.5 ft Front Width x 24.5 ft Side Length x 10 ft Center Height
Structure	Heavy GI steel, laser cut & CNC folded
Solar power	220W 24V DC Solar Panel, 24V 12Ah Battery, Victron MPPT Controller (Bluetooth)
Electrical heater	1 kW to 6 kW electrical heater with fan and thermostat
Grid backup	24V DC SMPS (grid backup)
Exhaust fans	3 Nos. exhaust fans for rapid hot & moist air expulsion
Circulation fans	4 Nos. internal air circulation fans (push hot air down to trays)
Controller	PLC automated control with 4" touchscreen HMI & dual temp/humidity sensors
Subsidy eligibility	Eligible for 50% - 60% Commercial Agri & FPO Subsidies
Payback period	6 to 8 Months

Key features	• Extended 24.5 ft tunnel length providing 300 sq.ft floor and 450 sq.ft tray drying capacity • 18 heavy-duty trolleys holding 72 perforated SS304 trays for lightning-fast turnaround • 3 automated moisture exhaust blowers and 4 downward circulation fans • Upgraded 220W 24V DC solar array with Victron Bluetooth MPPT system • Integrated 1-6 kW thermostat heating unit prevents drying interruptions during rain • 40% faster drying than traditional open sun drying with zero contamination
Compatible crops	Red Chillies, Turmeric Fingers, Moringa Powder, Copra, Ginger, Fish, Flowers, Vegetables
Page	`/solar-dryer-models/soldry-1210-300`

SOLDRY Modular & Scalable Commercial Solar Polyhouse

Tagline	Scalable Length up to 53 ft • Floor Area up to 1,000 Sq.ft
Badge	Scalable to 1,000 Sq.ft
Description	Custom-engineered modular solar tunnel architecture. Tunnel length can be extended using interlocking prefabricated sections up to 53 ft length and 1,000 sq.ft floor area with complete turnkey commissioning.
Capacity	500 kg to 2,500+ kg per batch
Floor area	Up to 1,000 sq.ft
Total tray area	Scalable up to 1,000+ sq.ft (custom trolley configurations)
Trays	Custom modular trolleys & trays as per client requirement
Dimensions	Up to 53 ft length x 12.5 ft - 20 ft width x 8 ft - 10 ft height
Structure	Industrial GI steel truss structure with CNC laser precision components
Solar power	Custom multi-array 24V/48V solar power plants with smart MPPT controllers
Electrical heater	Multi-zone auxiliary heating units with independent thermostat relays
Grid backup	Industrial 24V/48V SMPS power racks
Exhaust fans	Multi-blower automated exhaust grid with zone-based humidity sensors
Circulation fans	Distributed high-efficiency brushless DC circulation fans
Controller	Multi-zone industrial PLC with full data acquisition & remote IoT telemetry
Subsidy eligibility	Eligible for Central & State Mega Food Park Subsidies up to 60%
Payback period	8 to 12 Months
Key features	• Modular section interlocking allows seamless on-site length expansion • Scalable up to 1,000 sq.ft floor area with multi-ton batch processing capacity • Zone-by-zone digital humidity and temperature mapping for precision consistency • Compatible with automated roll-in trolley trains or continuous conveyor systems • Certified MNRE standards and full subsidy technical documentation provided • Over 35 commercial installations successfully operational across 9 Indian states
Compatible crops	Bulk Marine Fish, Export Grade Moringa, Spice Consignments, Copra Operations, Industrial Agritech
Page	`/solar-dryer-models/soldry-modular-1000`

7.4 SOLDRY profile comparison

Model	Front width	Centre height	Floor area	Recommended for	Profile	Arrangement
SOLDRY 1210 - 150	12.5 ft	10 ft	150 sq.ft	Tray Drying	Taller & Narrower	9 Trolleys with 36 SS304 Trays (225 sq.ft tray drying area)
SOLDRY 1709 - 200	17 ft	9 ft	200 sq.ft	Tray Drying + Floor Drying	Balanced Profile	9 Trolleys (36 Trays) + Dedicated Floor Bed Spreading Area
SOLDRY 2008 - 250	20 ft	8 ft	250 sq.ft	Floor Drying	Wider & Lower	Full 250 sq.ft Floor Spreading for Bulk Crops & Produce

7.5 Working principle (7 steps) and key benefits

Step	Title	Subtitle	Explanation
1	Solar Heat Generation	Thermal Radiation Absorption	Sunlight enters through the 6mm double-walled polycarbonate sheet and heats up the air inside the chamber, creating a powerful greenhouse thermal effect.
2	Moisture Release	Vaporization from Produce	As the temperature increases, the relative humidity of the inside air drops significantly, allowing moisture from deep inside the crop to evaporate rapidly into the air.
3	Moisture Exhaust & Fresh Air Intake	Continuous Thermodynamic Ventilation	Fresh ambient air enters through the bottom inlets on both sides of the front door. The top exhaust fans at the rear side continuously remove moist air to the outside.
4	Automatic Control	PLC & Digital Sensor Optimization	The drying cycle is automatically controlled by a digital controller based on continuous temperature and humidity readings inside and outside to maintain optimal drying conditions.
5	UV Protection	Quality & Color Preservation	The UV-protected polycarbonate sheet blocks harmful UV radiation, protecting the crop from UV-induced degradation, color fading, and nutrient loss.
6	Hygienic Drying	100% Hermetically Sealed Sanitation	The fully enclosed drying environment protects the product from dust, rain, insects, birds, and other external contaminants, providing sterile, export-grade hygiene.
7	Faster Drying	40% Time Reduction vs Open Sun	Higher internal temperature and lower relative humidity inside the dryer compared with ambient conditions accelerate moisture removal, resulting in 40% faster drying without burning or nutrient decay.

Benefit (brochure)	Explanation
Nutrients Preserved	Low-temperature thermal drying locks in vitamins, enzymes, and essential aromatic oils.
Colour & Aroma Preserved	UV-shielded glazing prevents direct sun bleaching and preserves vivid natural hues.
Dust & Insect Free	Completely enclosed hermetic structure prevents dust contamination, bird droppings, and flies.
Protected from Rain & Weather	Heavy-duty CNC GI frame and EPDM beading ensure 100% storm and rain protection.

Benefit (brochure)	Explanation
Hygienic Export Quality	Complies with FSSAI, APEDA, and international food sanitation export requirements.
Uniform Consistent Drying	Internal circulation fans eliminate cold spots, guaranteeing uniform batch moisture.
Better Shelf Life & Higher Value	Eliminates mold spores and aflatoxin risk, commanding a 20% - 40% price premium.
40% Faster Turnaround	Halves drying time compared to conventional open-yard spreading, doubling farm turnover.

7.6 Government subsidy schemes

Scheme	Benefit stated	Target	Key requirements
State Horticulture Mission (MIDH / SHM)	40% – 50% direct capital subsidy	Farmers, FPOs, agri-entrepreneurs	Land ownership (Patta/Chitta); Aadhaar & bank account; MNRE-approved quotation
Ministry of New & Renewable Energy (MNRE)	Direct enlisted-manufacturer subsidy	Pan-India agricultural beneficiaries	MNRE-enlisted manufacturer; soil & water test (if required); geo-tagged installation photo
Agriculture Infrastructure Fund (AIF)	3% interest subvention + credit guarantee; collateral-free loans up to ₹2 Crore (CGTMSE)	Agri-entrepreneurs, startups, PACS & FPOs	Viable post-harvest proposal; bank DPR approval; joint inspection
PM-FME & MSME Food Processing	35% – 50% subsidy (up to ₹10 Lakhs)	Micro food processing units & SHGs	Existing/new micro enterprise; 10% beneficiary contribution; FSSAI registration

Estimator	Beneficiary category → result
/subsidies and /government-subsidies	Small / Marginal Farmer → 50% · SC / ST / Women Farmer → 60% · FPO / SHG group → 60% · General commercial exporter / agri-business → 40% (state and model do not change the percentage)

7.7 Crop drying data

Crop Preservation Guide — Validated Crop Dehydration Matrix

Crop / Commodity	Fresh Moisture	Target Dry	Safe Temp	Drying Duration	Value Addition Benefit
Turmeric (Finger & Bulb)	80%	8-10%	55°C - 60°C	2.5 Days (vs 12-15 Days)	Retains 4.8% high curcumin; 0% aflatoxin
Coconut (Copra for Oil)	52%	6%	50°C - 58°C	28-36 Hours	100% Grade-1 sulfur-free white copra
Moringa Leaf Powder	78%	7%	42°C - 48°C	8-10 Hours	Retains vibrant green chlorophyll & nutrients
Red Chillies	82%	9%	50°C - 60°C	3 Days (vs 10 Days)	Maintains capsaicin & deep natural red luster

Crop / Commodity	Fresh Moisture	Target Dry	Safe Temp	Drying Duration	Value Addition Benefit
Cardamom & Pepper	75%	10%	45°C - 52°C	24-30 Hours	Essential oils lock; premium export auction grade
Banana & Mango Chips	85%	12%	55°C - 62°C	18-24 Hours	Uniform pliable texture without sugar or sulfur
Ginger / Sonth	80%	9%	50°C - 55°C	2.5 Days	Full gingerol retention with clean fiber

Applications — Crop Moisture Parameter Matrix

TARGET PRODUCE	FRESH MOISTURE %	DRIED MOISTURE %	ZENITEK SOLAR TIME	OPEN SUN TIME	KEY PROFIT BENEFIT
Copra / Coconut	52%	6%	2.5 Days	7 Days	100% Grade-1 White Copra, zero fungus, 28% higher price
Moringa Leaves	88%	8%	1.2 Days	4 Days	Preserves 100% chlorophyll green, Vitamin C & active nutrients
Red Chillies	75%	10%	3.0 Days	10 Days	Zero aflatoxin mold, bright natural gloss, high oleoresin
Salted Fish & Shrimp	60%	15%	1.0 Day	3 Days	100% fly-free sealed coastal export sanitation quality
Turmeric & Ginger	80%	10%	2.5 Days	8 Days	Maximum curcumin & essential volatile oil retention
Flowers & Tea/Herbs	80%	8%	1.0 Day	3.5 Days	Vibrant petal color without UV discoloration

> **Note:** the two tables disagree for some crops (e.g. moringa: 78% → 7% in 8–10 hours vs 88% → 8% in 1.2 days; copra: 28–36 hours vs 2.5 days). See Chapter 13.

7.8 About Us — business domains and landmark projects

Domain	Headline metric	Offerings
Solar Thermal Systems	1,000L+ daily boiling water capacity	ETC, PTC, Scheffler dishes & concentrators, refurbishing & service
Agri-Solar Innovations	40% faster drying vs open sun	Tunnel dryers (150–1000 kg), box dryers (6–100 kg), solar 4-row paddy transplanters, zero-power cold storage
Photovoltaic Solutions	Lab test rigs commissioned	PV panels & turnkey integration; visual inspection, outdoor and indoor test rigs
Research & Development	6+ premier university partner deployments	Demonstration models, prototype rigs, commercialization pipelines, sensor telemetry

Landmark project	Client / location	What was done
37.5 Sq.m Parabolic Trough Collector (PTC)	Anna University Chennai, DST (NRDMS) — Pachamalai Hills, Thuraiyur, TN	1,000 litres of boiling water daily for a tribal community
Solar PV Certification Laboratory Test Rigs	Mitsui Chemicals — Ahmedabad, Gujarat	Visual inspection, outdoor and indoor test rigs
592 Sq.m Scheffler Dish Solar Refurbishment	SRM University — Chennai, TN	Re-engineering, alignment and commissioning
192 Sq.m Commercial Solar Tunnel Dryer	SELCO Foundation — Chhattisgarh	Turnkey design, fabrication and installation
4-Row Solar Paddy Transplanter Machine	Bangalore, Karnataka	Design, prototyping and field deployment
80 Sq.m Scheffler Dish Thermal Refurbishment	Indo-MIM Pvt Ltd — Hoskote, Bangalore	Restored industrial process-heat concentrator

7.9 Documented projects (25) — /projects/:id

7.13 Partners and clients named on the site

Group	Names
Academic (About)	IIT Bhubaneswar (School of Mechanical Science); Anna University Chennai (DST NRDMS Tribal Community Project); SRM University; Sree Sankara College (Energy Dept, Kalady, Kerala); Gandhigram University (Centre for Rural Energy, Dindigul); College of Fisheries (Fisheries Engineering, Nagapattinam)
Industry & mentors (About)	Mitsui Chemicals Group; Indo-MIM Pvt Ltd; SELCO Foundation; Pro-Target & NISE (technical mentorship, Germany / India)
Home partner strip	IIT Bhubaneswar, Anna University, SRM University, Mitsui Chemicals, Indo-MIM, SELCO Foundation, TNJFU Fisheries Univ, Gandhigram Rural Inst.

8 Navigation and User Journey

8.1 How visitors move through the website

Visitors arrive on the Home page or directly on any page (every page has its own address). From there they use the navbar (always visible at the top), the footer (at the bottom of every page), the in-page buttons and cards, or the breadcrumb/Back bar. Exploration pages lead to detail pages, and nearly every page offers a quote button, a WhatsApp link or a phone link to convert.

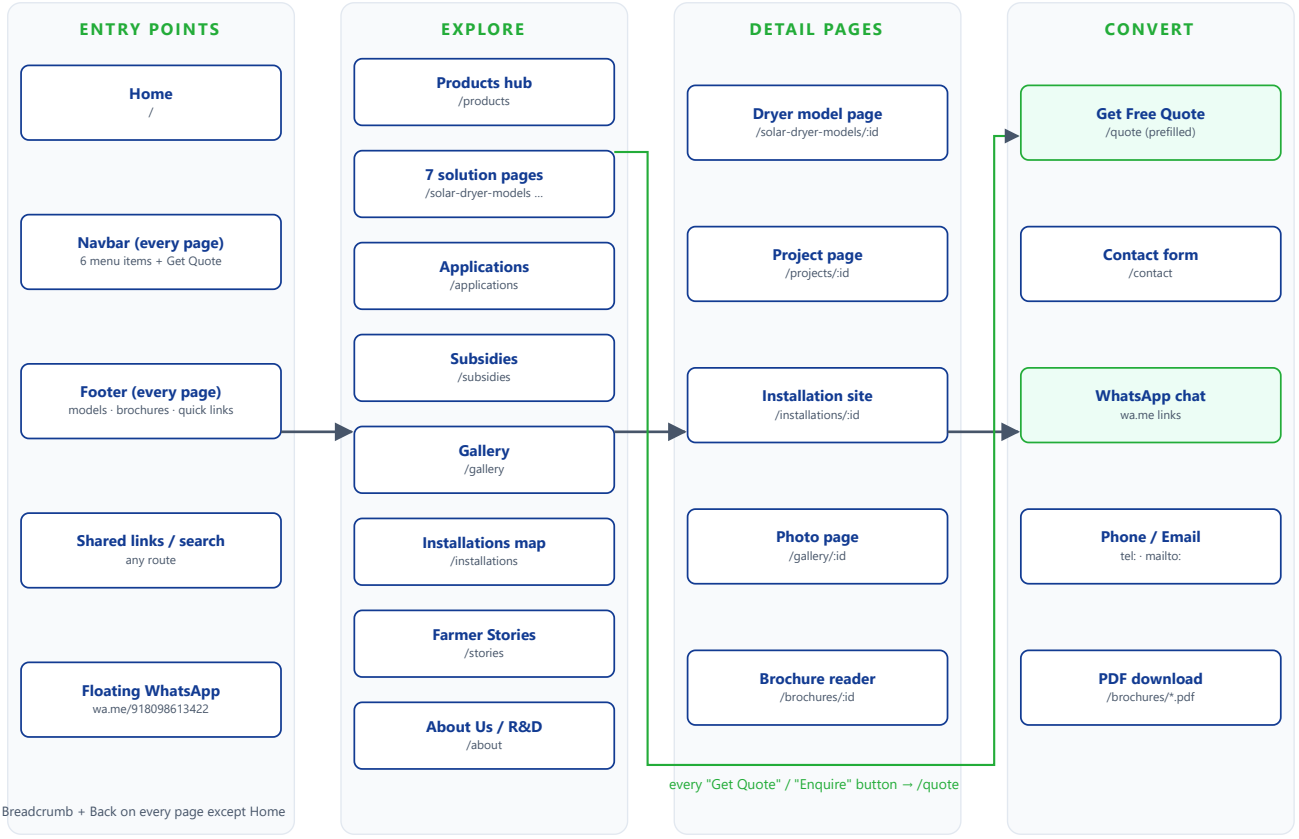

Figure 8.1 — Navigation flow from entry to enquiry

8.2 What each menu item opens

Menu item	Opens	Notes
Logo	/	Scrolls to top if already on Home
Home	/	
Products	/products (click) · drop-down (hover)	Drop-down lists the 7 solution pages, 'View all products' and a quote tile
Gallery	/gallery (click) · drop-down (hover)	Brochure → /gallery?cat=brochure; Images → /gallery?cat=all
Subsidies	/subsidies	Highlighted also on /government-subsidies
R&D	/about#rnd	Scrolls to and highlights the R&D card

Menu item	Opens	Notes
About Us	/about	
Contact Us	/contact	
Language (globe)	Same page in another language	6 languages
GET FREE QUOTE	/quote	Empty form

8.4 Where every call-to-action (CTA) button leads

All quote buttons navigate to `/quote`. The address carries pre-filled values (`name, phone, state, district, client, crop, capacity, message`), so the form opens already filled in and the browser Back button returns to where the visitor was.

Button	Destination	Pre-filled values
Navbar / footer / Products-menu 'Get Free Quote'	/quote	nothing
Home — Explore Dryer Models	/solar-dryer-models	—
Home — Get sizing & pricing for this model (slideshow)	/quote	capacity = slide model tag; crop; message 'Inquiry for <model> (400 kg/batch of <crop>)'
Home — Model showcase 'Get Quote' / 'Learn More'	/quote · /solar-dryer-models/<id>	capacity = model category; message
Home — quick enquiry form submit	/quote	all six typed values
Solar Dryer Models — Request pricing & sizing	/quote	capacity 'Commercial Solar Dryer Lineup'
Solar Dryer Models — Consult on sizing	/quote	capacity 'Modular Scalable Tunnel Sizing'
Solar Dryer Models — model card quote	/quote	capacity = model name
Solar Dryer Models — bottom Get Free Quote	/quote	capacity 'Custom Solar Dryer Project'
Solution pages — Get Free Quote & Subsidy DPR / Request Free Engineering Quote	/quote	capacity = section title
Solution pages — WhatsApp Enquiry	wa.me/918098613422	'I would like to inquire about <section>'
Government Subsidies — Apply for Subsidy DPR & Invoice	/quote	capacity '<model> (<n>% Subsidy Enquiry - <state>)'
Applications — Enquire Setup / persona buttons	/quote	crop type, or client type (FPO, exporter, farmer, industrial)
Subsidies — Check my subsidy eligibility / Get free subsidy consultation	/quote	capacity 'Subsidy Assistance' / 'Subsidy Consultation' + message
Subsidies — Apply with ZeniTEK	/quote	capacity = model, district = selected state, DPR message
About — Connect / Request Engineering Quote	/quote	capacity 'About Us Consultation'
About — Request specifications / Inquire about similar setup	/quote	capacity = domain or project title
About — Call directly / WhatsApp	tel:+918903852623 · wa.me/918903852623	
Contact — Request CSR partnership pitch	/quote	client 'NGO / CSR Partner'
Gallery — Get turnkey quote	/quote	capacity 'Complete Turnkey Dryer Project'
Gallery photo — quote buttons / WhatsApp	/quote · wa.me/919443729576	capacity, crop, '<location>, <state>'

Button	Destination	Pre-filled values
Installations — Book live site visit	/quote	nothing
Installation site — Enquire setup	/quote	district, crop, capacity of the site
Project page — Request subsidy & price quote / Call	/quote · tel:+918098613422	capacity '<code> (<title> Reference)', crop, locality
Dryer model page — quote links	/quote	capacity = model name
Brochure reader — Request technical quotation	/quote	nothing
Farmer Stories — Start your prosperity story today	/quote	nothing
Floating WhatsApp (all pages)	wa.me/918098613422	fixed greeting

8.5 What happens when a form is submitted

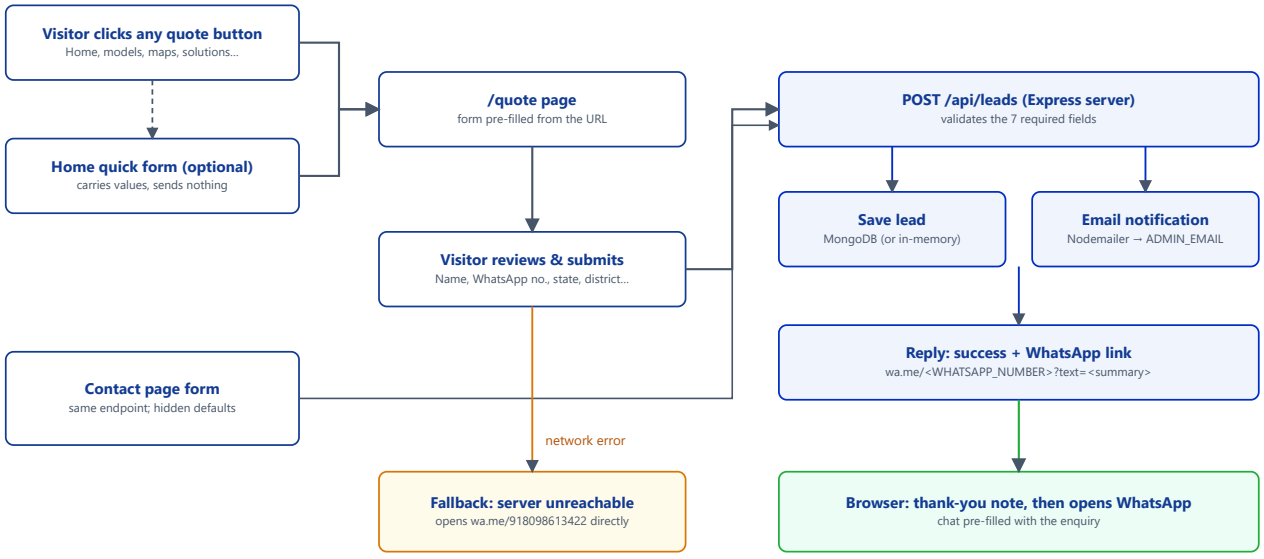

Figure 8.2 — Enquiry (lead) submission flow

- **Get Free Quote form (/quote)** — sends the 8 values to the server (`POST /api/leads`). The server checks the seven required fields, saves the enquiry (in MongoDB, or in temporary memory if the database is down), emails the sales address and replies with a WhatsApp link. The page shows 'success' and opens WhatsApp with a ready-written message. If the server cannot be reached, WhatsApp is opened directly with the details.
- **Contact form (/contact)** — same endpoint and WhatsApp hand-off. It has no State/District fields and silently sends 'Tamil Nadu' / 'Coimbatore'. It shows the thank-you message even when the server rejects the data (only a network failure triggers the WhatsApp fallback).
- **Home quick form** — does not send anything; it opens /quote with the values filled in.
- **Staff sign-in forms** — send username/password to `/api/auth/login`; on success a session token (valid 8 hours, kept for the browser tab) opens the dashboard.

8.6 Typical user journeys (using the site's real links)

Visitor	Path through the site
Farmer wanting a dryer	Home → Explore Dryer Models → model card → model page → 'Request price quote' → /quote → WhatsApp
Farmer asking about money	Navbar Subsidies → estimator → 'Apply with ZeniTEK' → /quote (pre-filled) → WhatsApp
FPO director checking proof	Home map → pin → installation page → 'Enquire setup'; or Installations → 'Book live site visit'
Exporter checking quality	Products → Crop Preservation Guide → matrix → 'Request free engineering quote'
Engineer / buyer wanting specs	Gallery ▾ Brochure → brochure reader → Download PDF; or footer brochure icons
CSR / NGO partner	Contact Us → CSR banner → 'Request CSR partnership pitch' → /quote
University / lab	R&D → About (R&D card) → landmark projects → 'Inquire about similar setup'

8.7 Redirects and error handling

Address	Behaviour
/dryers	Redirects to /solar-dryer-models
/dryers/:id	Redirects to /projects/:id (verified: /dryers/01 → /projects/01)
/map	Redirects to /installations
Any unknown address	'Page not found' (404) page with popular links
Unknown model / project / site / brochure ID	Item-specific 'not found' message with a link back
Unknown gallery photo ID	Shows photo-01 instead of a not-found message
/admin/<unknown>	Back to the dashboard home (after sign-in)

9 Forms, Buttons and Interactive Elements

9.1 Forms

Form	Where	Fields (* required)	On submit
Quick enquiry	Home (last section)	Your Name*, WhatsApp Number*, State / District*, Dryer Model (4 options), Target Crop (6), Description / Requirements	Opens /quote pre-filled (sends nothing)
Get Free Quote	/quote	Your Name*, WhatsApp Number*, State*, District* (labelled 'State / District'), User Category (5), Target Crop (6), Desired Daily Capacity (3), Additional Requirements	POST /api/leads → WhatsApp
Pre-qualifying enquiry	/contact	Your Name*, WhatsApp Number*, 1. User Category*, 2. Desired Daily Capacity*, 3. Target Crop*, Additional Requirements	POST /api/leads → thank-you → WhatsApp
Staff sign-in (×3)	/admin, /admin/developer, /admin/tester	Username*, Password* (show/hide)	POST /api/auth/login → dashboard
Bug report	Tester / Client Admin dashboards and floating button	Title, description, affected page, steps, expected/actual result, severity, screenshots; browser details captured automatically	POST /api/bugs (multipart)

Drop-down	Options
User Category	Individual Farmer; FPO / Farmer Cooperative; Food Processor & Exporter; Industrial / Sludge Processor; NGO / CSR Partner
Target Crop	Copra / Coconut; Moringa / Herbs / Tea; Spices / Chillies / Pepper (Red Chillies / Spices); Fruits / Vegetables; Fish / Marine Seafood; Other Agricultural / Industrial
Desired Daily Capacity	Under 50 kg (Portable DIY); 100 to 500 kg (Commercial Polyhouse); 1 Ton+ (Industrial Multi-Tunnel)
Home 'Dryer Model'	Portable DIY Solar Dryer (10-50 kg); Commercial Polyhouse Tunnel Dryer (100-500 kg); Multi-Tunnel Industrial Hybrid Dryer (1 Ton+); Custom Dryer Sizing Consult

9.2 Calculators and estimators

Element	Where	Inputs	Output
Calculate Your Solar Dryer Subsidy	/government-subsidies	State (6), Dryer model (4), Beneficiary (4)	'<n>% Capital Subsidy Available' + 'Apply' button
Instant State Subsidy Estimator	/subsidies	State/Region (6), Product capacity (4), Beneficiary (4)	'<n>% Government Assistance' + 'Apply with ZeniTEK'
'Interactive Profit & Sizing Calculator'	Home	None (slideshow only)	Fixed advantage cards per slide

9.3 Other interactive elements

Element	Where	Behaviour
Photo carousel	Home hero	3 photos, auto every 5 s; arrows; dots
Product slideshow	Home 'calculator'	5 slides, auto every 5 s with progress bar; arrows; dots
Model showcase carousel	Home	6 models; arrows; 'Go to <model>' buttons
Interactive map (Leaflet)	Home, Solar Dryer Models, Installations	35 pins; state filter with counts; search; Satellite/Terrain/Map layers; zoom; fit-all; pin pop-ups linking to site pages
Location map	Gallery photo pages	Street map at the photo's GPS point; zoom
Category filter + search	Gallery	7 chips with counts (kept in ?cat=); search across title, crop, model, location, state
Model category filter	Solar Dryer Models	All (8) / Box (3) / Tunnel (5)
Expandable cards	Solar Dryer Models (models, brochure pages, projects)	'View …' toggles an in-card panel
Project search, year & state filters, pagination	Solar Dryer Models	6 per page; First/Previous/Next/Last
Segment tabs	Applications	Food & Agriculture / Marine & Seafood / Industrial & Biomass
Table search	Applications, Crop Preservation Guide	Filters rows as you type
Project filter tabs	About Us	All / Solar Thermal / Agri-Solar / PV Test Labs
Logo marquees	Home, About Us	Continuously scrolling partner logos
Lightboxes (full-screen viewers)	About (projects, photo reel), Solar Dryer Models (brochure pages), solution pages (CMS images), gallery photo pages	Click to enlarge; click outside / × / Esc to close; page scroll locked
Photo thumbnails	Model pages, gallery photo pages, installation pages	Switch the main image
Exterior / Interior switch	Project #06 (Mulbagal)	Switch between two photos
Previous / Next project	Project pages	Step through the 25 projects
Share link	Project and gallery photo pages	Copies the page link to the clipboard ('Link copied')
Brochure page jump links	Brochure reader	Jump to page N
Language switcher	Navbar / mobile menu	6 languages; remembered in the browser
Mobile menu & accordions	Navbar < 1024 px	Slide-down drawer; Products and Gallery accordions
Breadcrumb + Back	Every page except Home	Trail links; Back returns to previous page or parent
Floating WhatsApp	Every public page	Opens WhatsApp chat

Element	Where	Behaviour
Report-a-bug button	Public pages (signed-in testers/client admin only)	Captures screenshot and page details into a bug report

10.3 Visual content types

Type	Details
Real photographs	All product and installation imagery is real field photography (the code notes 'no AI renders').
Brochure pages	Scanned brochure pages shown as images (viewer and reader).
Logos	ZeniTEK logo and emblem; 10 partner/client logos.
Icons	Line icons from the lucide-react library (e.g. sun, thermometer, sprout, badge-check); WhatsApp logo drawn inline.
Maps	Leaflet maps with Esri World Imagery (satellite), Esri terrain and OpenStreetMap-style tiles; OpenStreetMap on photo pages.
Video	Three YouTube embeds on Farmer Stories (all the same placeholder video). No other video; calculator-demo.mp4 unused.
Data tables	Crop matrices, specification tables.

10.4 Alternative text (alt) coverage

Across all 136 rendered addresses, 831 content images were found (map tiles excluded); 232 have empty alt text (27%). Empty alt text is mostly on decorative hero backgrounds and Products-page card images, which is acceptable for decorative images; product and gallery photos carry descriptive alt text.

10.5 Unused or missing visual assets

- hero-carousel/slide-1–3.jpg, pdf-gallery/* (7 images), calculator-demo.mp4 and india_states.* are shipped but never referenced (they still add to the deployed size).
- src/data/extractedPhotosMeta.json, src/data/india_states.json and the 'cropCalculations' data in sampleData.js are not used by any page.

- Only 30 of the 45 real photos are described in the gallery; some 'Browse Full Gallery (45 Photos)' text promises all 45.
- /favicon.svg is referenced but missing, so browsers show no site icon.

11 SEO and Metadata Analysis

11.1 Global metadata (index.html)

Default title	ZeniTEK Solar Thermal Solutions | Polyhouse & Industrial Solar Dryers
Meta description	Leading MNRE & ISO 9001 certified solar thermal dryer manufacturer in Coimbatore, Tamil Nadu. 100% solar powered hygienic food dehydration for farmers & exporters.
Language attribute	<html lang='en'>, updated to the chosen language
Viewport	width=device-width, initial-scale=1.0 (mobile-friendly)
Favicon	/favicon.svg — file missing
Fonts	Google Fonts: Inter, Outfit
Open Graph / Twitter cards	None
Canonical URL	None
robots.txt / sitemap.xml	Not present
Structured data (JSON-LD)	None

11.2 Page titles and H1 per page

Route	Browser tab title	H1	H1 count
/	ZeniTEK | Solar Dryers & Solar Thermal Systems	Stop Post-Harvest Loss. Multiply Your Farm Profits.	1
/products	Products | ZeniTEK	Solar Drying & Energy Solutions	1

11.3 Findings

Area	Finding	Effect
Rendering	Single-page app: all content is built by JavaScript in the browser; the HTML sent to the browser is an empty shell.	Search engines that do not run JavaScript, and link previews (WhatsApp, Facebook), see only the default title/description.
Meta description	One description for every page; it says 'Coimbatore' while the addresses are in Erode and Namakkal.	Same snippet for all pages; location mismatch.
Titles	Every page sets a distinct '<Page> | ZeniTEK' tab title; solution pages use '<Title> | ZeniTEK Solar Thermal Solutions'.	Good.
H1	Every public page has exactly one H1. Project pages put an H2 before the H1; the project 'not found' state has no H1.	Minor heading-order issue.
Social sharing	No Open Graph / Twitter tags.	Shared links show no image or tailored text.

Area	Finding	Effect
Crawl aids	No robots.txt, XML sitemap or canonical tags (the HTML Site Map page exists).	Slower discovery of the 101 detail pages.
URLs	Readable, keyword-rich addresses (/solar-dryer-models/soldry-1210-150, /crop-preservation-guide).	Good.
Languages	6 languages share the same address; no hreflang or per-language URLs.	Only one language can be indexed.
Images	Descriptive alt text on product/gallery photos.	Good for accessibility and image search.
Favicon	Missing.	No icon in tabs, bookmarks or search results.

12 Technical Architecture Overview

12.1 Architecture

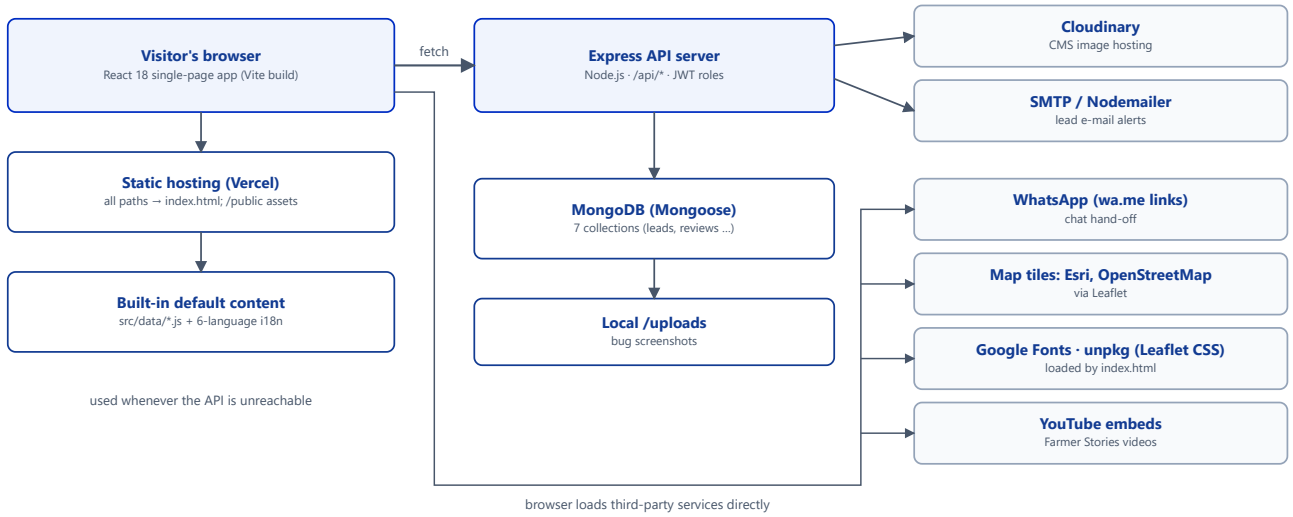

Figure 12.1 — System architecture

12.2 Technology stack

Layer	Technology	Notes
Front-end framework	React 18.3 + Vite 5	Single-page app; admin dashboards lazy-loaded
Routing	react-router-dom 6	Routes in src/App.jsx; page tree in src/data/siteMap.js
Styling	Tailwind CSS 3.4	Utility classes; brand colours #002DC2, #123B92, #23AC39
UI libraries	lucide-react (icons); framer-motion	framer-motion is listed as a dependency but not used anywhere
Maps	Leaflet 1.9 + react-leaflet 4	Esri and OpenStreetMap tiles
Screenshots	html2canvas, html-to-image	Bug-report screenshots
Back end	Node.js, Express 4 (ES modules)	REST API under /api, version 2.1.0
Database	MongoDB via Mongoose 8	MongoDB Atlas or local; in-memory fallback for leads/reviews/projects
Auth	jsonwebtoken + bcryptjs	Roles: client, developer, tester; accounts from .env; login rate-limited
Uploads	multer, Cloudinary (multer-storage-cloudinary)	CMS images to Cloudinary; bug screenshots to /uploads/bugs
E-mail	Nodemailer (SMTP)	New-lead notifications
Reports	exceljs	Developer bug report download

Layer	Technology	Notes
Validation	express-validator	Lead fields
Hosting	Vercel (vercel.json rewrites all paths to index.html)	start.bat runs both servers locally on ports 3000 and 5000

12.3 Project structure

```
ZeniTEK/
├── frontend/                React + Vite website
│   ├── index.html           HTML shell, global title & meta description

```

12.4 Routing configuration

Route	Component
/	HomePage
/about	AboutUsPage
/products	ProductsPage
/solar-dryer-models	SolarDryersPage
/solar-thermal-system … /technical-spec-sheets (6)	SectionDetailPage (slug prop)
/dryers, /dryers/:id, /map	Navigate (redirects)
/installations	MapPage
/projects/:id	ProjectDetailPage
/stories	FarmerStoriesPage
/applications	ApplicationsPage
/gallery	GalleryPage

Route	Component
/gallery/:id	GalleryDetailPage
/subsidies	SubsidiesPage
/contact	ContactUsPage
/solar-dryer-models/:modelId	DryerModelPage
/installations/:id	InstallationPage
/quote	QuotePage
/brochures/:brochureId	BrochurePage
/privacy, /terms	LegalPage (type)
/sitemap	SitemapPage
*	NotFoundPage
/admin/login	AdminLoginChooser (lazy)
/admin/developer/*	DeveloperApp (lazy)
/admin/tester/*	TesterApp (lazy)
/admin/*	ClientAdminApp (lazy)

12.5 Reusable components

Component	Role
Navbar	Header, mega-menu, gallery menu, language, quote button, mobile drawer, adaptive density
SiteHeader	Breadcrumb + Back; sets tab titles
Footer	4 columns, quick links, legal bar
PageHero	Full-bleed photo hero with left-aligned title (used by most pages)
LeadForm	The quote form (prefill matching, submit, WhatsApp hand-off)
MapComponent	Leaflet map of 35 sites with filters/search/layers
ROICalculator	Home product slideshow + advantage cards
ProductModelShowcase	Home model carousel
LanguageWidget	Language picker (dropdown / list)
WhatsAppWidget	Floating WhatsApp button
BugReportButton / BugReportDrawer	Tester bug capture on public pages
IconTile, SectionDividers	Icon badges; alternating section dividers
AdminLayout	Shared dashboard shell for the three staff apps

12.6 Back-end API

Endpoint	Methods	Access	Purpose
/api/health, /api	GET	Public	Health check; endpoint index
/api/auth/login, /api/auth/me	POST, GET	Public / signed-in	Sign-in (client, developer, tester); current user
/api/leads	POST / GET, DELETE	Public POST / client	Enquiries
/api/reviews	GET, POST / PUT approve, DELETE	Public / client	Testimonials (new reviews wait for approval)
/api/projects	GET / POST, PUT, DELETE	Public GET / client	Map installations
/api/public/products|sections|gallery	GET	Public	Published CMS content
/api/products, /api/sections, /api/gallery	GET, POST, PUT, PATCH, DELETE	Client	CMS management (images to Cloudinary)
/api/admin/overview	GET	Client	Dashboard counts + latest enquiries
/api/bugs (+ /reports/summary, /reports/excel, /:id/complete)	GET, POST, PUT, PATCH, DELETE	Tester / developer / client (read)	Bug tracker with 7-day overdue flag
/api/seed	GET, POST	Client	Seed sample data

Database model	Main fields
Lead	name, phone, whatsappPreference, state, district, clientType (5), cropType (6), capacityNeeded (3), message, submittedAt
Review	name, role, location, rating 1–5, comment, videoUrl, approved
Project	title, locationName, latitude, longitude, cropDrying, dryerType, capacity, imageUrl, description
Product	name, slug, category (Tunnel Type, Box Type, Solar Thermal, Accessories, Other), descriptions, images, features, specifications, displayOrder, published
Section	slug, title, subtitle, thumbnail, content, highlights, images, displayOrder, published
Gallery	title, description, category, image, location, state, productModel, capacity, lat/lng, displayOrder, published
Bug	bugNumber, title, description, affectedPage, steps, expected/actual, severity, priority, status, category, screenshots, context (browser, OS, viewport, console errors), history

12.7 Language support

Six languages: English (en), Tamil (ta), Hindi (hi), Malayalam (ml), Telugu (te), Kannada (kn). Translations live in `context/LanguageContext.jsx` (~300 keys per language) and seven page files in `src/i18n/` (about 138, dryers 163, gallery 131, sections 242, common 219, navbar 26, site 21 keys) — every language has the same number of keys. Missing keys fall back to English. Content that comes from data files (model specifications, project and photo descriptions, CMS text) is shown in English in all languages. Two mobile-menu labels ('Subsidies', 'Research & Dev') are hard-coded in English.

12.8 Responsive design

- Tailwind breakpoints (sm 640, md 768, lg 1024, xl 1280 px) are used throughout; grids collapse to one column on phones.
- The navbar measures itself and tightens in four steps (normal → tighter → compact language/quote → two rows) so long translations never overflow; below 1024 px a ☰ drawer is used.
- Wide tables (crop matrix) scroll sideways on phones with a 'swipe' hint; long select labels wrap on mobile.
- Touch devices: Products/Gallery open by tap instead of hover; maps require a click before scroll-zoom.

12.9 Implemented vs. planned or non-functional features

Feature	Status	Detail
Quote / contact enquiries with WhatsApp hand-off	Implemented	Requires the API for saving; WhatsApp fallback otherwise
E-mail alert for new enquiries	Implemented (needs SMTP settings)	Failures are only logged
Subsidy estimators (2)	Implemented	Percent depends only on beneficiary category
Installations map, gallery, brochure reader, model/project/site pages	Implemented	Built-in data
6-language interface	Implemented	Data-driven text stays English
Client Admin CMS, Developer & Tester bug tracker	Implemented (login required)	
CMS-managed products on Solar Dryer Models	Implemented, inactive by default	Shows only when products are published
'Interactive Profit & Sizing Calculator'	Not functional as described	No inputs; it is a slideshow
Customer video reviews	Placeholder	All three use the same placeholder YouTube video
Downloadable CAD blueprints / schematics	Not present	Only 3 brochures are offered
IoT telemetry / remote alerts, mobile telemetry	Described only	Product claims; no such feature in the website
Installation video tab	Built, unused	No data has videos
Map quote callback (onSelectProjectQuote)	Not wired	Passed to the map but never used
Favicon, SEO tags, XML sitemap	Missing	See Chapter 11

13 Content Gaps and Observations

Issues found while comparing pages with each other and with the source code. Severity reflects the likely impact on a visitor's trust or on enquiry data: **High** (misleading or data-losing), **Medium** (inconsistent or confusing), **Low** (polish/technical), **Info**.

13.1 Observations

#	Severity	Type	Where	Observation	Suggestion
1	High	Placeholder content	Farmer Stories — Regional Client Video Reviews	All three 'on-farm interview' videos embed the same YouTube ID (dQw4w9WgXcQ), a well-known music video, not ZeniTEK customers. The testimonials themselves come from a built-in sample file.	Replace with real videos or remove the video players; confirm the testimonials are genuine.
2	High	Misleading label	Home — 'Interactive Profit & Sizing Calculator'	The heading says 'Select your crop and daily harvest quantity to estimate drying speedup & profits', but there are no inputs; it is an auto-rotating slideshow.	Rename the section or build the calculator.
3	High	Data quality	Contact form	The form has no State/District fields but submits the defaults 'Tamil Nadu' / 'Coimbatore', so every Contact enquiry is stored with that location. It also shows 'thank you' when the server rejects the data.	Add the fields (or send blanks) and show errors.
4	High	Inconsistent facts	Model capacities across the site	Same model, different capacities: SOLDRY 1210 = 150–500 kg (Home), 100–300 kg (footer), 300–500 kg (subsidy calculator), 60–300 kg (model page); SOLDRY 1709 = 400–1,200 kg (Home, Subsidies), 500 kg–1 Ton (footer, calculator), 80–400 kg (model page); SOLDRY 300 = 300–1,000 kg (Home) vs 180–900 kg (model page); SUNDRY 50 = 50 kg (footer) vs 20–100 kg.	Use one source of truth (the model data).
5	Medium	Inconsistent contact	WhatsApp numbers	Three WhatsApp numbers are used: +91 80986 13422 (most pages), +91 89038 52623 (About page) and +91 94437 29576 (all 30 gallery photo pages).	Confirm the correct sales number(s).
6	Medium	Inconsistent facts	Company location	Addresses are in Erode and Komarapalayam (Namakkal), but the meta description says 'manufacturer in Coimbatore', Farmer Stories says 'Our Coimbatore engineers' and forms default to Coimbatore.	Align wording.
7	Medium	Duplicate content	/subsidies and /government-subsidies	Two separate subsidy pages, each with its own calculator, and different option labels (e.g. 'Tamil Nadu (TNAU / SHM)' vs 'Tamil Nadu (Horticulture & TEDA)'; different model capacities).	Merge, or make one link to the other.

#	Severity	Type	Where	Observation	Suggestion
8	Medium	Logic	Both subsidy calculators	The result changes only with the beneficiary category; the state and model selections have no effect on the percentage.	Make clear it is indicative, or use state/model.
9	Medium	Unfulfilled promise	Technical Spec Sheets	Title and highlights promise 'Engineering CAD Blueprints' and 'Comprehensive Electrical & Mechanical Schematic CAD Drawings Available for Download'; only the 3 brochures are offered.	Add the drawings or change the wording.
10	Medium	Inconsistent counts	Crop coverage claims	'50+ crops/products' (Applications, Crop Guide, Home link) while the tables list 7 and 6 crops; navbar subtitle says '50+ Agricultural Commodities'.	Back the claim with a fuller list or soften it.
11	Medium	Inconsistent data	Applications matrix vs Crop Preservation Guide	Moringa 88% → 8% in 1.2 days vs 78% → 7% in 8–10 hours; copra 2.5 days vs 28–36 hours.	Reconcile the figures.
12	Medium	Inconsistent counts	Gallery photo count	'Open All 30 Real Photos Gallery' and 'Browse Full Gallery (45 Photos)' / '…all 45 real photographs' both open the same 30-photo gallery.	Use 30, or catalogue all 45 photos.
13	Low	Data quality	Subsidies — Apply with ZeniTEK	Puts the selected state into the District field of the quote form.	Map state → State.
14	Low	Data quality	Home quick form → /quote	Its 'Dryer Model' values don't match the quote form's capacity options, so the capacity resets to '100 to 500 kg' and the choice is moved into the message.	Use matching options.
15	Low	Duplicate titles	Applications tabs	Marine tab has two cards titled 'Salted Fish & Seafood'; Industrial tab has two titled 'Other Biomass & Crops'.	Give each card its own title (e.g. Shrimp, Sludge, Rubber/Timber).
16	Low	Labels	Get Free Quote form	The district field is labelled 'State / District' next to a separate 'State' field.	Label it 'District / City'.
17	Low	Naming	Footer models	'SOLDRY 300 Industrial Multi-Unit Rig' opens the SOLDRY 1210 - 300 tunnel; 'SUNDRY 12 & 6' opens only SUNDRY 12; the catalogue button says '9 Pages' while the brochure PDF has 10.	Align names with model pages.
18	Low	Error handling	Gallery photo pages	An unknown address such as /gallery/xyz shows photo-01 instead of 'not found' (the not-found message exists but is unreachable).	Show the not-found state.
19	Low	Headings	Project pages	An H2 appears before the H1; the project 'not found' state has no H1 and its breadcrumb reads 'Installations › Installations'.	Fix heading order.
20	Low	Data quality	Project pages — 'Map Reference / Pin'	Shows internal notes such as 'Location pending', 'Approx. locality match', 'Approx. village reference'. Projects #03 and #09 are both titled 'Vazhapady'.	Clean values; disambiguate titles.

#	Severity	Type	Where	Observation	Suggestion
21	Low	Unverified claims	Statistics	'1,200+ Dryers Installed' (Home), '1,200+ Rural Families Empowered', '₹4.2 Cr+ Total Farmer Value Added', '500+ MT/Tons' and 'Patented Aerodynamic' are stated without sources; documented installations number 25 projects / 35 map sites.	Keep evidence ready or qualify the claims.
22	Low	Legal	Privacy Policy / Terms	Very short. Privacy does not mention WhatsApp hand-off, e-mail notification, data retention or browser storage (language choice). Terms show 'ISO Certification: ZNK-9001-2026'.	Expand; verify the certificate reference.
23	Low	Translation	Mobile menu	'Subsidies' and 'Research & Dev' are hard-coded in English in the mobile menu.	Use translation keys.
24	Low	Technical	Favicon & SEO	Missing favicon.svg; no per-page descriptions, Open Graph tags, canonical, robots.txt or XML sitemap.	See Chapter 11.
25	Low	Technical	Unused assets & code	Unused: hero-carousel/*, pdf-gallery/*, calculator-demo.mp4, india_states.*, extractedPhotosMeta.json, cropCalculations; map 'quote' callback unused; installation video tab never shown; framer-motion dependency unused.	Remove or use.
26	Info	Testimonials	Home vs Farmer Stories	Home always shows the 3 sample reviews; Farmer Stories shows approved database reviews when available — the two pages can disagree.	Load the same source on both.

13.2 Capacity statements compared

Model	Model page (source data)	Home showcase / slideshow	Footer	Subsidy calculators
SOLDRY 1210 (-150)	60–300 kg	150–500 kg	100–300 kg	300–500 kg (/government-subsidies); 150–500 kg (/subsidies)
SOLDRY 1709 (-200)	80–400 kg	400–1,200 kg	500 kg–1 Ton	500 kg–1 Ton; 400–1200 kg
SOLDRY 300 (1210-300)	180–900 kg	300–1,000 kg	'Industrial Multi-Unit Rig'	'Multi-Unit Plant'
SUNDRY 50	20–100 kg	20–100 kg	50 kg	50 kg Farm Unit; 50–100 kg
SUNDRY 12 / 6	5–25 kg / 2.5–12.5 kg	5–25 kg / 2.5–12.5 kg	'Portable Micro Dryer Units'	—

13.3 Duplicate and repeated content

- The 35-site map appears on Home, Solar Dryer Models and Installations (same component — intentional reuse).
- Two subsidy calculators (/subsidies and /government-subsidies) and two subsidy explanations.

- The three sample testimonials appear on Home and Farmer Stories.
- Brochure cards appear in the footer, Gallery (Brochures filter), Technical Spec Sheets and the brochure reader.
- Gallery photos 01–08 are repeated on Solar Dryer Models ('Real Operational Solar Dryers in Action').
- Many projects appear twice: as a /projects/:id case study and as a /installations/:id map site (e.g. Lakhanpuri, Pollachi, Mulbagal) with different wording and photos.

13.4 Content that could be added

- Prices or price ranges (the site never states a price; every path leads to a quote).
- An FAQ (no FAQ section exists anywhere on the site).
- Real customer videos and named, verifiable case studies beyond the single Pollachi example.
- Warranty, service and spare-parts information (only polycarbonate '10-Year Warranty' is mentioned).
- A team / leadership section (only one contact person, Balakrishnan, is named).
- A Google Maps location for the offices.

14 Final Website Summary

The ZeniTEK website is a well-structured, multilingual product and lead-generation site for solar dryers. It is organised around a seven-item navbar (Home, Products, Gallery, Subsidies, R&D, About Us, Contact Us) and a single conversion point — the Get Free Quote page — which every call-to-action feeds, pre-filled, before handing the conversation to WhatsApp.

14.1 What the site contains

- **21 public pages**: Home, Products hub, Solar Dryer Models, six solution pages (Solar Thermal System, Agri-Solar Innovation, Photovoltaic Solutions, Government Subsidies, Crop Preservation Guide, Technical Spec Sheets), Applications, Subsidies, About Us, Contact Us, Get Free Quote, Gallery, Installations, Farmer Stories, Privacy Policy, Terms of Service, Site Map and a 404 page.
- **101 detail pages** generated from data: 8 dryer models, 25 projects, 35 installation sites, 30 photos and 3 brochure readers.
- **Products**: the SUNDRY box dryers (6, 12, 50) and SOLDRY tunnel dryers (1210-150, 1709-200, 2008-250, 1210-300, Modular to 1,000 sq.ft), with full specifications, a 7-step working principle and three PDF brochures.
- **Proof of credibility**: certifications (MNRE, ISO 9001:2015), an installation map of 35 sites in 9 states, 25 project case studies, 30 real photos, partner logos (IIT Bhubaneswar, Anna University, SRM, Mitsui Chemicals, Indo-MIM, SELCO…) and testimonials.
- **Decision help**: two subsidy estimators, four scheme summaries, crop drying tables and a five-step subsidy process.
- **Staff tools**: a Client Admin CMS (enquiries, products, sections, gallery, reviews) and a tester/developer bug tracker.

14.2 Strengths

- Clear structure with breadcrumbs, a Site Map page and readable addresses.
- Every page offers a next step; quote buttons pre-fill the form.
- Real photography throughout and detailed product specifications.
- Six Indian languages with a carefully adaptive navbar.
- Works even when the server is down (built-in content + WhatsApp fallback).

14.3 Priorities to fix

- Replace the placeholder videos and the non-functional 'calculator' label.
- Fix the Contact form's hidden Tamil Nadu / Coimbatore values.
- Use one set of model capacities, one WhatsApp number and one stated location everywhere.
- Merge or align the two subsidy pages and calculators.
- Add favicon, per-page meta descriptions, Open Graph tags and an XML sitemap.

> **Verification.** All 21 public routes, all 101 detail pages, 3 redirects, 4 staff sign-in screens and 5 'not found' tests (136 addresses) were opened and checked — see Appendix A. Every page and section of the public site is documented in Chapters 3 and 4.

A Appendix — Route Verification Log

Every address requested during the browser check, the address it ended on, and the main heading that rendered.
